BRIHANMUMBAI MUNICIPAL CORPORATION

YEAR BOOK 2026

Published by Shri. Manoj N. Kamble, Municipal Secretary for the Brihanmumbai Municipal Corporation, Municipal Head Office, Mahapalika Marg, Mumbai - 400 001.

Printed by : Manager,
Mahanagarpalika Mudranalaya, Mumbai - 400 011.

COAT OF ARMS

Brihanmumbai Municipal Corporation

The four-panel shield is supported by an interwining floral border in gold colouring. A lotus in bloom, emblem of purity and beauty, is at the bottom and the lion puissant surmounts it. The panels are inscribed as follows :--

The concept embodied is the position of Mumbai as indeed the Gateway of India.

A symbolic factory inscribed in a general wheel signifies the industrial importance and greatness of Mumbai.

The three sailing ships in outline denote Mumbai's pre-eminence as a port and commercial centre.

A symbolized diagram of the Corporation main building depicting the seat of Local Self-Government in Brihanmumbai.

At the base shield, the motto in Sanskrit "यतो धर्मस्ततो जयः" is inscribed.

Transport Undertaking.

Smt. Ritu Rajesh Tawade,
Mayor of Mumbai

INTENT

As the Mayor of Mumbai it is my first time to have the honour of publishing the 'Year Book 2026' of Brihanmumbai Municipal Corporation on the eve of Indian Independence Day.

I feel rightly proud to be the first citizen of Mumbai, a developed metropolis in India, a beautiful natural harbour situated on the shores of the Arabian Sea, and an international city known as the industrial and financial capital of India. Since taking the charge as first citizen of Mumbai, I am also been working with this sense of duty.

The ancient monuments that tell the historical memories of the Mumbai metropolis attract tourists from home and abroad. Mumbai is the financial, commercial and trade hub of India and one of the largest and most densely populated cities in the world. The 'Brihanmumbai Municipal Corporation', which runs the civic administration of this Mumbai city, is the best local self-government in the world.

'Brihanmumbai Municipal Corporation' is no longer limited to civic services and basic amenities. Ambitious and mega projects that will shape the future of Mumbai's development and progress are coming to fruition. With the completion of the Mumbai coastal road, traffic in South Mumbai has become easier and faster. Meanwhile, the work on the northern coastal road has now been taken up. Keeping in mind the near future needs of Mumbai, the construction of Gargai dam has been approved. Seven sewage treatment plants to be set up to improve the quality of sea water on the Mumbai coast will soon be completed. An integrated flood control plan worth Rs. Thirteen Thousand crore has been sent to the Central Government for approval as a permanent solution to the monsoon floods in Mumbai.

The cement concreting project of 700 km long roads undertaken for pothole-free roads is in its final stage. Various activities are being implemented to empower the public health system of the Municipal Corporation, from the redevelopment of the hospital to the Hindu Hriday Samrat Balasaheb Thackeray Aapla Dawakhana. The annual Clean Mumbai League campaign is being run with public participation to improve public cleanliness. To increase the green areas in Mumbai, a tree plantation campaign is being implemented on both sides of public roads and under flyovers wherever possible.

To bring transparency in the administrative transactions of the Municipal Corporation, procurement from the government website i.e. 'Government e Market Place (GeM)' has been made mandatory. Advanced technologies like artificial intelligence (Al), machine learning and cloud computing are also being adopted in administrative work. The Occupancy Certificate (OC) Abhay Yojna has been approved to provide relief to thousands of house owners in Mumbai. An integrated transport and commercial hub (Multi-modal Transport Hub) is to be built on all entry routes in Mumbai, of which its construction has started at Dahisar. Similarly, measures are being taken at various levels for environmental protection and conservation in Mumbai metropolis, along with work on many other issues.

The annual publication will provide information to the public about the various departments of the Brihanmumbai Municipal Corporation as well as the public services provided by the Municipal Corporation. Therefore, I am confident that this publication will be very informative and enlightening.

My special thanks to the Municipal Secretary, Public Relations Officer and Manger, Municipal Printing Press and their staff for their endeavour to make this Year Book – 2026 an informative and vital digital publication.

Ritu Rajesh Tawade
Mayor of Mumbai.

PREFACE

I have a great pleasure in writing preface to the Year Book of the Brihanmumbai Municipal Corporation, which publishes every year on the occasion of Independence Day. This publication is published in Marathi and English languages.

The aim and objective of publishing this Year Book is to provide a explicit framework of the Civic Government of Greater Mumbai; its history, various basic infrastructure projects implemented by Brihanmumbai Municipal Corporation, as well as the facilities and services provided. Apart from briefly furnishing a vivid pictures of the manifold services of the Corporation, the importance of this publication is further enhanced by insertion of Statistical information and latest photographs which highlight the special feature of the working of some important Civic Departments. It gives whole idea about the manifold services provided by this corporation thus, the publication becomes more enlightening and educative to the citizens.

Brihanmumbai Municipal Corporation is looking after the affairs of the gigantic city like Mumbai and is the leading local self government body in India and largest in Asia. Brihanmumbai Municipal Corporation has played an important role in the development and progress of this city. Brihanmumbai Municipal Corporation is always striving to maintain its reputation as the 'Best city of India'.

I would like to express my sincere thanks to all the Heads of the Departments for their co-operation in publishing this publication. I would like to make a special mention here, the co-operation extended by the Public Relations Officer, Manager, Municipal Press and Director (Information Technology) for making the layout of this publication very neat and attractive. Also, I highly appreciate the diligent efforts of my office staff to complete the work of this publication in a timely and accurate manner.

Manoj N. Kamble,
Municipal Secretary.

Mumbai, 15th August 2026.

City Government

Preamble :-

The Brihanmumbai Mahanagarpalika covers an area of 483.14 Kms., catering to the civic needs of over 1,30,60,783 Citizens. There are approximately 86,681 employees in different categories.

Two different offices which hold the balance of presitge and powers in this City Government are the Mayor of Mumbai and the Municipal Commissioner. The ofiice of Mayor combine a functional role of Chairing the Corporation meetings as well as ceremonial role associated with, being the first Citizen in the premier City of India. Thus, the Mayor being the ceremonial head symbolizes their Corporation spirit. As per amended Act, besides the Mayor of Mumbai, the Dy. Mayor is also appointed by the selected Councillors. The tenure of the Mayor and the Dy. Mayor shall be of two and half years.

The Commissioner, a key figure in the local self government, is the executive head and is virtually under constant watch by the Citizens, Councillors and the State Administration. Each section looks upon him expectantly for results in the administration. The Mumbai Municipal Corporation Act, 1888, as amended up to date envisages separation of powers between the deliberative and executive wing making the Municipal Commissioner theoretically overall powerful executive head.

The important issue, therefore, that characterises the City Government is the relationship between the legislative and policy making bodies on the one side and the executive and administrative agencies on the other. This involves a healthy adjustment between the principle of democracy and the need for an efficient civic administration without factionalism. It rests on the following three principles :-

a) It recognizes the distinction between policy making and the policy executions,

b) It entrusts the policy making function to the corporate body and the policy execution to a single individual, the Commissioner, and

c) It makes the Commissioner more or less independent of the Corporation although the two always work in close co-operation.

The Mumbai Municipal Corporation Act of 1888, within the framework of which the Corporation and the Commissioner function has specified nine statutory collateral authorities. These are (a) a Corporation; (b) a Standing Committee; (c) an Improvements Committee; (d) a Brihanmumbai Electric Supply and Transport Committee; (e) an Education Committee; (f) a Wards Committee; (g) a Mayor; (h) a Municipal Commissioner; (i) a General Manager of the Brihanmumbai Electric Supply & Transport Undertaking charged. with the distinct responsibilities of City Govemment Each Operates Within the limitations set for it. Though the executive authority vests in the Municipal Commissioner, the 227 elected representatives, the Municipal Councillors do exercise general authority over the civic affairs through budgetary and financial controls and other financial proposals and by giving approvals to appointments to Statutory posts.

Out of total 227 seats in the Corporation, 6 seats of the Councillors are reserved for women candidate belonging to Scheduled Castes and one seat is reserved for woman

candidate belonging to Scheduled Tribes, 31 seats are reserved for women candidate belonging to backward class of citizens and 76 seats are reserved for women from General category.

Besides, the Municipal Administration also consist of the Tree Authority appointed by the Corporation comprising of 13 Councillor Members and the Chairman of the Markets and Gardens Committee, being and ex-officio Member and Co-opted Members.

Apart from the five Statutory Committees, The Corporation also has appointed six Special Committees, viz. (1) The Works Committee (City), (2) The Works Committee (Suburbs), (3) The Public Health Committee, 4) The Markets end Gardens Committee, (5) The Law, Revenue and General Purposes Committee, and (6) The Women and Child Welfare Committee, which deal with specified subjects referred by the designations of these Committees. In addition, Consultative Committee, viz. Grants-in-Aid Committee has also been constituted for submitting proposals to the Corporation for awarding grants to certain institutions.

There are four Additional Municipal Commissioners and Dy. Municipal Commissioner / Jt. Municipal Commissioner / Director (Engineering Services and Projects) who assists the Commissioner in the overall management and supervision of the administration in this Corporation.

The centralized administrative system was re-organised in the year 1964, when for the first time the decentralized pattern was introduced. The object was to speed up disposal, improve efficiency and effect economy. In pursuance of this policy decision, the entire city is divided into seven administrative zones with 26 wards. The seven zones are supervised by the Jt. Municipal Commissioner / Deputy Municipal Commissioners with a certain number of Asstt. Municipal Commissioners working under them. In all, there are 24 Deputy Municipal Commissioners, which include 01 post of Director (Engineering Services & Projects) and out of these 23 posts, 07 posts are zonal and 16 posts are functional.

So far, Laws regarding Municipalities were passed mainly by the State Legislature. The recent 74th Amendment to the Constitution passed in 1992 has brought about radical changes and for the first time Municipalities have found a place in the country's constitution. By virtue of this amendment, the responsibility regarding economic planning and social justice has developed on Municipalities by special enactment of the State Legislature. The Indian Constitution has been amended with .the purpose of making administration of Local Self Government more public oriented and decentralise powers. Accordingly, Mumbai Municipal Corporation Act, 1888 has been amended adding therein Section 50(TT) which relates to the formation of the Wards Committees in the jurisdiction of the Brihanmumbai Mahanagarpalika. Therefore, there are 17 Wards Committees at present.

1. CIVIC SECRETARIAT :

(Municipal Secretary's Office) :

Deliberative wing of the Brihanmumbai Municipal Corporation is an unique body of delegated legislation. In the year 1873, the then Government had created three offices namely (i) Corporation, (ii) Standing Committee and (iii) Municipal Commissioner, vested with different responsibilities. The Civic Secretary's office also

came into existence in September 1873, headed by the Municipal Secretary, which works directly under the superintendence of the Standing Committee. The Civic Secretariat is responsible for preparation of Agenda and Proceedings of the Corporation as also of its various Committees and assists Councillors in matters pertaining to the deliberative works. Municipal Secretary is the custodian of common seal of the Corporation.

As provided under Section 77 (2) (b) of the Mumbai Municipal Corporation Act, 1888 as amended upto date the Municipal Secretary has the custody of all papers and documents connected with the proceedings of the Corporation and any committee appointed by the Corporation under Section 38 or 38(A), the Standing Committee and Sub-Committee thereof, the Improvement Committee and Sub-Committee thereof, the Education Committee and Sub-Committee thereof, and the Ward Committees. For easy access to the citizens of the decisions taken by the Corporation, as well as, by the various Statutory and Special Committees, at their respective meetings, the Agenda of the Corporation and of its various committees and decisions taken thereon are displayed on Brihanmumbai Municipal Corporation Portal since 31st May 2011.

Besides presiding over the Corporation Meetings, the Mayor is required to chair numerous functions being the first citizen of Mumbai. The Municipal Secretary's Office provides the secretarial assistance to the Mayor in all these aspects. Similarly, secretarial assistance is provided to the Deputy Mayor, Chairman of all the Committees and Leader of the House and Leader of the Opposition.

Reference books are made available for the Councillors in the newly renovated spacious Library at 1st floor of New extension building in Municipal Head office.

Sister City Relationship :

The concept of Sister City Relationship envisages partnership between cities for the development of Civic Infrastructure and Services. The ethos of setting up such relationship is to foster international amity and collaboration. Under the Sister City setup, cities share their expertise and resources in various areas like Engineering, Waste Management, Water and Sewage infrastructure, Gardens and Zoos, Culture, Literature, etc. The aim is to work together to solve common problems and improve the quality of life in these cities.

The Brihanmumbai Municipal Corporation has set up its first Sister City Relationship in the year 1965 with the City of Los Angeles, USA. Since then, Brihanmumbai Municipal Corporation has entered into such relationship with many different cities worldwide. These include Yokohama (Japan), Leningrad and Odessa Port (erstwhile USSR), Stuttgart (Germany), Plains Georgia, Honolulu and New York (USA), Zagreb (Yugoslavia), Barcelona (Spain), Busan and Seoul (South Korea), Nadi (Fiji), Jakarta (Indonesia), Antananarivo (Madagascar), Izmir (Turkey) and Shanghai (China) and Ho Chi Minh City (Vietnam)

International Relation Wing of Protocol & Liaison Department of Municipal Commissioner Office Co-ordinates, plans and organize the exchange between Mumbai's Sister Cities.

Tree Authority :

Due to rapid growth of urbanisation and industrialisation, large number of trees are being felled in the State of Maharashtra. By taking into consideration this fact and in

order to maintain the ecological balance in urban region, by regulating the felling of trees and providing for plantation of adequate number of trees thereby protecting and preserving trees in the urban areas of the State, the Government of Maharashtra has enacted an Act in the year 1975 viz, the Maharashtra (Urban Areas) Preservation of Trees Act, 1975 (Act No. XLIV). As per provisions of the Act, the Tree Authority was constituted in the year 1976, by the Corporation. The Act is further amended (Act No.7) in the year 1996 and is now titled as the Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1975. By virtue of this amendment, the Municipal Commissioner of Brihanmumbai Mahanagarpalika shall be the Chairman of the meeting of the Tree Authority instead of the Mayor.

After the General Election held on 15th January 2026, the Corporation has established the Tree Authority on 17th March 2026 as follows :-

Municipal Commissioner (Chairman)	01
Councillor Members	13
The Chairman, Markets and Gardens Committee (Ex-Officio Member) (vide Corporation Resolution) No. 1047, dated the 27th November 1975 Nominated Members (Nominated Members have not been appointed till date)	01
Total	**15**

As per Section 5 (1) of the said Act, the Corporation vide their Resolution No. 1142, dated 22nd March 2007 has appointed The 'Assistant Commissioners' of the wards, for the areas under their jurisdiction and the 'Superintendent of Gardens' for the entire Mumbai as 'Tree Officer' for the implementation of the object of the said Act.

2. STATUTORY MUNICIPAL AUDIT :

(Municipal Chief Auditor's Department) :

In regard to the creation of an independent Municipal Chief Auditors department, the amendments to the Mumbai Municipal Corporation Act, 1888 were so framed that the status of the Municipal Chief Auditor under the provision of the Act was made analogous to that of the Comptroller and Auditor General under section 169 of India Act, 1935 Subsequently the same was incorporated within the framework of the Indian Constitution.

As per Amendment 'Bombay Act 2 of 1938' of Mumbai Municipal Corporation as amended 1888. The Department of the Municipal Chief Auditor was constituted with effect from 1st April 1938. Municipal Chief Auditor is a Statutory Auditor of Brihanmumbai Municipal Corporation. As per provisions of Section 78A of the Mumbai Municipal Corporation Act, 1888, on and from the 10th March 2011 being the date of commencement of section 2 of the Maharashtra Municipal Corporation (Amendment) Act, 2011 the State Government shall appoint, on deputation a suitable officer, not below the rank of the Joint Director from Maharashtra Finance and Accounts Services to be the Municipal Chief Auditor on such terms and conditions as may be prescribed who shall perform such duties as he is directed by this Act to perform. However, from 26.09.2022 the State Government shall appoint on deputation a suitable officer in the rank of Director instead of Joint Director from Maharashtra Finance and Accounts services to be the Municipal Chief Auditor. Under Section 78B (1) (A) of this Act, Standing Committee appoints such

Assistant Auditors, Clerks and Servants to be immediately subordinate to the Municipal Chief Auditor as they think fit. As per section 78 B (C) subject to the orders of Standing Committee prescribe or delegate to the Municipal Chief Auditor the power of prescribing the duties of the said Assistant Auditors, Clerk and Servants and as per section 78B(2), subject to the order of Standing Committee, the Municipal Chief Auditors exercises supervision and control over the act & proceeding of the said Assistant Auditor, Clerk and Servant.

Duties and powers of the Municipal Chief Auditor are specified under Section 135, 136, Schedule 'EE' and 137 of the Mumbai Municipal Corporation Act, 1888 as amended up to date. The power of Municipal Chief Auditor with regard to disapproval of, and the procedure with regard to settlement of objections to expenditure from the revenues of the Corporation shall be such as may be prescribed by rules or orders made by the Standing Committee in consultation with the Chief Auditor and sanctioned by the Corporation in the case of expenditure debited to the Municipal fund and by the 'Brihanmumbai Electric Supply and Transport Committee' in the case of expenditure debited to the Brihanmumbai Electric Supply and Transport Fund. The Municipal Chief Auditor submits a report to the Standing Committee on any significant irregularities found in the expenditure incurred by the Corporation or in the recovery of dues or in its accounts. Municipal Chief Auditor shall conduct monthly examination and audit of the municipal accounts and shall report thereon to the Standing Committee who shall publish monthly an abstract of the receipts and expenditure of the month last preceding, signed by not less than two members of the said Committee and by the Municipal Chief Auditor. The Standing Committee may also from time to time and for such period as they think fit conduct independently an examination and audit of the Municipal Accounts. For these purposes the Standing Committee and the Municipal Chief Auditor shall have access to all the municipal accounts and the to all records and correspondence relating thereto and the Commissioner shall forthwith furnish to the Standing Committee or the Municipal Chief Auditor any explanation concerning receipts and disbursements which they may call for. Municipal Chief Auditor carries out other duties as may be assigned by the Corporation or the Standing Committee on the audit of the Municipal Fund, Water Sewerage Fund and Water Supply and Consolidated Loan Fund carry out other duties assigned by B.E.S.T. Committee related to the audit of Brihanmumbai Electric Supply and Transport Fund. As per section 137(3) of the Mumbai Municipal Corporation Act, 1888 the Municipal Chief Auditor as soon as may be after the commencement of each official year shall deliver to Standing Committee a report upon the whole of the Municipal Accounts for the previous official year after statutory audit of Corporation's General (Fund Code - 11, 21, 22, 23, 50, 60 and 70), Health (Fund Code - 12), Education (Fund Code - 30) and Water Supply and Sewerage (Fund Code - 40) submits Annual Audit Report to the Standing Committee in case of Corporation and to the B.E.S.T. Committee in case of Brihanmumbai Electric Supply and Transport Undertaking. In Compliance of the provisions of this Act, every report submitted to the Standing Committee by the Municipal Chief Auditor and requested to be placed the same report before the Corporation as well as any statements prepared in respect of discharge of duties and powers under the Act and requested to be put before the Corporation, every such statements Standing Committee will arrange to put before the Corporation with its opinion so that the Corporation may take such measures as it deems necessary.

The Municipal Chief Auditor is independent from the Municipal Commissioner and his department directly works under Standing Committee. The department has maintained a

high standard related to direct recruitment of it's staff. Qualification for the post of Junior Audit Assistant is Commerce degree passed with Financial Accounting and Auditing or Advance Accounting and Auditing or Accounts and Finance (B.A.F.) or Banking and Insurance Business (B.B.I.) or Bachelor of Management Studies (B.M.S.) or Financial Management (B.F.M.) or Business Administration with Finance (M.B.A. with Finance).

As with other statutory audits, Municipal Chief Auditor not only audits the accounts of the Corporation but also conducts audit of various financial function of the Corporation. As per section 137(1)(a) of The Mumbai Municipal Corporation Act, of 1888, The Municipal Chief Auditor shall report to Standing Committee for any material impropriety or irregularity which he may at any time observe in the expenditure or in the recovery of moneys due to the Corporation or in the Municipal Accounts. The audit findings, suggestions and observations along with the found irregularities are communicated to the concerned authorities through independent audit notes. Their combined results are included in the annual audit report which widely open to the public.

However, the Municipal Chief Auditor department is not directly concerned with the public or work of public. If there is any grievances of the public pertaining to department of the Municipal Chief Auditor, is handled by the Officer in charge independently appointed to take action on the matters under the Right to Information Act of 2005.

3. GENERAL ADMINISTRATION DEPARTMENT :

(Including Organization and Method Officer)

Name of the Department of Personnel and Administrative Reforms has been changed as General Administration Department. The General Administration Department works under Deputy Municipal Commissioner (General Administration Department).

The main functions carried out by General Administration Department are:-

(i) To control effectively and provide a policy framework and make rules and procedures in all personnel matters;

(ii) To ensure that the policies and procedures are implemented uniformly at various decentralized levels;

(iii) To motivate the employees with a view to increase the productivity and making the administration more and more responsive to public demand; and

(iv) To strive to make continuous appraisal of the existing procedures and methods.

The following measures are being implemented to speed up the prevailing process:-

1) Standardization of qualification for various posts of similar nomenclature and methods and recruitment.

2) Issue of circulars by taking policy decisions regarding promotions; redressal of grievances of employees at various levels, establishing panels for recruitment and selection of staff.

3) Revision of Recruitment Rules, as required under various provisions of the constitution and maintenance of reservations for Backward Classes, Sportsman, Handicapped persons and Ex-servicemen in employment.

4) A regular programme of meeting at fixed intervals with :-

(i) Officers dealing with personnel matters in all departments for implementation of personnel policies; and

(ii) Representatives of the recognised unions to settle dispute of a general nature.

There is a separate Organisation and Methods Division on the establishment of Municipal Commissioner. The main functions of Organisation and Methods Office (M.C.) are :-

(i) To issue the circulars in order to improve working system of Municipal Offices after studying the same and see as to whether the system is implemented;

(ii) To take inspection of the Departments/Wards;

(iii) To take follow up & review from concerned department for implementation to make available notified online services to citizens in view of transparency in quick & quality services provided under Maharashtra Right to Services Act, 2015 and to submit monthly report to Government regarding applications for service and appeal received from citizens by Municipal Corporation under this Act.

(iv) To Publish list of nominated Public Information Officers & Appellate Officers of various departments on Brihanmumbai Municipal Corporation portal under Right to Information Act, 2005 and to submit monthly / yearly report to State Government regarding applications for information and appeals received from citizens by Municipal Corporation under this Act.

Marathi Examination Section :

As per the directives of the State Government and the Brihanmumbai Municipal Corporation a Marathi Section is established under Chief Personnel Officer. At present, Marathi Section & Examination Section are working jointly.

According to the Government Resolution and circulars received from State Government, it is mandatory for everyone to use 100% Marathi Language in day to day office work within the Brihanmumbai Municipal Corporation, except for prohibited purposes. A circular regarding the implementation of this policy has been issued to all Heads of Departments / Divisions by the Marathi Examination Department. As per Maharashtra State Government Resolution, instructions have been given to all Heads of Departments / Offices to appoint 'Marathi Bhasha Adhikari' in every Department / Office to take necessary action accordingly for conversation of the Marathi Language.

The birth annlversary of the late, former President, Dr. A. P. J. Abdul Kalam, on 15th October was celebrated as Reading Inspiration Day (Vachan Prerna Din) by reading Inspirational Stories, Poems, Articles, Thoughts, etc. In accordance with the government resolution dated 14.10.2024 instructions were given via circular to all Head of Departments / Ward Officer to celebrate 3rd October as 'Abhijat Marathi Bhasha Din' and the period from 3rd to 9th October as 'Abhijat Marathi Bhasha Saptah'. During the 'Abhijat Marathi Bhasha Saptah' a lecture by the well-known writer of children s literature ..and storyteller Shri. Eknath Awhad, was organised at the Municipal Corporation Head Office. Programs such as proverb and idiom related competitions, readings of Marathi literature, readings of various story collections and poems presentations of Marathi

songs, essay competitions and elocution competitions were organised through Departments and Ward Offices

Every year in Brihanmumbai Municipal Corporation, the fortnight starting from the birth date of the famous poet, Shri V.V.Shirwadkar alias Kusumagraj on 27th February is celebrated as 'Marathi Bhasha Pandharwada' and various programs and competitions are organised on the occasion . As is done every year, a circular was also issued this year to all Heads of Departments / Ward Officers in the Brihanmumbai Municipal Corporation instructing them to celebrate 'Marathi Bhasha Sanvardhan Pandharwada' from 14th January to 28th January, 'Marathi Bhasha Gaurav Din' on 27th February and 'Marathi Bhasha Pandharwada' during period from 27th Febrauary to 13th March.

During 'Marathi Bhasha Sanvardhan Pandharwada', an entertaining monologue competition was organised for the officers/employee of the Brihanmumbai Municipal Corporation on 11th February 2026. In accordance with the Municipal Corporation Resolution, 27th Februety 2026 was celebrated as 'Marathi Bhasha Gaurav Din' in the Municipal Corporation Hall. The Former President of Akhil Bharatlya Marathi Sahitya Sammelan and Senior Writer, Shri. Vasant Abaji Dahake was invited as the Chief Speaker for the programme. During the event, the winners of the monologue .competition organised by the Municipal Corporation were honoured by the Hon. Mayor with prizes and certificates. Additionally, books printed by Education Department were distributed to the officers and employees present.

Backward Class Cell :

1. The Backward Class Cell, as a consolidated unit, has been performing the duties of implementing the policies and instructions regarding the reservation of Backward Classes in the services of the Brihanmumbai Municipal Corporation since 26th February 1979. This Cell looks after direct recruitment, selection and promotion processes from social and parallel (Women, Sports Person, Physically Handicapped Persons, Freedom Fighters, Ex-Serviceman, Earthquake Affected Person, Project Affected Person, Graduate Part Time Employees, Orphan etc.) reservation point of view. Parallel reservations in service for these reservations are treated as compartmentalized reservations within the social reservations. This cell submits statistical information to the State Government and to all concerned from time to time regarding reservation / backlog in various post on the establishment of Brihanmumbai Municipal Corporation. This cell also carries out all other process regarding guidance about implementation of various Government Resolutions relating to the reservations and allied matters.

2. During the period under the report, the periodical reports regarding information of posts filled in by recruitment and by promotion of Backward classes in the Corporation were prepared and submitted to the various authorities from time to time. The proposals in respect of recruitment and promotions of the staff received from about various Municipal establishments were scrutinized by this Cell. The representatives of this cell also attended about 213 promotion committee meetings and 05 selection committee meetings held by various Departments / Sections.

3. About 1,694 proposals received from the various Establishments for appointment of staff by direct Recruitment, Selection and Promotions. Identification of Posts suitable for Handicapped, Supernumerary Posts creation and grievances received from Backward Class employees and Officers were dealt with during the period of report. In addition to the above, about 2,567 cases including statistical reports, correspondence from various Department/Section, authorities of State Government, Legislature, Public Representatives, Applications received under Right to Information Act, 2005, etc. on various subjects as regards reservation were also dealt with during the period of report.

4. Correspondence on the various subjects has been made from time to time with the various authorities of the State Government for seeking their guidance and/or clarifications.

5. The details of the Backward Class candidates recruited and promoted by various departments during the calendar year 2025 are as under :-

Sr. No.	Mode of recruitment filled in	No. of posts	Category wise B.C. candidates appointed									Open
			SC	ST	DT (A)	NT (B)	NT (C)	NT (D)	SBC	OBC	Total BC employees	
1.	Direct Recruitment	1,764	201	113	40	40	27	20	16	266	723	1041
2.	Promotion	1,647	00	00	00	00	00	00	00	00	00	1647

6. During the period, of report in all 11 circulars on various subjects were issued to all the Heads of the Departments and the Assistant Commissioners for their guidance and for necessary action as the cases may be.

4. LABOUR DEPARTMENT :

GRIEVANCE REDRESSAL COMMITTEE :

To resolve the grievances of the Municipal Corporation employees, Grievance Redressal Committees have been established at the unit level, zone level and apex level. Periodic meetings of these committees are organized from time to time and the grievances/complaints of the workers and employees are redressed.

ANUKAMPA & VARSAHAKKA CASES :

6. INFORMATION TECHNOLOGY DEPARTMENT :

1. SAP System Modernization (Rise with SAP) :

The Brihanmumbai Municipal Corporation has purchased the necessary licenses for the 'Rise with SAP' platform and the work of migrating the existing S/4HANA system to Rise platform is in progress. The migration will enhance the efficiency, security, scalability, and disaster management capabilities of the system by using modern cloud-based technology.

2. Integrated Litigation Management System (ILMS):

The Integrated Litigation Management System (ILMS) has been successfully implemented within the Brihanmumbai Municipal Corporation (BMC) to streamline and modernize the processing, monitoring and strategic decision-making related to legal matters. As a comprehensive enterprise solution, ILMS efficiently manages approximately 1.84 lakh legal cases involving the Corporation. The system features real-time tracking of court cases, centralized mangement of empaneled legal consultant, and automated case updates delivered through various communication modes. Additionally, it offers a dedicated digital library, mobile-enabled system access, and advanced analytical reports to ensure highly effcient and seamless legal operations across all municipal departments.

3. Upyog (Urban Platform for Technology and Open Governance) :

With the primary objective of diving transformation across municipal services, the IT Department has adopted the 'Upyog' (Urban Platform for Technology and Open Governance) framework. By leveraging oen-source, scalable, and interoperable technology, BMC aims to provide efficient, transparent, and citizen-centric e-Governance solutions that align with the national vision of the Digital India and National urban Digital Mission (NUDM) initiatives. Under this landmark project, specialized computer systems have been successfully developed and deployed to optimize operations for the Deonar Abattoir (Deonar Abattoir Management System), Enquiry Department (E-Binder), Planning Department (Gender Budget Schemes), and the Market Department (Market Rent Module).

2. Low- Code / No-Code (LCNC) Platform :-

To address the urgent requirements of various municipal departments for rapid application department, the IT Department has deployed an agile Low-Code/No-

Code (LCNC) platform. This framework ensures faster, simplified software development and enhance the efficiency of public service delivery by drastically reducing development timeless. Utilizing this platform, an automated application was developed for the Chief Accountant (Finance) Department to streamline and bring transparency to fixed deposit interest rate quotations. Furhermore, to elimate manual intervention and establish a completely unbaised process, specialized Randomization Applications were developed on this platform for both the Market Department and the Central Procurement Department (CPD).

The total grant received upto 31.03.2026 is Rs. 132.69 crore.

Accordingly, under the J.N.N.U.R.M. scheme, the Brihanmumbai Municipal Corporation has received a grant of Rs.701.84 crore from Central Government and Rs. 300.79 crore from State Government. The total amount received as grant upto 31.03.2026 is Rs. 1002.63 crore.

8. COLLECTION OF REVENUE :

Assessment and Collection Department

The Assessment and Collection Department is the main sources of revenue collection for the Brihanmumbai Municipal Corporation. Assessment of buildings and lands within the jurisdiction of Brihanmumbai Municipal Corporation, calculation of property tax to be levied on them and collection of property tax by issuing annual bills is done by this department. At present there are about 1,063 employees are working in Assessment And Collection Department and property tax of Rs. 7307.61 Crores was collected in the financial year 2025-26.

Computerization of Assessment & Collection Department :

A new computerized system has been developed for capital value based taxation, which includes assessment of property, issuance of property tax bills and collection of

property tax etc. All work is done by the computer system. The Computerized tax systems is transparent, easy and convenient for users to work. (User Friendly)

1) Implementation of Capital Value System :

Property Tax is assessed based on Capital Value System w.e.f. from dt. 01.04.2010. and bills are issued accordingly. There is a provision under section 154 (1c) of updated MMC Act, 1888 to revise the Capital Value every five years fixed under section 154(1A). However, due to Covid-19 pandemic, Capital Value revision which was due in 2020-21 has been postponed to 2025-26 vide newly added sec154 (1D). Accordingly Property tax bills have been issued by revising Capital Value based on Stamp Duty Ready Reckoner (SDRR) of 2025-26, resulting approximate 15.89% of hike in the property tax.

2) Web display of Property details with Capital Value and Tax payable :

Property Tax Capital Value system has facilitated the citizens to calculate their property tax and online payment of Property Tax through B.M.C. website.

Following facilities are available on BMC Website :

1. Calculation of Tax, Online Payment of Property Tax available on B.M.C. Portal under Property Tax (New) tab.
2. Facility available for filling complaints regarding Property Tax.

3) Brihanmumbai Municipal Corporation has undertaken Integrated Property Validation Solution (IPVS), 360 Degree Project whereby the property related information has been collected from Vendor Company at initial survey, has been validated with data available in Property Tax Department. On validation of the data, the accepted deviations which were not in the Property tax Net have been undertaken for further detail survey by the vendor company and on receipt of the data from vendor company, assessment have completed the related corrections in Property Tax data of the department. Currently, this system is available only for reference as the contract of this project is terminated. Data available in this system is handed over to IT Department for MyBMC BUID project.

4) Concession in property tax levied on land and buildings in respect of schemes implemented for socially or ecologically beneficial schemes are permissible u/s 144 A of the Mumbai Municipal Corporation Act, 1888,

a) Sorting all the waste generated in the premises of the building, composting of bio-degradable waste in the premises of the building.

b) Sorting all the waste, handing it over to recycling organizations and disposing of it and

c) Grey water treatment and re-using the same for toilet flushing, as well as implementing water conservation schemes in the building, residential properties are given a discount of 5 percent each. However, the maximum limit of the concession payable under section 144 A will be limited to 15 percent.

5) For the effective recovery of Property Tax, the provision of Section 202 to 206 of MMC Act, 1888 are followed. It involves confiscation of movable properties, attachment and auction of immovable properties etc. Penalty of 2%per Month is

levied on unpaid Property Tax after 90 days from the due date. For the recovery of Property Tax u/s 206 of MMC Act, 1888, S.O.P. has been sanctioned by the Administration to implement the auction procedure and contractor has been appointed for Auction Process.

6) Maharashtra Act No. 25, 2022 passed accordingly, residential flats / units having carpet area of 46.45. sq.m.(500 sq. ft.) or less situated in Brihanmumbai Municipal Corporation limits have been exempted from all components of Property Tax w.e.f. 1st January 2022.

7) Gallantry Medal Holder Soldiers of Defence forces, and under the scheme **'Hon'ble Balasaheb Thackre Maji Sainik Sanman Yojana',** Ex-servicemen and widows/ wives of soldiers also unmarried martyrs are given exemption in property tax for their residential property.

9. PUBLIC RELATIONS :

Public Relations Department

Public Relations Department is undertaking sustained efforts to enhance the Brihanmumbai Municipal Corporation's (BMC) public image. In the year 2025-26, department effectively disseminated information regarding the BMC's ceremonies, programs, project's and key initiatives across multilingual newspapers, television news channels and social media platforms. Furthermore, significant events and developments along with essential civic services and infrastructural facilities were widely publicized to ensure citizens remain well-informed .

Under various publicity initiatives, information was disseminated to the public through press releases, photographs, audio-visual clips and interviews with senior officials. These efforts were supported by newspaper advertisements, radio messages, hoardings, display boards and other communication media. During the monsoon period, factual updates regarding incidents within municipal jurisdiction were issued regularly. Additionally, important information concerning rainfall and tide schedules provided by the Disaster Management Department was effectively communicated to both the media and general public.

During 2025-26, Public Relations Department issued a total of 774 press releases. Additionally, more than 391 clarifications were published in response to news and critiques of civic services; these efforts were instrumental in presenting factual position and dispelling public misconceptions. Furthermore, the department gave 3,436 advertisements to newspapers to promote various initiatives, civic amenities and tenders, as well as to drive public awareness campaigns .

Public Relations Department has achieved remarkable milestones in the field of publishing. For the year 2026, the official 'Civic Diary' and 'Calendar'. were successfully released. Furthermore, the department published the 'Ganeshotsav Information Booklet' and a special commemorative edition titled 'Deepstambh' to mark the Mahaparinirvan Din of Bharatratna Dr.·Babasaheb Ambedkar . 'Deepstambh' booklet serves as a comprehensive resource, featuring vital information on scholarships, education, employment opportunities, government schemes, competitive examinations and essential career-related websites .

To mark Marathi language Fortnight (Marathi Bhasha Pandharvada), vibrant posters themed around 'language Purity' and 'Marathi Poetry & Administrative Marathi' were published and distributed amongst the ward offices of BMC. Furthermore, to commemorate Marathi Bhasha Gaurav Din, a keynote lecture by the emiilent litterateur Mr.Vasant Abaji Dahake was hosted at Corporation Hall.

Under the Government of Maharashtra 'Seva Pandharvada 2025' initiative, a coffee table book titled 'Glorious Architectural legacy of Mumbai' has been published. This curated edition features in depth information and stunning photographs showcasing 75 iconic heritage sites across the city. This book comprises detailed information and photographs of various heritage landrnarks, including World Heritage Sites, government buildings, medical heritage sites, educational and cultura! heritage locations, forts, green heritage sites, monuments, fountains, squares, and religious heritage sites .

The 'Shri Ganesh Gaurav Awards' competition was successfully conducted in 2025. Furthermore, to honor the Bharatratna Dr. Babasaheb Ambedkar birth anniversary and Mahaparinirvan Din, a commemorative photo exhibition was organized at Chaityabhoomi, Dadar. The Mahaparinirvan Din proceedings were broadcast live on Doordarshan to reach a wider audience. On this occasion a specially curated coffee table book documenting the life and legacy of Bharatratna Dr.Ambedkar was also sale.

In preparation for the 'BMC Elections 2026,' a series of comprehensive voter awareness initiatives were launched. Public engagement was driven through street plays, flash mobs, radio jingles and extensive digital outreach via social media, alongside traditional posters and hoardings. By partnering with educational institutions, NGO and proactive citizens, the department effectively amplified the call for 'Maximum Voting' across the city."

In addition, official identity cards and vehicle passes were issued to the Honorable municipal Corporators through the collective contributions of employees across various departments, Flag Day fund of approximately Rs. 34 lakh was raised and dedicated to the welfare of ex-servicemen during the year .

10. LEGAL DEPARTMENT :

Legal Department of the Brihanmumbai Municipal Corporation is concerned with the litigation for and against the Corporation arising in the Administration of the Mumbai Municipal Corporation Act, 1888 as amended upto date and other Acts, such as Maharashtra Regional and Town Planning Act, 1966; The Bombay Shops and Establishments Act, 1948; The Prevention of Food Adulteration Act, 1954; The Maharashtra (Urban Areas) Preservation of Trees Act, 1975, D. C. Rules and other By-laws etc.

The litigations are both civil and criminal in nature spread over in various different Courts of Law extending to the Writ Jurisdiction in the Hon'ble High Court, Mumbai and the Hon'ble Supreme Court of India and also in Small Causes Court, Human Rights Commission, Motor Accident Claims Tribunal, Labour and Industrial Courts, Co-Operative Courts, Consumer Redressal Forum, Civil and Criminal Courts, Election Petition, Public Interest Litigation, National Green Tribunal of Pune and Hon’ble Courts outside Mumbai, etc.

It also deals with the preparation of all types of Agreements, Lease, Conveyance and Memorandum of Understanding in respect of Municipal properties and matters and investigation of titles of the properties to be taken over by the Corporation as per D.C. Regulations and M.R.T.P. Act. It also prepares agreements, etc. in respect of various projects taken up by the Municipal Corporation.

Legal Department also gives legal opinion to the civic administration as and when sought for.

11. CENTRAL PURCHASE DEPARTMENT :

The Central Purchase Department invites/processes e-tenders to appoint the suppliers, service provider issues Rate Circulars to various Municipal Departments and Hospitals :-

1) Various general items such as Furniture, Stationary, School items, Uniform, Insecticides and Linens, etc.
2) Medical Equipments & Scheduled Medicines.
3) Appointing agencies for various services on outsourcing and appointing agencies for providing man power services.

12. CHIEF OFFICER (ENQUIRIES) DEPARTMENT :

The Department of Chief Officer (Enquiries) of Brihanmumbai Municipal Corporation carries out detailed preliminary investigation into various matters related to acceptance of bribe, corruption, leakage in revenue, wasteful expenditure, misappropriation of municipal funds & properties, similar other misconduct and misdeeds and negligence in duty committed by the Municipal employees etc., as per orders of the competent authorities and submits detailed report, on the basis of which administration takes decision whether to conduct Full Fledged Departmental Enquiry / Summary Departmental Enquiry / give recorded warning etc. to concerned employees/ officers involved in the case.

The matters involving unauthorized absence of employees and irregularities of minor nature are normally investigated / enquired into by the concerned department, whereas the cases involving malpractices, offences of serious nature, moral turpitude, employees of more than one Department and cases specifically entrusted by the Municipal Commissioner/ Addl.M.Cs./Jt. M.Cs./D.M.Cs. & Head of the Departments are dealt with by this Department for investigation/preliminary enquiry/full fledged departmental enquiry. The Municipal employees who have been found to have committed irregularities are duly punished as per the orders of the competent authority. While conducting enquiries against the chargesheeted employees relevant laws, laid down procedures, various rules and regulations and principles of natural justice are scrupulously followed by this Department.

The Anti Corruption Bureau cases are exclusively dealt with by this department. The necessary correspondence with the A. C. B. authorities and with the State Govt. is done by this office. Suspensions, preparing and submitting sanction to prosecute the concerned employee in the Special Court, assisting the sanctioning authority i.e. the Municipal Commissioner during the course of hearing in the Special Court, removing /

dismissing the convicted employees and reinstating the exonerated employees after obtaining orders of the competent authorities etc; framing the policies in this context as per the order of D.M.C./Jt. M.Cs./ Addl. M.C./ M.C., on the lines of State Govt. is done by this Department. After the receipt of the detailed information in respect of the employees placed under suspension pending criminal cases against them or pending D.E. against them from the concerned department and the same is consolidately maintained upto date by this department and placed before the designated committees set up to review such cases.

Correspondance / Complaints received from Anti Corruption Bureau for obtaining approval for investigation of complaint u/s 17 (A) of prevention of Corruption Act, 1988 is forwarded to the concerned H.O.D. as per prevailing practice for obtaining decision of Competent Authority and accordingly to inform the same to Anti Corruption Bureau. However, the follow-up of the same is undertaken by Enquiry Department.

Apart from this, Procedural Enquiry Assistance is provided to outside Enquiry Officers and Appellate Authorities such as Head of the department, Dy. Municipal Commissioner, Jt. Municipal Commissioner, Additional Municipal Commissioner by Investigation Officer (Enquiries), Asstt. Chief Officer (Enquiries) & Dy. Chief Officer (Enquiries) of this department. Besides this, as per Municipal Commissioner's orders, Inspection of various departments are carried out by this office staff & irregularities observed are brought to the notice of the competent authority. Also Court Cases, litigations filed by the employees against the punishment/suspension etc. ordered in the enquiries conducted by this department in various Courts are handled by this Department.

Further, a system has been developed under SAP System for No Objection Certificate for Promotion, Voluntary Retirement, Superannuation, Passport of the Employees. In this behalf, directives are circulated to all Head of Departments/Dean/ Asstt. Commissioners etc. as per Circular No. Ch.O.E/HO/2514 dt. 01-10-2020.

As per the directives given vide circular No. ChOE/HO/25-26/1139 dt. 24.05.2025, other than Multidepartments/ACB/Criminal matters preliminary enquires are suppose to be conducted by the concern department where the alleged irregularities has been detected, however solicitated guidance is provided by this department to the individual/officer of the concern department in case of any technical difficulties/complications in or during the process of enquiry. In Addition, assistance in enquiry is provided by staff of this department to the Officers rank above and along with to the grade of Deputy/HOD's.

Along with the above mentioned duties/ activities the department of Chief Officer (Enquiries) has handled following crucial enquiries.

1. Fire incident at Kamala Mills Compound.
2. Irregularities observed during execution of desilting works.
3. Irregularities in execution of repairs of roads.
4. Irregularities in e-tendering process.
5. Enquiry regarding Jogeshwari Plot.
6. Incident of Blindness due to infection to patients admitted in HinduhridaySamrat Balasaheb Thackeray Hospital, Kandivali.

7. Recruitment of Bogus labours in S.W.M. Department with the help of forged documents.
8. Himalaya Bridge Mishap.
9. Fire Incident : Dreams Mall, Avighna Park.
10. Shri. Rajesh Maru Incident - Nair Hospital
11. Regarding two peon who established bogus companies in their wives names and obtained work/contracts during the COVID period.
12. Irregularities in renovation and tax assessment of studio in Madh Marve.
13. Alieged fraud and financial irregularities in KEM and Sion L.T.M.G. Hospital etc.

13. BRIHANMUMBAI MUNICIPAL SECURITY FORCE (B.M.S.F.) :

Brihanmumbai Municipal Security Force was established in the year 1966. The main purpose of setting up the Security Force is to protect the immovable and movable assets of the Water Department in the City, Suburbs Thane and Palghar District (Outside City Division) and also various other departments of the Brihanmumbai Municipal Corporation.

Later on, in the year 1992-93 in view of the bomb blasts and communal riots in the city of Mumbai, the security arrangements were strengthened at all the municipal establishments. Also, in the wake of increasing terrorist activities, modern equipments such as CCTV / DVR system, Doorframe and Handheld metal detectors, X-ray baggage screening machines. etc. have been installed at various important establishments of the Brihanmumbai Municipal Corporation to ensure that uninterrupted civic services are provided to the citizens of Mumbai and its suburbs. All the above modern security equipments, helps to secure municipal premises by directly monitoring the movements of employees and visitors entering the office. Also, private security assistants have been appointed for the safety of mothers and new-born babies in the maternity ward and post partum ward of the Municipal Hospitals.

Also, considering the requirement of security guards at various locations from the hospital Administration, with the approval of administration, Maharashtra State Security Corporation's Additional security personnels have been deployed at K.E.M. Hospital, L.T.M.G. Hospital, B.Y.L. Nair Hospital and Deonar Dumping Ground. Similarly, Security Guard Board Brihanmumbai and Thane District, security guards have also been appointed at various important locations of Brihanmumbai Municipal Corporation.

More than 400 Security Guards of Brihanmumbai Municipal Security Force have been given a 15-days training in Disaster Management by the Disaster Management Department of Brihanmumbai Municipal Corporation and their services are being used in emergency situation. Accordingly, 150 more security guards will be trained by Disaster Management Department in the near future.

The Brihanmumbai Municipal Security Force has its own training Centre with all the required facilities at Bhandup Complex. Physical as well as indoor training related to different aspects of security and law is provided to the security guards. The said training centre is made available to paramilitary forces as well as Mharashtra State Police Force sometimes for their training purpose as per their demand and availability. Security personnels of Brihanmumbai Municipal Security Force are given weapon training in

arms and ammunition at the Maharashtra Rifle Association, Worli Range and the Indian Army's firing Centre at Pokhran, Thane.

Petrol Squad :

Mumbai City is supplied with water from Modak Sagar, Madhyavaitarna, Tansa, Vihar and Tulsi Lakes. The first three Lakes are located in a remote forest area of Palghar and Thane district. The water of the said lake is transported through large pipelines and water treatment is done at a large water purification centre at Pise-Panjapur near Bhiwandi and then supplied to the city of Mumbai. At all such places, with the help of local police, the Brihanmumbai Municipal Corporation Security Force personnels are safe guarding those vital installations and looking after the security arrangements by patrolling day and night in municipal vehicle. The security force have another Patrolling Squad at water Treatment Plant at Bhandup Complex, round the clock patrolling of security guards in municipal vehicle is done to sefeguard the vital installation.

Like wise, four major hospitals of the Municipal Corporation i.e. K.E.M. Hospital, L.T.M.G. Hospital, B.Y.L.Nair Hospital and Dr. R. N. Cooper Hospital, also have team for patrolling day and night.

Armed Security of Brihanmumbai Municipal Security Force :

The Brihanmumbai Municipal Security Force has its own Armed department. Armed security guards are being appointed for protection of cash vans, cash counters, Election duty, during bands strikes agitations and wherever Armed security guard is required Hon. Mayor and Hon. Municipal Commissioner are provided with armed security guards.

Important Contribution of Security Department to the work of other Municipal Corporation Departments :

Solid Waste Management, Encroachment removal Department, License Department as well as cleanliness drive, eviction of unauthorized hawkers, Bakri Id, Security Officers and security Personnels are helping above departments in increasing the municipal revenue by engaging in above mentioned activities along with their concerned department officials. Taking note of this work, the administration has appreciated the Security Department. Also, this department has performed Bandobast during Ganpati Festival and Ganpati Visarjan at various Chowpatty, Bharatratna Dr. Babasaheb Ambedkar Mahaparinirvan Divas bandobast effectively and other timely bandobast is being carried out.

Excavation work of tunnel for water supply to Brihanmumbai Municipal Corporation at BARC is going on in full swing. Since last two years Security officers are being posted for night duty bandobast at BARC to take care of any incidence.

Remarkable Performance :

Every year on the occasion of 1st May Maharashtra Day and 26th January Security Department platoon participates in parade which is held at Shivajipark, Dadar along with platoons of Police, Navy, SRPF, Scout, Traffic, Fire Brigade. On 1st May, 2022 at the 62nd Maharashtra Day parade at Shivaji Park, Security Department won 2nd prize for Best Parade. Also, it is a matter of pride to state that, Security personnels are participating in various sports at district, state and national level and winning medals.

14. MUNICIPAL PRINTING PRESS :

The Municipal Printing Press is making continuous efforts towards modernization of its administration and the timely execution of urgent work. Modern training is being provided to the workers and employees of the Printing Press for upgrading their skills.

Over the past few years, there has been a significant increase in the demand for various types of printing work from different departments of the Municipal Corporation. The Municipal Printing Press is providing satisfactory services to more than 400 internal departments of the Municipal Corporation. It also has the capacity to undertake printing work for other Municipal Corporations in Maharashtra and to generate additional revenue for the Municipal Corporation.

During the financial year 2025–26, there has been an increase in On-Demand printing work received from various departments of the Municipal Corporation. Similarly, the volume of VDP (Variable Data Printing) work has also increased at the Municipal Printing Press. Under these circumstances, the Municipal Printing Press has continued to provide uninterrupted and efficient printing services.

Considering the increasing volume of VDP work, and with the objective of providing 'On-Demand Printing' to various departments of the Municipal Corporation and distributing printed material quickly, a Canon 6360 high-speed printing machine was commissioned at the Municipal Printing Press in 2026. This has made the distribution of printed material faster and easier.

In addition, an advanced Automated Collator has also been commissioned in the Binding Department. At present, the Municipal Printing Press is making continuous efforts to achieve maximum output with minimum manpower and to focus on producing high-quality products.

The existing technical infrastructure and machinery at the Municipal Printing Press is considered an ideal model for other Government and Semi-Government printing presses.

15. CENTRAL ARCHIVES CELL :

In accordance to provisions of ‘Maharashtra Public Record Act 2005', Central Archives Cell is established in 2008 with the control of Chief Archives Officer to preserve the important old record of the Brihanmumbai Municipal Corporation.

As per Hon’ble Municipal Commissioner’s circular no. MOM/3293 dt. 25.03.2013, Central Archives Cell visited various departments of the B.M.C. and guide to Public Information Officers / Record Officers, how to protect & classified the important record and how to dispose off the outdated record.

As per rule no. 8(1) of the Maharashtra Public Record Rule 2007, the Central Archives Cell circulated the circular No. CRO/RE/14 of 07.07.2023 to all the Departments and Wards of the Brihanmumbai Municipal Corporation and instructed to prepare the annual report of records under their jurisdiction in Form 5 and submit to the Hon’ble Director, Directorate of Archives, Government of Maharashtra through the Hon’ble Commissioner, Brihanmumbai Municipal Corporation.

Tansa Dam overflow

Water Supply

HYDRAULIC ENGINEER'S DEPARTMENT

Water Supply :

Mumbai receives raw water from seven impounded water resources viz. Vihar and Tulsi within Mumbai and Tansa, Modak Sagar, Upper Vaitarna, Middle Vaitarna and Bhatasa located at a distance of about I 00 to 175 Kms from Mumbai.

Raw water available from these sources is conveyed with transmission main system ranging from 2235 mm to 5000 mm diameter pipelines and 5500 mm tunnels to the water treatment facilities at Bhandup Curnplex (1910 + 900 MLD) and Panjrapor (1365 MLD). Water Treatment facilities for Tulsi (18 MLD) and Vihar (90 MLD) are located near to these sources. At these treatment plants, water is treated with processes such as coagulation, flocculation, settling, rapid sand filtration and post-Chlorination and quality of the efluent water is maintained in accordance with IS 10500: 2012 - Drinking water Specifications.

The treated water from Vaitarna and Bhatsa basin is stored in the Master Balancing Reservoirs (MBR) located near to treatment plants at Bhandup Complex within Mumbai and at Yewai outside Mumbai. It is further distributed to 27 service reservoirs located throughout Mumbai City and various underground tunnels such as Maroshi - Vakola - Mahim - Ruparel, Racecourse - Malabar hill and Powai - Veravali - Adarsh Nagar - Yari Road.

This tranmission network is approximately 450 Kms this conveyance system remains charged for 24 hours and eliminates the chances of water contamination because of intrusion of ground water/sewage etc. There is 4,100 M.L.D. water supplies to Mumbai.

Population Projection, Demand and Augmentation of Water Supply

The population growth trend of Mumbai is continued. Considering growing population of Mumbai, it is estimated that by the year 2041, the daily water demand is around 6535 MLD (including enroute supply and transmission losses). The process of developing Government allotted Gargai (440 MLD) for Mumbai has been started through Water Supply Project Department. Similarly, work of the desalination project at Malad-Manori has also undertaken with a capacity of 200 MLD (expandable to 400 MLD). After completion of all these projects the daily water supply will be increases by approximately 840 ML.

1) (HE-C-CT-IMPRO-21) Proposal to construct Auxiliary suction at open plot at Meenu Desai Marg, Colaba Koliwada, Colaba in 'A' ward is in progress.

- The said work is expected to be completed by December 2026.
- Under this work, an auxiliary water tank having capacity about 9.5 Lakh liter along with laying of 300 mm water main for inlet and outlet is being proposed.
- Auxiliary tank is proposed to resolve the short supply complaints in the surrounded area of Minu Desai Marg, Colaba Koliwada, etc. of Colaba Zone.

2) Upgradation of existing water supply networks at Kannamwar Nagar Vikhroli (East) in 'S' ward of Eastern Suburbs. Currently. the process of preparing a plan and e-tendering for the up gradation of the water supply network is in progress. Out of the total

revised cost of the said work, an amount of Rs. 43.03 crore is to be disbursed by MHADA Authority. Of this sum, an amount of Rs. 20.00 crore was received by the Brihanmumhai Municipal Corporation on 25.03.2026. Furthermore, the work regarding the upgradation of the water supply network will be undertaken by the Brihanmumbai Municipal Corporation. Subsequent to the disbursement of the remaining Rs. 23.03 crore, as well as the payment of pending water bills dues by the MHADA Authority.

Due to the up gradation of the proposed water supply networks. improvements in the water supply, at Kannamwar Nagar, Vikhroli (East) are expected.

3) The work of rehabilitation and lowering of 1500 mm dia, water main (60" dia. Chord Main) by laying 1500 mm dia. MS Water Main from Saibaba Mandir, Parerawadi, Kurla (W) to Ghatkopar Cross connection, Ghatkopar (W) in 'L' and 'N' ward of Eastern Suburbs is in progress.

The existing 60" (1500 mm dia.) Chord main is 70 years old M.S. riveted joint Water main.

The said water main is corroded at multiple locations at Riveted joints and portion in contact with ground/Earth. The frequent leakages were occurred at this corroded portion and same were attended by departmental staff of AEOC (TM).

About 450 Mtr. Work is completed and said work will be completed up to December 2028.

4) HE-C-WS-IMPROV-14 Providing, Laying & Replacement of 1200 mm dia water main with 1500 mm dia water main along Mahakali Caves Road from Ramya Jeevan Society to Veravali Reservoir V2 in K/East ward in Western Suburbs Zone-III. There will be improvement (with proper pressure) to residents of K/East and K/West section of western suburbs. Water leakages and contamination due to replacement of dilapidated water pipes.

The said work is 80% completed and the remaining work is expected to be completed by 22.04.2027.

5) HE-C-WS-IMPROV-23 Providing, Laying & Replacing of 150 mm, 300 mm, 450 mm, 600 mm, 750mm, 900 mm, & 1200 mm dia. water mains & other allied works for improvement of water supply in Z-IV (K/West, P/South & P/North Ward) & Zone-VII (R/South, R/Central & R/North ward) in Western Suburbs area.

The work is expected to be completed by 31.05.2028

6) HE-C-WS-IMPROV-21 Replacement of 1200 mm dia water main at Shirsekar Marg, Shrihari Mandir Road, Vakola Nala and Bharat Nagar Slum in 'H/East' ward Z-III in Western Suburbs. There will be improvement in water supply (with proper pressure) to residents of 'H/East' sector in Western suburbs. Replacing worn water pipes will help prevent water leakages and contamination.

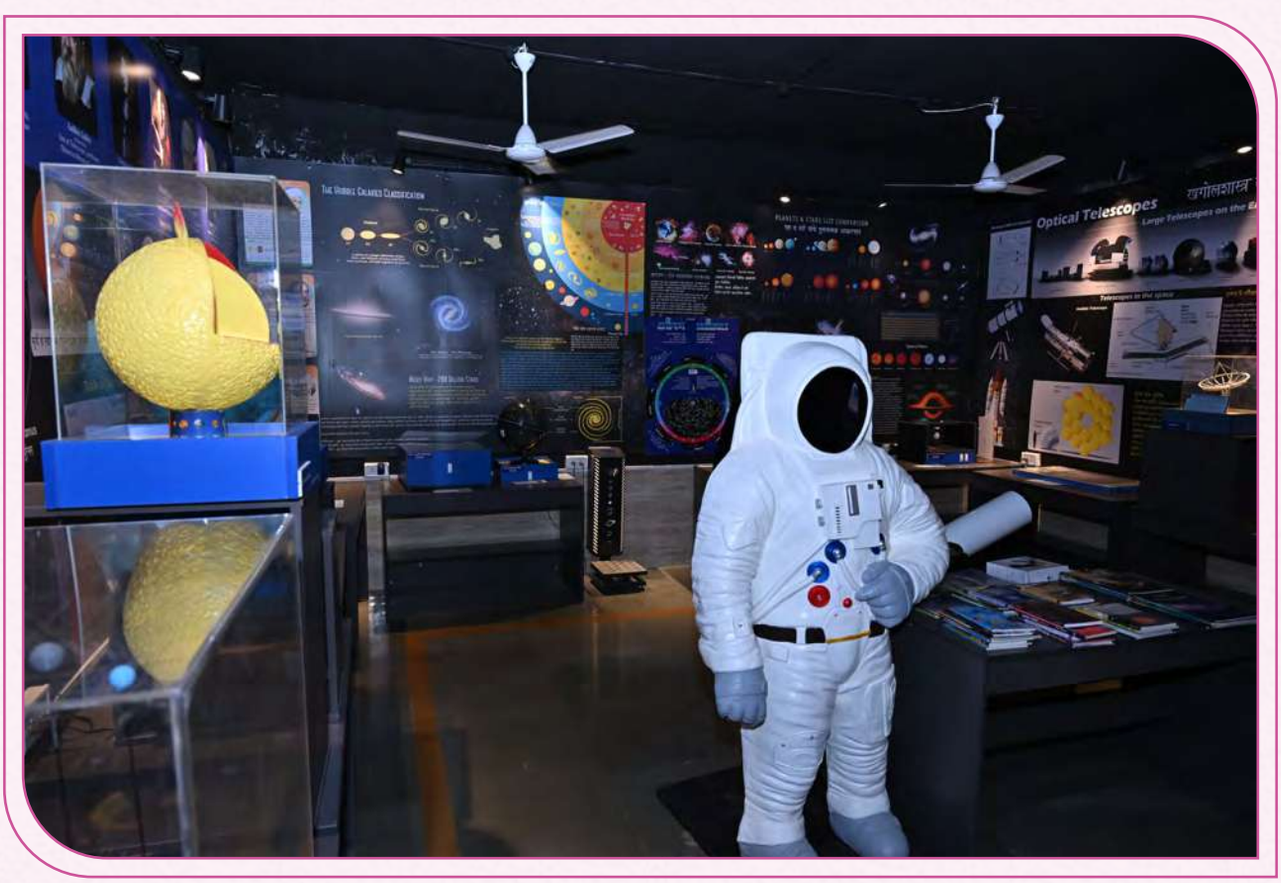

The said work is 70% completed and the remaining work is expected to be completed by 15.02.2027.

Education Department

Science exhibition at Municipal School

Education Department

As per Section 61 (Q) of the Mumbai Municipal Corporation Act, 1888, providing primary education facilities to children is a mandatory duty of the Municipal Corporation. This responsibility has been carried out by the Education Department of the Brihanmumbai Municipal Corporation 1907.

In the academic year 2025-26, totally 2,75,292 students are availing all educational facilities from 913 primary schools of the Municipal Corporation, which are run in eight mediums. For this, 7,260 teachers are working. Also, in 19 schools run for mentally challenged children, 847 students are studying and 77 teachers working for them.

Since 2007-08 the Brihanmumbai Municipal Corporation has started English medium schools called 'Mumbai Public School' in which education facilities are provided from Jr. KG. to Std. 10th. Also, since 2020 – 21, the Brihanmumbai Municipal Corporation has started a total of 21 schools, including 18 of C.B.S.E. board schools and one each of I.C.S.E., I.G.C.S..E and I.B. boards.

Results of Std. 10 of Other Board Schools :

Under the Education Department of Brihanmumbai Municipal Corporation, from the academic year 2020-21, out of a total 18 Mumbai Public School CBSE schools established, students from 10 CBSE schools appeared for the CBSE Std. 10 examination for the first time, and students of one school appeared for the second time. In total, the result of 11 schools is 92.80%.

For the Std. 10 examination, 339 students appeared, out of which 35 students passed with more than 90% marks.

Among them, Ku. Arya Lamne, student of Mumbai Public School CBSE Mithagar T Division, Mulund, secured 97.80% marks and stood first and Ku. Saurabh Yadav, student of Mumbai Public School Punam Nagar CBSE - K/East Division, Andheri, secured 97.20% marks and stood second then Ku. Kaustubh Tripathi, student of Mumbai Public School Rajawadi CBSE - N Division, Ghatkopar, secured 97.00% marks and stood third. Out of 11 schools, 4 schools have achieved 100%result.

Results of Std. 10th of Secondary Schools :

Brihanmumbai Municipal Corporation has announced the Class 10th Secondary School examination results for the academic year 2025-26. A total of 15,903 students appeared for the examination from 246 municipal secondary schools, out of which 14,644 students passed, resulting in an overall pass percentage of 92.08%.

Additionally, 77 municipal secondary schools achieved a 100% pass result. A total of 66 students scored above 90%.

Teacher / Science Junior College (Secondary) :

The Brihanmumbai Municipal Corporation is running two Urdu Teacher Training Institutes on an aided basis, namely R. C. Urdu Teacher Training Institute, Imamwada and R.C. Urdu Teacher Training Institute, Mahim.

Private Primary Schools :

The Education Department grants recognition to private primary schools and registers them, and regulates their functioning. It also assists in ensuring smooth administration and operations of these schools. Under the Deputy Education Officer (Private Primary Schools Section), aided and unaided schools are functioning .

Type of School	Number of School	No. of Student	No. of Teachers
Aided	378	1,05,482	2,500
Unaided	665	2,71,362	6,770

School Buildings –

The Number of school buildings is shown in the table below (As per 2025-26 report) :-

Sr. No.	Type of Building	Total School Buildings
1	Municipal Owned Buildings	467
2	Rent Free Buildings	22
3	Rented Buildings	204
4	Asst. Commissioner (Estate)	27
	Total	**720**

Physical Education Department :

The Physical Education Department is functioning under the Brihanmumbai Municipal Corporation Education Department. Through this department, various team and individual sports competitions such as Yoga, Kabaddi, Kho-Kho, Volleyball, Handball, Football, Judo, Wrestling, Atya-Patya, Basketball, Chess, Carrom, Thai Boxing, Thang-ta and Rugby etc are organised.

Students of Municipal Corporation schools participate in large numbers in various sports competitions organized by government and external institutions. In the year 2025-26, a total of 2,264 students from the primary section and 4,776 students from the secondary section participated in various levels of government competitions.

The statistical information of students who achieved excellence by participating in state and national level competitions organized by government and external Institutions is as follows :-

Sr. No.	Competition Level	Primary Section	Secondary Section	Total
1	State	26	71	97
2	National	06	14	20

- Free swimming training is provided to students of Municipal Corporation schools at the Municipal swimming centres. In this, 31 students participated in government swimming competitions .

- Training with all sports disciplines, with inclusive and fully equipped facilities, has been started at 3 main sports centres and 29 sub-centres along with all necessary equipment.

Scout-Guide Section :

Scout-Guide is a global movement based on the principles of character, health, handicrafts and service, and various activities are implemented to develop ideal citizenship among students.

In the academic year 2025-26, totally 88,841 students and 2,648 teachers were registered in the primary section and 4,692 students and 128 teachers were registered in the secondary section. 26 Cubs and 17 Bulbul received the national-level Swarna Ban Award, while 506 students received state-level awards.

In order to increase student registration and state award achievements, training was provided to teachers. During this training, a total of 73 teachers donated blood for K.E.M. Hospital.

Students participated in the National Jamboree held at Lucknow from 23.11.2025 to 29.11.2025 as well as in the Golden Arrow Rally organised by Tha Bharat Scouts & Guides in Haryana from 19.02.2026 to 23.02.2026.

In addition, through activities such as Haj Yatra, Mount Mary, Anant Chaturdashi and Mahalakshmi services, 513 students participated in programmes like water distribution, cleanliness drives, and first aid.

Various activities and camps such as supervisor revision classes, Cub-Bulbul-Scout-Guide leader training camps, skill development camps, 26th January Republic Day rehearsal camps, and various social service and community development projects were successfully conducted.

Music and Art Academy - Music Department :

The Music and Art Academy's Music Department successfully conducted various academic activities such as group singing camps, folk dance camps, drama camps, pratical lectures, and music competitions for all municipal school students.

Cultural programs included Ashadhi Ekadashi devotional music program, memorial day of founder Late M.W. Desai (former Commissioner), and during Music Week, classical Marathi theatre music programs focusing on aesthetic development of the audience were successfully presented.

During Music Week, the 'Maharashtra Gaurav' colourful student program was highly appreciated.

On 17.04.2026, at the prestigious Raj Bhavan, students performed a folk dance program on the occasion of Rajasthan and Odisha State Foundation Day.

Around 200 students of the Municipal Corporation passed the All India Gandharva Mahavidyalaya examinations in first and second class.

Under pratical lecture program, famous director and Padmashree Prof. Vaman Kendre delivered a lecture titled "Acting and Music Art and the Magic of Voice", which was widely appreciated not only in the municipal education department but across the entire municipal cultural circle.

Art Department :

- In the academic year 2025-26, the Art Department successfully implemented various competitions and activities. Students achieved notable success in drawing competitions conducted under Energy Conservation, Fire Service Week, and the 'New India Service Week'. Students and teachers received awards in the 'Viksit Bharat 2047' competition organized by the National Gallery of Modern Art.
- A large number of students participated in drawing grade examinations. Environment-friendly initiatives, the 'Mazi Mumbai' children's drawing competition, photography competitions, and artist camp exhibitions received an enthusiastic response. All these activities encouraged students' creativity and artistic development.
- Teachers achieved remarkable success at the state level in competitions conducted by the Regional Vidya Authority. In Fire Service Week 2026, students secured first, second, and third ranks.
- Under the Maharashtra State Directorate of Art, in September 2025, totally 2595 students appeared for the Government Drawing Grade Elementary Examination and 1242 students appeared for the Intermediate Examination. Under the Maharashtra Government - Higher and Technical Education Department, Directorate of Art, in the 65th State of Art Exhibition, a painting by an art teacher was selected in the artist category.
- An eco-friendly workshop titled 'Eco Bappa Rangva - Ganesh Festival 2025' was organized for students, using handmade paper pulp materials.
- Under the Hon. Mayor's initiative 'Mazi Mumbai', the "World-renowned cartoonist, Shiv Sena chief Shriman Balasaheb Thackeray Children's Drawing Competition 2025-26" was organized on Sunday, 1st March 2026, at 51 grounds and gardens across Mumbai. A total of 86,356 students participated in the competition.
- In addition, an exhibition of paintings from the Artist Camp was organized at the Nehru Centre Art Gallery. In this, 8 prizes were awarded in the student category and 6 prizes each in the staff and open categories during a formal award ceremony.

Work Experience :

In the subject of Work Experience, various activities are conducted to develop students' artistic and skill-based abilities. Under the New Education Policy, greater emphasis is given to vocational and skill development-oriented activities.

These include compulsory activities, need-based activities, productive activities, and activities that create awareness about environmental protection. Awareness is also created regarding water literacy and disaster management.

Considering available resources, students' interests, and needs, various optional productive activities are organized, such as making festival items like Rakhi, greeting cards, paper bags, decorative lanterns (Akash Kandil), cut-work rangoli, diyas, kites, etc. Central student competitions, central teacher competitions, and visits by teachers to small-scale industries are also organized.

Financial Assistance Scheme for Students who Passed Secondary School Certificate Examination :

Since March 2020, under this scheme, the first 25 students who pass the Secondary School Certificate (SSC) examination from municipal secondary schools are provided financial assistance for higher education up to graduation.

Each student is given up to Rs. 25,000 per year as tuition fee support, or if the tuition fee fixed by the respective educational institution is higher, then the full tuition fee is paid as financial assistance (only tuition fee is covered).

Further, from March 2024, the scheme has been expanded. It now includes:

- The first 100 students who pass the SSC examination from municipal secondary schools, and
- The top 100 Wards of sanitation workers employed by the Brihanmumbai Municipal Corporation who secure the highest marks in SSC examination.

Additionally, from March 2024, these selected students and wards are also provided financial assistance for coaching/tuition for:

- Medical and professional education entrance examinations, and
- Preparation for government job examinations (central and state level preliminary and main exams).

For this purpose, private coaching tuition fees up to Rs. 50,000 are provided as financial assistance in a single installment.

Career Counselling Program for Secondary School Students :

Through public participation with the Antarang Foundation, a Career Awareness programme has been started for students of Std. 9 and Std. 10 in Brihanmumbai Municipal Corporation secondary schools.

Under this initiative, career counselling for the academic year 2025-26 has been conducted since April 2024. Along with this, students are also being guided through counselling for the college admission process.

As of now, a total of 10,137 students of Std. 10 have benefited from this initiative.

Vocational Courses under Skill Development Initiative :

In the financial year 2025-26, vocational courses have been started in Brihanmumbai Municipal Corporation secondary schools under the Skill Development initiative.

These programmes are being implemented to enhance students' practical skills and career readiness.

As of now, a total of 11,180 students of Std. 9 and 6,064 students of Std. 10 have benefited from these vocational courses.

Digital Classrooms:

By the year 2024-25, out of a total of 7,934 classrooms in municipal schools, 3,814 classrooms have been converted into digital classrooms using LED Interactive Panels.

In the academic year 2025-26, totally 1,300 classrooms in municipal schools have been further converted into digital classrooms with the help of interactive panels. The remaining classrooms will be gradually converted into digital classrooms in a phased manner.

STEM Robotics:

To increase students' interest in science and technology and to develop their analytical and creative thinking abilities, STEM (Science, Technology, Engineering, Mathematics) - Robotics laboratories have been equipped with materials in 175 primary schools.

Training has also been provided to teachers from these 175 schools. Students are actively using STEM Robotics materials for learning and practical activities.

English Language Laboratory :

Since most educational information available on the internet is in English, students often find the subject difficult. To overcome this challenge, in the academic year 2025-26, English language laboratories have been supplied, set up, tested, and made operational for students of Std.8th to Std. 10th.

These laboratories have been established in 112 existing computer laboratories at 112 locations, and in 55 new buildings, making a total of 167 English language laboratories.

Cyber Literacy:

Although the internet is highly useful for educational purposes, its safe and appropriate use requires awareness and caution. Therefore, in the academic year 2025-26, a total of 20,000 students from Std. 8 and Std. 9 in Brihanmumbai Municipal Corporation schools were trained on the safe and responsible use of the internet.

Upgradation of Science Laboratories :

Science laboratories play an extremely important role in developing scientific skills and fostering a scientific attitude among students.

Therefore, in the academic year 2025-26, under the Brihanmumbai Municipal Corporation Education Department, necessary equipment and furniture have been provided for the upgradation of science laboratories in 90 primary schools and 100 secondary schools, totaling 190 schools.

Virtual Classroom (VTC):

In the Virtual Classroom (VTC), teaching activities are currently being conducted using

internet-based digital panels and available virtual classroom equipment. The system has achieved the capacity to connect all municipal schools.

In addition, expert lectures on various subjects are also organized. Teaching is being carried out for Std. 1 to Std. 10 in four mediums: Marathi, Hindi, Urdu, and English.

Maintenance of Water Purification Units:

In Brihanmumbai Municipal Corporation schools, annual maintenance of a total of 1,600 water purification units has been carried out during the period 2025-26 and 2026-27.

Modern Seating Arrangement (Desk-Chairs):

For students from Nursery to Std. 10 in municipal schools, procurement of modem seating arrangements has been carried out.

Free Travel under BEST Bus for School Students:

Under the Brihanmumbai Municipal Corporation scheme, uniformed students from Std. 1 to Std. 10 are provided free bus travel facility from their residence to school through BEST.

Also, on routes where BEST bus service is not available, special bus services are provided by BEST.

Purchase of Workbook:

To help Std. 5th students clearly understand subject-wise concepts, comprehend the meaning of poems, understand word meanings, develop writing skills, understand science concepts. and practice various mathematical operations and exam-oriented questions, workbooks for all major subjects have been purchased in the academic year 2025-26.

Science Park :

In the academic year 2025-26, Science Parks have been established on a pilot basis in the following two school buildings of the Brihanmumbai Municipal Corporation:

1. Korba Mithagar Municipal School, Wadala and

2. Janakalyan Nagar Municipal School, Malad.

Magic Box (Gyanpeti):

Under the National Education Policy 2020, to encourage students' thinking ability and creativity and to provide joyful learning, a "Magic Box" was introduced for pre-primary students in the academic year 2024-25.

Student Safety Empowerment:

To create awareness regarding the safety of students studying in Brihanmumbai Municipal Corporation schools, a Student Safety Empowerment initiative has been

implemented. Under this initiative, safety-related materials have been provided to schools.

Library Department:

Under the Brihanmumbai Municipal Corporation Education Department, a total of 37 public libraries/reading rooms are functioning in the Mumbai area.

Out of these:

- 19 libraries have been managed and maintained under contract by the "Mumbai Marathi Granth Sangrahalaya" institution since 1965.
- 2 libraries are operated by the State Government.
- 4 libraries are run by private organizations.

Additionally, 10 spaces reserved for library purposes have been handed over on caretaker basis to reputed organizations in Mumbai for maintenance and management. Well-functioning libraries/reading rooms are operating in these spaces.

An e-library and study room have been provided at Dahisar (West), and study room facilities have been made available at Chembur.

Furthermore, 4 teacher libraries are functioning at the zonal level for teachers and non-teaching staff, serving as resources for educational reference and knowledge enhancement.

Free Textbook Distribution:

In the academic year 2025-26, under the Samagra Shiksha scheme, the Brihanmumbai Municipal Corporation Education Department distributed free textbooks to students.

A total of 20,83,662 textbooks, including large print textbooks, were distributed to municipal schools in Marathi, Hindi, Urdu, Gujarati, Kannada, Tamil, and Telugu mediums for Std. 1 to Std. 8, as well as to aided private schools for Std. 1 to Std. 4 under both management types.

Free Educational Material Distribution:

Most students admitted to the schools of the Brihanmumbai Municipal Corporation come from economically weaker sections of society. In such a situation, in order to ensure that parents of municipal school students do not face an economic burden of purchasing school-related items, free school utility materials have been distributed since the year 2007-08.

At present for the year 2024-26, school utility items (uniform, notebooks, shoes-socks, stationery, sandals, school kit (tiffin box, water bottle, school bag), canvas shoes and sports uniform, etc.) have been purchased and distributed to the students for the academic year 2025-26.

Tab (Tablet) Distribution:

The Brihanmumbai Municipal Corporation is implementing a tablet distribution initiative to introduce modern education and new technology to school students.

For students of Classes 8th to 10th in Marathi, Urdu, Hindi, and English medium:

- In 2015-16 total 18,078 tablets were distributed
- In 2016-17 total 21,044 tablets were distributed
- In 2017-18 total 18,078 tablets were distributed

Also, in 2021 -22, 19,401 tablets were distributed to Class 10th students with 1+4 years extended warrant (from 2022-23 to 2025-26).

These tabs are being effectively used for students' technical education, and complaints are resolved from time to time.

In the year 2025-26, administrative approval has been received for the supply of 19,317 tabs (with 1+4 years maintenance) for Class 9th students, and the supply has been completed through the contractor.

House keeping

Since 2009, external contractors have been appointed for cleanliness, security, and maintenance of school buildings of the Brihanmumbai Municipal Corporation.

Currently (2022-2025), maintenance and cleaning of 469 school buildings are being carried out by contractors on a per square foot rate basis. After the contract ended on 31 July 2025. it has been extended up to 31 October 2025, and approval has been granted for the period from 01.11.2025 to 31.01.2026 (3 months).

Also, for the period 2025-2028, the tender process for housekeeping and attendant services is currently underway.

Financial Literacy:

In the academic year 2022-23, an innovative initiative of imparting financial literacy education was implemented by the Brihanmumbai Municipal Corporation Education Department for students of municipal schools under the Financial Literacy Campaign.

For this initiative, a Memorandum of Understanding was signed in the year 2022-23 with the Bombay Stock Exchange Institute Limited. Under this, 100 master trainer teachers were trained. These trained teachers further provided training to other teachers of the Municipal Corporation.

Supply of Art and Work Experience Kits: '

In the first phase, art and work experience kits were provided to students of Classes 1 to 5 of the Brihanmumbai Municipal Corporation schools during the academic year 2024-25.

In view of the expansion of this project and as per the demand of headmasters, approval has been received for providing art and work experience kits for students of Classes 6 to 8 in the second phase during the academic year 2025-26 in Brihanmumbai Municipal Corporation schools.

Also, after completion of the tender process and appointment of the contractor, the art and work experience kits have been supplied.

Grammar Book Set:

Considering the need for grammar to improve writing skills and fluent communication of students in Brihanmumbai Municipal Corporation schools, grammar book sets have been made available for students of Class 5th to 8th all mediums in municipal schools for the academic year 2025-26.

Supplementary Nutrition (Mid-Day Nutrition Support):

With the objective of supporting students' physical development, improving their performance in sports, and ensuring overall good health, approval has been granted for providing Supplementary Nutrition (Supplementary Nutrition) to students from Balwadi to Class 10 in Brihanmumbai Municipal Corporation schools.

Mahapreet (Energy Efficiency Initiative):

Administrative and execution approval has been received for installing energy-saving tube lights, fans, and Energy Monitoring Devices in Brihanmumbai Municipal Corporation school buildings.

Accordingly, in the first phase of circle-wise implementation, work has been started in the city division.

Also, in the second phase; survey of schools in the eastern suburbs and western suburbs will be conducted, and further implementation work will be initiated thereafter.

Skill Development Centers:

The e-tender process for establishing Skill Development Centers in all secondary schools of the Brihanmumbai Municipal Corporation has been completed by the Education Department, and a contractor has been appointed under the same.

Under this initiative, a total of 220 Skill Development Centers have been established across all secondary schools under 12 job roles by the appointed contractor. Training classes for students for the academic years 2024-25 and 2025-26 have been started through these centres, and at present, the work is being carried out satisfactorily.

Fire Sticker System :

In school buildings, fire extinguishers and fire spray systems have been installed on each floor to immediately control and extinguish fire in case of an outbreak.

Scout-Guide Uniform:

In all linguistic municipal schools (pre-primary, primary, and secondary), the Scout-Guide curriculum was earlier taught for two days a week after school hours; however, from the academic year 2023-24, it has been included in the school timetable.

Since Scout-Guide is a uniformed movement, wearing the uniform three days a week as well as during various activities, camps, and competitions is mandatory. Considering the importance of Scout-Guide education, this curriculum has been made compulsory in all medium and board schools of the Municipal Corporation.

Road Safety Patrol (RSP) Uniform:

In Brihanmumbai Municipal Corporation schools, Road Safety Patrol (R.S.P.) units have been established to create awareness among students regarding road safety and traffic rules on the lines of traffic police.

At the primary level, students from Class 5th to 8th, and at the secondary level, students from Class 6th to 10th participate in this unit.

Science Curiosity Building (Vigyan Kutuhal Bhavan):

The Science Curiosity Building (Vigyan Kutuhal Bhavan) is a central, independent project of the Brihanmurnbai Municipal Corporation Education Department based on moving models related to Science, Astronomy, Geography, and Health.

Here, students from all-language schools are brought as per annual planning in 3 mini buses to observe demonstrations of moving models. The benefit of this project is also availed free of cost by private secondary schools, D.Ed. and B.Ed. colleges, and citizens.

District Training Center:

Every year, on 27th February, on the occasion of the birth anniversary of Great marathi writer, poet and dramatist and recipient of Gyanpeeth Award Late Shri V. V. Shirwadkar alias 'Kusumagraj' the District Training Center celebrates Marathi Language Day.

On this occasion, a booklet is prepared by the District Training Center. This year, to promote and increase the popularity of the Marathi language, a booklet based on Marathi grammar was prepared. The booklet was distributed during a program held at the Municipal Corporation Headquarters.

Medical Officer (Schools) School Health Department:

Through the School Health Department of the Brihanmumbai Municipal Corporation, medical examinations of students from Class 1 to 10 are conducted every year. For this purpose, medical officers, nurses, and other staff visit schools.

Students identified with illnesses during the examination are referred to municipal dispensaries and hospitals for treatment, and their further treatment is provided free of cost. For this purpose, 10 school dispensaries are functioning.

In the academic year 2025-26, from April 2025 to March 2026, a large number of students were medically examined. Health-related guidance was also provided to students, teachers, and parents.

Balwadi Classes:

At present, in the academic year 2025-26, a total 900 Balwadi classes are running

under the Brihanmumbai Municipal Corporation. These 900 Balwadi classes include students in the age group of 03..---to 06years, and a total of28,927 students are studying in these classes.

Scholarship Examination :

In the academic year 2024-25, in the schools of the Brihanmumbai Municipal Corporation, a total of 4,070 students of Standard 5 were enrolled for the examination. Out of these, 1,234 students passed, and 536 students received scholarships.

Also, a total of 3,619 students of Standard 8 were enrolled. Out of these, 972- students passed, and 417 students received scholarships.

For the academic year 2025-26, in the schools of the Brihanmumbai Municipal Corporation, a total of 5,583 students of Standard 5 are expected to be enrolled, while 4,508 students of Standard 8 are expected to be enrolled.

Mayor's Award:

A total of 50 Headmasters/Teachers from primary, secondary, as well as private aided and unaided schools of the Brihanmumbai Municipal Corporation were honoured with the Mayor's Award.

Balakotsav:

In the schools of the Brihanmumbai Municipal Corporation, students who take admission are given an excellent opportunity to showcase their talents in dance, music, acting, etc. This is an important competition with nearly 20,520 students participating from across the entire Municipal Corporation.

This competition is organized at ward level and municipal level. In Balakotsav, three types of competitions are conducted: drama competition, cultural programme competition, and folk dance competition at the ward level.

After that, from the eight municipal divisions, the folk dances that secure first place are selected for the final round, which is held in a well-equipped auditorium. From these, the final winner is selected.

The first three winning folk dance groups are awarded a trophy, certificate of appreciation, and cash prize, and all participating students are given certificates of appreciation.

Attendance Allowance for Girl Students:

Under the scheme of Attendance Allowance for Girls, in the academic year 2025-26, girl students studying in Standards 1st to 8th are provided an attendance-based benefit according to school enrolment, ranging from a minimum of Rs. 1,000 to a maximum of Rs. 5,000.

For primary classes, 11,578 girl students were covered, and a total amount of Rs. 4,35,67,800 in the form of fixed deposit certificates was issued through the India Post Department.

For secondary classes, 570 girl students were covered, and a total amount of Rs. 22,76,500 in the form of fixed deposit certificates was issued through the India Post Department.

Various Welfare Schemes for Divyang (Disabled) Students :

(a) Scholarship Scheme: Under the Inclusive Education scholarship scheme, Divyang students from Standards 1st to 10th who secure **'B'** or above grade in the second-term examination are provided an annual scholarship ranging from Rs. 1,000 to Rs. 2,000.

Based on the results of the academic year 2024-25, 'the process of providing scholarships to 2,830 beneficiary students is being implemented in 2025-26.

(b) Attendance Allowance Scheme: In the year 2024-25, a total of 3,737 Divyang students are being provided an attendance allowance at the rate of Rs.20 per day. The implementation process is currently underway.

© Supply of Educational Materials: In the year 2025-26, educational materials covering 36 different types have been procured and distributed to Divyang students studying in 18 out of 19 special schools of the Brihanmumbai Municipal Corporation.

Pradhan Mantri Poshan Shakti Nirman Yojana:

Under the centrally sponsored Pradhan Mantri Poshan Shakti Nirman Yojana, cooked mid-day meals are provided to an estimated 5.40 lakh students from Standards 1st to 8th studying in municipal and private aided primary/secondary schools within the Brihanmumbai Municipal Corporation area.

In the academic year 2025-26, a total of 147 women's organizations are engaged in supplying cooked food to students of municipal and private aided schools in the Mumbai Municipal area. This includes 2,18,820 students of Standards 1st to 5th and an average of 2,51,797 students of Standards 6th to 8th.

The meal menu is decided by the Education Officer's PM Poshan Section. Every day, per student, 400 to 450 grams of cooked food is provided for Standards 1st to 5th, and 700 to 750 grams of cooked food is provided for Standards 6th to 8th. The supply is delivered to schools by women's organizations.

Health Services

Digital Mamography Machine at K.E.M. Hospital

N.I.C.U.

Health Services

Main functions of Public Health services of the Brihanmumbai Municipal Corporation are as follows:-

1. Births and Deaths Registration :

In the Brihanmumbai Municipal Corporation area, the registration of births and deaths is carried out as per the provisions of 'the Registration of Births and Deaths Act, 1969' enacted by the Government of India, along with the rules framed thereunder by the Government of Maharashtra. As per this Act, a uniform system of registration of births and deaths is implemented across the country. It is mandatory to report and register live births, stillbirths, and deaths. Information about such events must be submitted in the prescribed format to the concerned Registrar/Sub-Registrar within 21 days from the date of occurrence, free of cost, in accordance with the provisions of the Act.

Birth and death certificates are issued to citizens through the Central Government's Civil Registration System (CRS). For birth registration between 30 days and 1 year, the prescribed fee along with a self-declaration is required. For delayed birth registration after 1 year, it is carried out upon payment of the required fee and based on orders from the District Magistrate/Tahsildar.

2. Marriage Registration :

The Brihanmumbai Municipal Corporation Public Health Department has been carrying out marriage registration work through ward offices from 'A' to 'T' since 5 March 2010, in accordance with 'the Maharashtra Regulation of Marriage Bureaus and Registration of Marriages Act, 1998'. Citizens can apply for marriage registration online through the official portal (www.portal.mcgm.gov.in). The submitted application and the concerned parties are verified in the presence of the Registrar.

Once the marriage registration application is approved, the applicant receives a notification via email. After payment of the applicable fees, the marriage registration certificate is issued online via email. This provides a very simple and convenient online facility for marriage registration.

The Public Health Department of BMC provides marriage registration services for citizens of all religions. Additionally, since March 2025, a special online marriage registration service has been introduced for Sikh couples under the Anand Marriage Act, 1909.

Prior to October 2025, only marriages conducted within Maharashtra State were eligible for registration. Now, marriages conducted anywhere in the world can be registered, provided at least one of the spouses resides within the jurisdiction of the Municipal Corporation.

To make services more convenient and to avoid the need for citizens to take leave, 'Holiday Special' (Weekend Marriage) and Tatkal Marriage Registration' services have been introduced with additional charges.

The Municipal Corporation continuously strives to enhance citizen services through innovative initiatives, such as online registration of marriage bureaus, issuance of old marriage registration certificates in new QR-code formats, and other digital service improvements.

3. Family Welfare and Maternal and Child Health :

The Brihanmumbai Municipal Corporation has been implementing the Family Welfare Programme since·1964. The main objective is to promote the importance of small families among eligible couples and to control population growth by reducing the birth rate. Under the Family Welfare and Maternal & Child Health Programme, various national health programmes are implemented, including: Reproductive and Child Health Programme (RCH), Janani Suraksha Yojana, Janani Shishu Suraksha Karyakram, Pradhan Mantri Surakshit Matritva Abhiyan, Pradhan Mantri Matru Vandana Yojana, Universal Immunization Programme, Vitamin A and deworming drives, Rashtriya Kishor Swasthya Karyakram, National Urban Health Mission. Efforts are made to improve the quality of maternal and child healthcare services and to reduce maternal and infant mortality rates. These services contribute to improving the overall health status of Mumbai' s citizens.

The programme is implemented through 3 bureau offices, 212 health centres, 4 medical colleges and hospitals, 5 specialty hospitals, 16 suburban hospitals, 26 maternity homes, and 1 mother and child hospital.

Health Centres and Urban Primary Health Centres :

To provide primary healthcare services near citizens residences, the Public Health Department operates 212 health centres across Mumbai. Additionally, 36 new centres have been established under the National Urban Health Mission.

Services provided include:

- Full immunization for children (0-5 years),
- Pulse Polio campaigns,
- Vitamin A and deworming for children (9 months to 6 years),
- Adolecent health services,
- Antenatal check-ups and promoting institutional deliveries,
- Postnatal visits for mother and newborn,
- Distribution of contraceptives to eligible couples,
- Encouraging family planning surgeries,
- Data collection, record maintenance, and implementation of national health programmes.

Special Initiatives

- The **"Ma-Mitra Helpdesk"** initiative is implemented in 38 health facilities (4 medical colleges, 7 suburban hospitals, and 25 maternity homes). Pregnant women receive counselling through automated voice calls and SMS.
- To raise awareness about anaemia among women of all age groups, the Public Health Department has launched the **“Anemia-Free Mumbai - Lal Rang Kamal Rang”** campaign.
- **Yuva Swasthya Sparsh Kendras (Adolescent Health Centres)**: 34 centres are being made operational for adolescents aged 10-19 years, providing safe, confidential, and comprehensive health services, including physical and mental health counselling. In collaboration with Mumbai District AIDS Control Society, HIV prevention and awareness activities are conducted. Clinics are organized on the 2nd and 4th Saturdays of every month under trained medical officers.

Maternity Homes :

At present, 25 maternity homes are fully operational under BMC, while 5 are closed for reconstruction.

Services provided include:

Antenatal, delivery, and postnatal care, Family welfare and contraceptive services, Newborn and pediatric care, Gynecological services, Menopause outpatient Services, Cancer screening for women, Sonography services.

All services are provided' free of cost. Beneficiaries also receive support under schemes like Janani Suraksha Yojana and Janani Shishu Suraksha Karyakram, along with free diagnostic tests, diet, and transport facilities.

Special neonatal care units (SNCU) with 5 beds each are available at 2 sentinel centres and 1 maternity home (total 15 beds). Currently, Savitribai Phule Maternity Home is under reconstruction, and Sushma Swaraj Maternity Home has been relocated. A 20-bed Neonatal Intensive Care Unit (NICU) is operational at Shivaji Nagar Maternity Home through an outsourced model

Under the National Urban Health Mission, specialists such as gynecologists, pediatricians, anesthetists, nurses, laboratory technicians, pharmacists, and data entry operators are appointed on a contractual basis.

To further enhance the quality of services in maternity homes, specialist doctors and postgraduate medical students under residency programmes are also deployed.

4. Hindu Hridaysamrat Balasaheb Thackeray Apla Dawakhana :

On 17th November 2022, on the death anniversary of Hindudridaysamrat Balasaheb Thackeray, the Brihanmumbai Municipal Corporation launched the 'Hinduhridaysamrat Balasaheb Thackeray Aapla Dawakhana' initiative with the objective of providing accessible primary healthcare services to all citizens.

Key Features:

1. To ensure convenient access to primary healthcare, Aapla Dawakhana clinics have been set up at accessible locations and suitable timings using porta cabins, ready structures, open plots, and existing dispensaries.
2. Existing dispensaries have been upgraded with improved infrastructure to establish polyclinics and diagnostic centres, providing access to specialist consultation service .
3. Free healthcare services are provided to reduce the financial burden on citizens.'

Financial Provision:

1. Rs. 3 crore sanctioned for construction
2. Rs. 80 crore sanctioned for salaries in FY 2026-2027.

Number of Functional Centres:

- Total 264 Aapla Dawakhanas operational
- 3 3 Polyclinics and Diagnostic Centres
- 100 Porta Cabins
- 10 7 Existing Dispensaries
- 2 4 Ready Structures

Service Timings:

Morning Session:

- 7:00 AM - 2:00 PM - 13 clinics
- 9:00 AM - 4:00 PM - 4 clinics
- 32 Pol clinics and Diagnostic Centres

Afternoon/ Evening Session:

- 3:00 PM - 10:00 PM – 227 clinics
- 1 Polyclinic and Diagnostic Centre

Services Provided:

- Free medical consultation and treatment.
- Free blood tests.
- At polyclinics and diagnostic centres, free consultation and treatment by specialists such as: Dentists, Gynecologist, Pediatricians, Physicians, Dermatologists, Ophtalmologists, ENT specialist and Physiotherapists.

5. Expanded Immunization Programme :

As per the guidelines of the Government of India, the Expanded Immunization Programme is implemented to vaccinate all children below five years of age. Preventive vaccines are administered to protect them against diseases such as polio, diphtheria, pertussis (whooping cough), tetanus, tuberculosis, measles, rubella, hepatitis-B, rotavirus, diarrhea, Haemophilus influenzae type-B, and pneumococcal pneumonia.

In addition, pregnant women are given TD vaccination to prevent tetanus. Vaccination services are provided free of cost at suburban hospitals, health centers, dispensaries, maternity homes, etc., under the Brihanmumbai Municipal Corporation (BMC).

As per the instructions received from the Ministry of Health and Family Welfare, Government of India, the Human Papillomavirus (HPV) vaccination programme was launched on 28th February 2026 across the state as well as in Mumbai city to prevent cervical cancer in women. In accordance with the guidelines of the Central and State Governments, daily HPV vaccination sessions are being conducted at all medical colleges, municipal maternity homes, general hospitals, suburban hospitals, and health centers under the BMC jurisdiction. Under this programme, HPV vaccination is provided free of cost only to girls in the age group of 14 to 15 years.

In the BMC area, anti-rabies vaccination is provided free of cost to patients bitten by dogs at a total of 156 anti-rabies vaccination centers, including 17 suburban hospitals, 127 dispensaries, and 12 "Aapla Dawakhana" clinics.

Since March 2014, all international travelers traveling to polio-affected countries are provided with an additional dose of polio vaccine and a certificate at six designated centers in Mumbai.

During the year 2025 -2026, immunization coverage achieved for the first dose of the measles-rubella vaccine was 7 6 . 7 5%, and for the second dose, it was 76.79%

6. Family Welfare Programme :

The Family Welfare Programme is a Government of India-sponsored initiative implemented by the Brihanmumbai Municipal Corporation (BMC) through the office of the Special Officer (Family Welfare). Under this programme, the following services are provided free of cost.

1. Family planning surgeries (female sterilization/tubal ligation and male sterilization/vasectomy)
2. Copper-T (IUD) and postpartum Copper-T
3. Oral contraceptive pills (for women)
4. Conventional contraceptives (condoms)
5. 'Antara' injectable contraceptive

Male Sterilization:

The Family Welfare Centre has been shifted to the Prabhadevi Maternity Home building under the 'F/South' Ward Office, where male sterilization procedures are conducted. The 'F/South' Family Welfare Centre is recognized as a training center for male sterilization surgeries. Patients are provided compensation after undergoing the procedure.

National Family Planning Indemnity Scheme:

In cases of failure, complications, or death following female or male sterilization, compensation is provided to patients or their legal heirs as per government policy.

Surrogacy (Regulation) Act, 2021 and Assisted Reproductive Technology (ART) (Regulation) Act, 2021:

The Surrogacy Act has been implemented in Mumbai as per Government of India guidelines, with Medical Health Officers designated as Appropriate Authorities.

A District Medical Board was established in January 2023 to issue Medical Indication Certificates for surrogacy. '

- Registered Surrogacy Centres : 29
- Registered ART Centres : 119

Implementation of Pre-Conception and Pre-Natal Diagnostic Techniques (PCPNDT) Act:

To prevent female foeticide and maintain gender balance, the PCPNDT Act has been implemented in Mumbai since 2001 as per State and Central Government directives. Medical Health Officers in each ward are appointed as Appropriate Authorities. A district-level advisory committee has also been formed, which meets monthly.

Registration Is mandatory for Genetic Counseling Centres, Genetic Laboratories, Genetic Clinics, Ultrasound Centres, Imaging Centres, Infertility Clinics, etc.

Status as of March 2026 :

- Total registered PCPNDT,centres : 1,840
- Total registered MTP centres : 724
- Sex ratio at birth (2025) : 936 females per 1, 00 0 males

Janani Surksha Yojana (J.S.Y.) :

Under the RCH-11 programme, this scheme aims to ensure 100% institutional deliveries to reduce maternal and infant morbidity and mortality. Pregnant women delivering in government or government-recognized hospitals receive Rs. 600 through PFMS. Eligibility: Women above 19 years of age belonging to Below Poverty Line (BPL) families and Scheduled Castes/Scheduled Tribes.

Maternal Death Review (BMC):

Since 2010, as per Government of India directives, a District Level Quality Assurance Committee has been formed to reduce maternal mortality and improve maternal healthcare services. All hospitals are required to report maternal deaths within 24 hours to the Special Officer (Family Welfare). Hospitals with more than 1,000 deliveries annually must conduct maternal death review meetings and submit reports.

The 'District Quality Assurance Committe' reviews maternal deaths monthly and issues guidelines based on observed gaps to prevent recurrence and ensure accountability.

In BMC hospitals, maternal mortality has reduced to 64 per 100,000 live births during April 2025 to March 2026.

7. Non-Communicable Diseases (NCD) Cell:

Objectives of the Programme:

Various programmes and community initiatives are organized at the community level as well as at BMC health centres, dispensaries, and hospitals to prevent and control non-communicable diseases such as diabetes, hypertension, cancers (oral, breast, and cervical) , and mental illnesses.

Screening for Diabetes and Hypertension:

Through the Public Health Department, screening and treatment for diabetes and hypertension are provided at 184 municipal dispensaries, 262 "Hindu Hriday Samrat Balasaheb Thackeray Aapla Dawakhana" clinics, 16 suburban hospitals, and 5 medical colleges.

NCO Screening Centres (NCD Corners):

NCD screening centres have been established in 26 hospitals to screen all individuals above 30 years of age for diabetes and hypertension .

Community - Based Screening in Slums and Similar Areas:

Since January 2023, ASHA workers and health workers have been conducting door-to-door surveys in 24 wards for individuals above 30 years, filling CBAC forms, and screening for hypertension. Suspected cases are referred for further diagnosis.

Dietary Counselling:

Contractual dieticians provide lifestyle and dietary counselling for diabetes and hypertension patients at all 24 wards through municipal dispensaries and Aapla Dawakhana clinics.

Oral Cancer Screening:

Oral cancer screening has been started in all municipal dispensaries and Aapla Dawakhana clinics since April 2023 .

Under the **"Mumbai Integrated Cancer Prevention Programme"** (from February 2025), screening, diagnosis, and referral services are provided for breast, oral, and cervical cancers.

Cancer Screening Campaign :

Oral, Breast and Cervical Cancer Screening implemented.

Mental Health Programme:

Under the "Manshakti" initiative, counselling and diagnostic services are available at all dispensaries. Total patients screened for mental health: 32,278 Psychiatrists have been appointed in dispensaries in the western suburbs, where 1,116 patients are receiving treatment.

Helplines provided by BMC : Hitguj : 24131212

National Tele - MANAS Helpline: 14416

"Namo Netra Sanjeevani Campaign":

Citizens screened for eye diseases and cataract surgeries performed.

"Smart Netra Jyoti" Initiative:

Under this initiative, AI-based free eye screening for diabetic eye diseases is being conducted at BMC dispensaries and Aapla Dawakhana clinics in collaboration with Shantilal Sanghvi Eye Institute. Patients are referred for free surgeries if required. Initially implemented in 7 wards ('G/N', 'G/S', 'F/N', 'F/S', 'M/W', 'M/E', 'L'), the programme will be expanded to all wards in phases.

Training:

- Over 200 medical officers trained for 8 weeks on "Cardiometabolic Syndrome" through ECHO online training
- Ongoing "Cancer Sarthi" training via ECHO
- One-day training on NCD IT Portal conducted.

Yoga Centres:

For lifestyle management, the "Shiv Yoga Centres" initiative is being implemented across all 24 wards of BMC. Total centres operational are 136.

Healthy Campus Initiative - 'Less Salt, Less Sugar' Campaign:

This initiative is aimed at college students and includes:

Implementation of nutrition guidelines in canteens, Awareness through Blue Ribbon Movement, peer educators, and "Youth Health Champions", Educating youth about the harmful effects of fast food, Promoting healthy eating habits.

8. National Tuberculosis Elimination Programme (NTEP)

Under the Mumbai District Tuberculosis Control Society, the National Tuberculosis Elimination Programme is implemented across 24 wards of Mumbai through 24 District TB Officers, approximately 50 Treatment Supervisors from the BMC Health Department, and 469 contractual staff working under NTEP, providing various diagnostic and treatment services.

Approximately 3% of India's total TB patients are found in Mumbai, of which about 14% are drug-resistant tuberculosis (DR-TB) cases. Around 58% of Maharashtra's total DR-TB patient are from Mumbai. On average, 4,000 to 5,000 drug-resistant TB cases are diagnosed annually in Mumbai.

Various measures are being implemented to make Mumbai TB-free. Tuberculosis is a curable disease, and diagnosis and treatment are completely free of cost in BMC facilities.

Measures Undertaken by BMC for TB Patients :

1) Diagnostic Facilities:

- Mumbai has 45 CBNAAT and 34 TruNAAT machines for free and accurate diagnosis of TB and Rifampicin-resistant TB
- 4 PathoDetect machines are being provided by the Central TB Division; currently: 2 are installed at JJ Hospital and IRL GTB Laboratory.
- GTB Sewri TB Hospital's Culture & DST Lab has been upgraded to an Intermediate Reference Laboratory (IRL)
- TB laboratory at Kasturba Hospital has been made operational
- Out of 24 handheld X-ray machines received from the State TB Office, 16 are deployed in suburban hospitals; additionally, 24 more X-ray machines are used under CSR.

Treatment Facilities:

Differentiated TB Care:

All TB patients are assessed at diagnosis for high-risk factors to improve treatment outcomes.

Advanced BPaLM Regimen for Drug-Resistant TB:

Free treatment and adverse drug reaction management provided through 31 DRTB clinics, 6-month advanced BPaLM treatment regimen implemented.

3. TB Preventive Measures:

CY-TB test introduced to identify individuals infected with TB bacteria but without symptoms, Preventive therapy is provided after ruling out active TB.

4. Speciaf Initiatives for TB Control:

TB Mukt Bharat Abhiyan:

Launched by the Government of India in 2025, totally 13,08,200 vulnerable individuals screened and 1,24,774 suspected cases underwent X-ray.

Whole Genome Sequencing (WGS):

Advanced test to detect drug resistance patterns, Pilot completed on 2,500 samples; to be included after central approval.

Nutritional Support Kits:

Provided monthly for 6 months to TB patients through Nikshay Mitra initiative. 1,48,867 ration kits distributed under Nikshay Poshan Yojana in the last 2 years.

5. Awareness Activities: ·

Awareness is spread through hoardings, BEST bus stop banners, health talks,

street plays, jingles, and videos. Special awareness programmes are conducted in all 26 wards of Mumbai.

Symptoms of Tuberculosis (Any of the following should not be ignored):

Cough lasting more than 2 weeks, Fever, Weight loss, Night sweats, Loss of appetite, Chest pain, Difficulty breathing, Blood in sputum or coughing blood, Fatigue, Swelling in the neck.

Citizens are urged by BMC to visit the nearest municipal dispensary, health post, or "Aapla Dawakhana" for free diagnosis and treatment if they experience any of these symptoms.

World Tuberculosis Day is observed on **24 March**, and the 2026 theme is : **"Yes! We can end TB: Commit, Invest, Deliver"**. This highlights that with strong national leadership and active community participation, elimination of tuberculosis is achievable.

9. Epidemic Control Cell :

The Epidemic Control Cell under the Public Health Department has been operational since 25 April 2007. It is fully equipped and designed to control infectious diseases such as dengue, leptospirosis, malaria, gastroenteritis, jaundice, H1N1 (swine flu), etc. Through this cell, data related to patients is collected and reports are analyzed to control various diseases, including COVID-19.

Office Address: Epidemic Control Cell, Kasturba Hospital, Ward No. 38, 1st Floor, Sane Guruji Marg, Saat Rasta, Mumbai - 400012.

Key Functions of the Epidemic Control Cell:

- Every year during the monsoon, a control room is activated where daily data on epidemic diseases is collected from BMC, government, and private hospitals. This information is compiled and shared with Medical Health Officers (wards) for disease control measures. 'Data collection and analysis continue even beyond the monsoon period, and necessary preventive actions are taken accordingly. Daily reports are submitted to senior officers and forwarded to the Director of Health Services, Maharashtra.
- As per the guidelines of the National Vector Borne Disease Control Programme, information on diseases like malaria and dengue is shared with the Insect Control Department to carry out vector control activities.
- Coordination is maintained with various health and other departments to control infectious diseases and prevent outbreaks.
- Regular water quality testing is conducted. Drinking water samples are tested in municipal laboratories, and if found unfit, corrective measures are taken in coordination with the Water Department. Water samples from street vendors, ice samples (from shops and manufacturing units), etc., are also tested for quality.
- For prevention and control of leptospirosis, a joint action plan has been developed in coordination with the Solid Waste Management Department, Pest Control Department, Hydraulic Engineering Department, and Veterinary Department. Regular inspections of animal shelters and related areas are carried out.

- After heavy rainfall, door-to-door surveys are conducted, and preventive medication is distributed to high-risk individuals based on risk assessment to prevent leptospirosis.
- In case of any outbreak, action is taken at the community level by the Rapid Response Team (RRT) in coordination with local health center staff to control the spread of disease.

10. Assistant Medical Officer (Surveillance) :

1. Immediate and accurate diagnosis of malaria cases and reporting within 24 hours.
2. Complete and radical treatment for all malaria patients.
3. Capacity building of all staff as per the guidelines of the National Vector Borne Disease Control Programme (NVBDCP).
4. Joint action by Medical Health Officers and Insecticide Officers.
5. Public awareness and health education.

At locations where malaria cases are detected, **FOCI-based surveillance** is conducted at the ward level. Patient information is shared with the Insect Control Officer for mosquito control measures. During pre-monsoon and monsoon periods, extensive inspections are carried out at construction sites. Mosquito nets are distributed, and health check-ups of new workers are conducted. Indoor Residual Spraying (IRS) is undertaken by the Insect Control Department. Special campaigns are conducted for construction workers and other vulnerable populations within wards.

Strategies for Malaria Elimination:

- Micro-planning and mapping for focused interventions (FOCI).
- 1- 3- 7 strategy approach.
- "3T" strategy: Testing - Treating - Tracking.
- Effective vector control measures.
- Co-ordination within municipal departments and with external agencies.
- Public awareness and training.

11. School Health Services- : .

Under the School Health Department, annual medical check-ups are conducted for all students from Class 1 to 10th in BMC schools. Medical teams visit schools and include:

One Medical Officer, One Junior Health Educator, One Attendant.

Duringthese check-ups, conditions such as congenital defects, diseases, nutritional deficiencies, and growth-related issues are identified. Students are referred to BMC dispensaries, "Aapla Dawakhana" clinics, and hospitals for further treatment, including surgeries, and follow-up is ensured.

The School Health Department operates 10 School Clinics located in BMC hospitals. Students referred for further treatment are provided transport facilities and treated free of cost.

Key Activities:

1. Health Awareness & Healthy Child Competition:

Health education is provided to students, teachers, and parents through parent-teacher meetings. A "Healthy Child Competition" is organized annually in primary and special school to promote positive health attitudes.

2. Vision Screening & Spectacles Distribution:

In coordination with NGOs, students identified with vision defects are further examined and provided spectacles.

3. Health Check-ups in Remote BMC Schools:

Medical check-ups are also conducted in BMC schools at Dhamangaon, Tansa, and Modaksagar for children of Water Department employees.

4. International Yoga Day:

Celebrated on 21st June 2025 in all BMC schools, promoting yoga, physical exercise, balanced diet, and mental well-being among students.

5. Budget Utilization :

Education dept. gives fund to school health section.

National Child Health Programme RBSK Report 2025-26:

Implemented in BMC since 2017. Total teams are 55.

Coverage : Children aged 0-6 years (Anganwadi/Balwadi): screened twice a year and children aged 6-18 years (aided schools): screened once a year.

Focus on "4Ds" :

Birth Defects, Diseases, Deficiencies, and Development Delays.

Children identified with health issues are referred to BMC facilities for medical and surgical treatment. Parents are counselled, and follow-up is ensured until recovery.

12. De-addiction Centre for Substance Abuse :

The Brihanmumbai Municipal Corporation (BMC) runs a 20-bed De-addiction Centre under the Public Health Department at Bharadawadi Maternity Home Building, Bharadawadi, Andheri (West), Since 1992. This centre provides detoxification treatment for various types of substance addiction such as alcohol, opium, charas, cannabis (ganja), sleeping pills, inhalants, MD, amphetamines, and tobacco.

Services available at the centre:

1) Inpatient Department (IPD) :

Only male patients above 18 years are admitted for detoxification treatment for various addictions.

2) Outpatient Department (OPD):

Treatment is provided daily from 9:00 AM to 12:00 PM (except Sundays and public holidays) for patients with various addictions.

Free Opioid Substitution Therapy (OST) is provided to patients addicted to brown sugar.

3) Counselling:

Regular counselling is provided to both inpatients and outpatients, as well as their family members.

4) Blood Tests:

Before admission to the inpatient department, various blood tests are conducted free of cost under the BMC "Aapla Dawakhana" scheme.

5) Spiritual/Support Meetings:

Meetings such as Alcoholics Anonymous (AA) and Narcotics Anonymous (NA) are conducted for admitted patients. Family members are also guided to participate in Family Anonymous and Al-Anon meetings.

13. Regulation of Crematoriums and Burial Grounds:

Under ection 61(e) of the amended Mumbai Municipal Corporation Act, 1888, it is a mandatory duty of the Brihanmumbai Municipal Corporation to arrange for the disposal of the dead bodies and to regulate places for cremation and burial within Mumbai.

Accordingly, the number of available crematoriums and burial grounds is as follows:

Category	Hindu	Muslim	Christian	Others	Total
Municipal	48	17	10	0	75
Private	22	57	42	5	126
Total	70	74	52	5	201

Free firewood is provided by the Municipal Corporation at both municipal and private Hindu crematoriums. Similarly wooden planks used for burials are provided free of cost at municipal and private Muslim burial grounds.

Environment-Friendly Initiatives:

- To reduce the use of firewood and control pollution, the Municipal Corporation has adopted a policy to convert traditional wood-based cremation systems into gas-based cremation systems, while retaining some traditional pyres.
- Currently : 6 crematoriums have electric cremation systems and 17 crematoriums have gas-based cremation systems
- As an alternative eco-friendly fuel, biomass briquettes (agro/tree waste wood) are being introduced on a pilot basis at 14 crematoriums to reduce environmental degradation and air pollution.

Permission for Transporting Dead Bodies Outside Mumbai:

Permission is granted at Medical Health Officer offices (except Saturday afternoon) on all days : at 8:30 AM to 11:30 AM and 3:00 PM to 5:30 PM. If death occurs in a municipal hospital, permission can also be obtained from the same hospital for transportation within 24 hours. During non-office hours, Sundays, or public holidays, permission can be obtained from Medical Health Officers and municipal general

hospitals. Such permission is granted only if the body can be transported to a destination outside Mumbai within 24 hours.

Permission for digging family burial graves can be granted by:

Executive Health Officer, Deputy Executive Health Officer, Assistant Health Officer, Medical Health Officer of wards, and Emergency Medical Officers at Kasturba, Bandra Bhabha, Kurla Bhabha, and Bhagwati Hospitals.

Planning and maintenance responsibilities for crematoriums have been transferred to Ward-level Assistant Commissioners as per approval dated 06.06.2025 by the Municipal Commissioner.

14. Registration of Nursing Homes (Under Maharashtra Nursing Homes Registration Act, 1949):

All private nursing homes must be registered with the Municipal Corporation as per Maharashtra Nursing Homes Registration Act, 1949. Registration/renewal requires approval for change of use from the competent authority. The entire process is now online., Fire Compliance Certificate, and Change of User Certificate are mandatory for renewal.

15. Food Hygiene Programme (Licensing):

Under the provisions of the Mumbai Municipal Corporation Act 1888 it is mandatory to obtain license for premises where food items are prepared, stored, or kept for sale. This system ensures regulation and supervision of food hygiene at such establishments. The conditions of these licenses include mandatory compliance with hygiene standards while conducting food-related business activities.

Destruction of Unfit Food Items:

If food items unfit for consumption are found being sold openly by vendors or shopkeepers, action is taken to prevent disease outbreaks. As per Sections 415 and 416 of the Mumbai Municipal Corporation Act, 1888 such unsafe food items and beverages are seized and destroyed. This activity is carried out daily in each ward by Junior Inspectors and encroachment removal staff from the Licensing Department.

16. Training Department:

The primary objective of the Training Department under the Public Health Department is to organize regular induction and in-service training programmes to ensure continuous delivery of effective and quality health services.

17. Insecticide Department:

Vector control activities have been professionally carried out by the Insecticide Department since 1923 . The main objectives of the department, in order of priority, are:

Control of malaria vectors, Control of dengue/ chikungunya vectors, Control of filaria (nuisance) mosquitoes, Fly control, Rodent control.

Under the anti-malaria programme, control of urban malaria vectors (Anopheles stephensi) is achieved through engineering, biological, and chemical methods, along with legal measures.

To control dengue and chikungunya vectors (Aedes aegypti), action is taken to eliminate breeding sites, particularly water stagnation areas in and around households.

When a malaria case is detected, the Insect Control Officer initiates a special drive ("crusade") to identify breeding sites of malaria vectors (Anopheles mosquitoes).

Information about identified breeding sites is shared with Medical Health Officers for surveillance and further action related to malaria cases.

Rodent and fly control programmes are also implemented across all 24 wards of the BMC. Upon request from private property owners, BMC carries out larvicidal treatment and fogging operations on a chargeable basis as part of vector control measures.

18. Municipal Laboratory :

The Municipal Analyst Laboratory is divided into Administrative, Chemical, and Microbiology sections and is equipped with modern facilities spread over an area of approximately 11,700 sq. ft. The administrative staff possesses strong management skills and maintains all necessary documents and records efficiently. Effective coordination is maintained with vendors and service providers to ensure timely availability of resources, equipment, and services.

19. ACWORTH MUNICIPAL HOSPITAL FOR LEPROSY HOSPITAL, WADALA :

Acworth Municipal Hospital for Leprosy is established by the then Municipal Commissioner of Mumbai Mr. H. A. Acworth on 7th November 1890. Since 1st April 1991, the hospital has been taken over by Brihanmumbai Municipal Corporation as one of the specialized hospitals under the administrative control of the Executive Health Officer.

Services Provided By Acworth Municipal Hospital :

Acworth Hospital provides comprehensive care to the leprosy affected patients.

1. Inpatient services :- Total active beds in the hospital is 100 beds. All services in the hospital are provided free of cost. At present average bed occupancy is around 55%. The most of the patients are admitted in the hospital due to the old leper Act. Old, deformed, abandoned patients are provided shelter in the Hospital. Majority patients are living here more than 20 years almost on a permanent basis. Presently patients are admitted for ulcers and lepra reaction.
2. Outpatient services:- Out-patient services include Physiotherapy, Social service, Laboratory, Dressing and Pharmacy. Daily average O.P.D. attendance is about 56 patients per ay.
3. Field Work:- Under National Leprosy Elimination Programme, Hospital carries out IEC Activities in its project area i.e. Municipal wards ('E','F/South' and 'F/North') covering about 16 lakh population.
4. Training:- The hospital provides training in leprosy to post-graduate and under-graduate allopathy and non-allopathy medical students as well as to student nurses, Social Science and O.T./P.T. students. The hospital also offers training to Govt. Medical Officers, Non-medical assistants.
5. Medical records:- The hospital maintains statistical records and generates various reports thereby assessing the progress of N.L.E.P. in entire Mumbai.

Collaborative Programme of Acworth Hospital with NGOs:

- Acworth Leprosy Museum: This is a only Leprosy Museum in India Providing scientific Information about all aspects of leprosy.
- Footwear Unit: MCR footwear, Splints are provided to the leprosy patients at concessional rates.

'Leprosy case detection campaign- 2025-26' was conducted in Mumbai between 31st January 2026 till 15th February 2026. During this period nearly 49 lakh population was screened for signs & symptoms of leprosy with the help of 2765 teams. In this campaign 122 new leprosy patients were detected. All these new detected patients are registered and started the leprosy treatment.

20. Kasturba Hospital for Infectious Diseases :

Kasturba Hospital if located in the middle of city. It is largest infectious Diseases hospital in the South East Asia, which admits patients of all the infectious diseases.

1. At this hospital cases of infectious diseases i.e. Chickenpox, Measles, Mumps, AFP, Hepatitis ('A','B','C','E' & others hepatitis) D/V, Typhoid Fever, Cholera, Dysentery, H1N1, H3N2, Diphtheria, Whooping cough, Fever, Meningitis, Malaria, Leptospirosis/Dengue, Rabies, SARS, Ebola Virus, Covid 19 & newly emergency infectious diseases (except Tetanus, Tuberculosis Venereal Diseases & Leprosy) are isolated' & treated cases of Plague & Cholera are compulsory transferred to this hospital.
2. Kasturba hospital has well equipped 25 bedded Burns ward & 20 bedded intensive Care Unit with Ventilators & other equipments.
3. Separate ward was establishment for management for H3N2, Covid 19 & Measies cases.
4. Three Oxygen Generation Plants of 1080, 360 & 190 liters per minutes are available at Kasturba Hospital for Management of Critically ill infection diseases patients.
5. Kasturba Hospital has 10 bedded Negative Pressures isolated ward for admitting patients with different infectious diseases.
6. Kasturba hospital has T.B. lab for diagnosis of MDR - TB patients.
7. It is proposed to start Bio Safety Level 3 lab in Kasturba Hospital.
8. The roads at Kasturba Hospital have been renovated.
9. It is proposed to install a Biomethanisation plant of 2 MT capacity for scientific treatment of biodegradable waste generated within the premises of Kasturba Hospital.
10. It is proposed to install a solar power plant of capacity 130 kw to generate clean and sustainable electricity thereby reducing dependency on conventional sources.

Kasturba Hospital - Central Analytical Laboratory :

The Central Analytical Laboratory is Established in 1987. The sample of drugs and formulations received from Municipal Corporation's major hospitals, maternity homes and dispensaries are analyzed by this laboratory as per pharmacopoeial procedures.

Central Analytical Laboratory has three sections:-

1) Chemical and Instrumental section.
2) Microbiological section including sterility.
3) Biological section.

Central Analytical Laboratory is the sole laboratory of Mumbai Municipal Corporation, which approves the quality of medicines purchased by various hospitals and dispensaries.

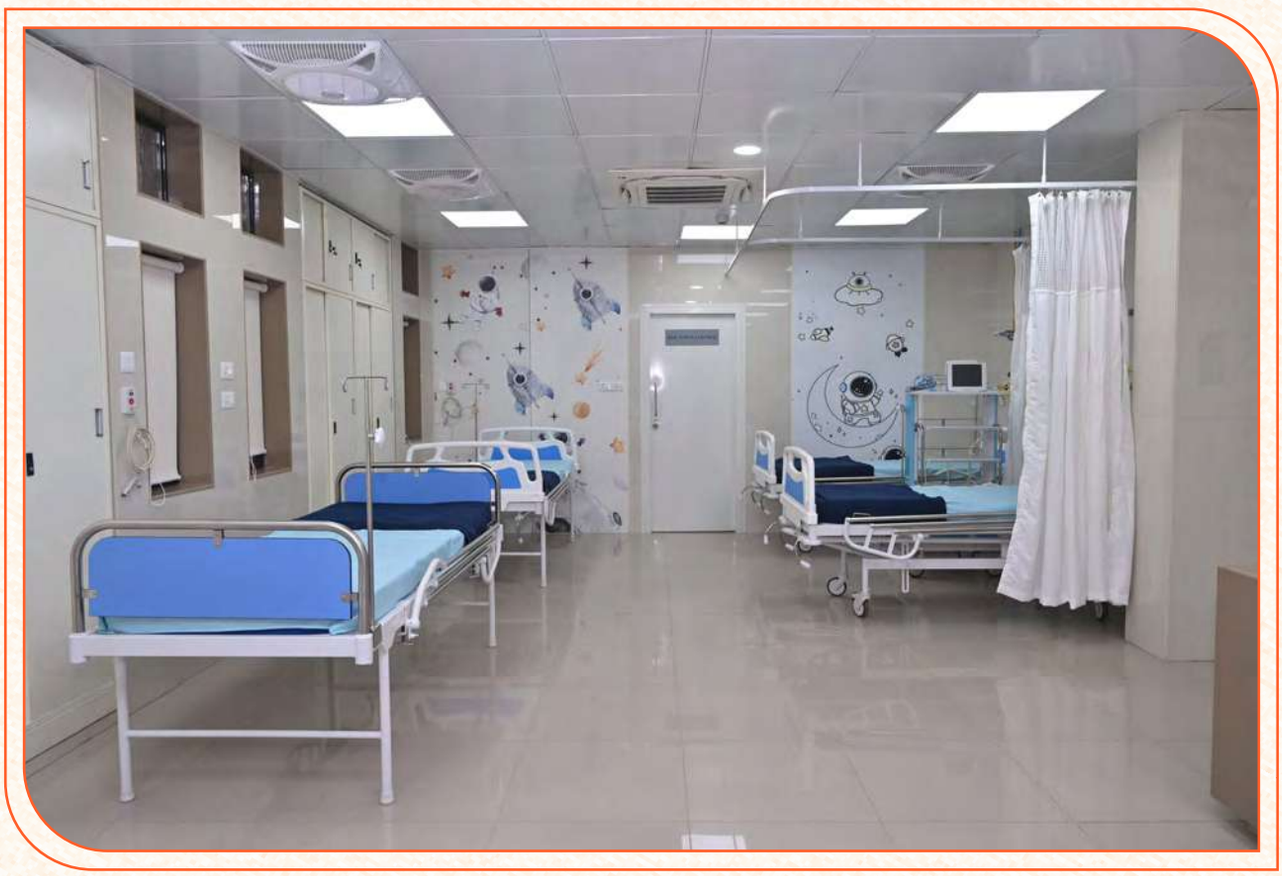

21. Municipal Eye Hospital :

Municipal Eye Hospital situated at Maulana Shaukat Ali Road, opp Durgadevi garden, Mumbai Central is the only speciality hospital run by Public Health Department of BMC since1940. This Hospital has 80 beds facility. Under the guidance of Chief Medical Officer patient are treated for various Ophthalmic diseases and operation are performed. National Blindness control programme for Mumbai District is also implemented under the guidance of Central Government and State Government by this Hospital.

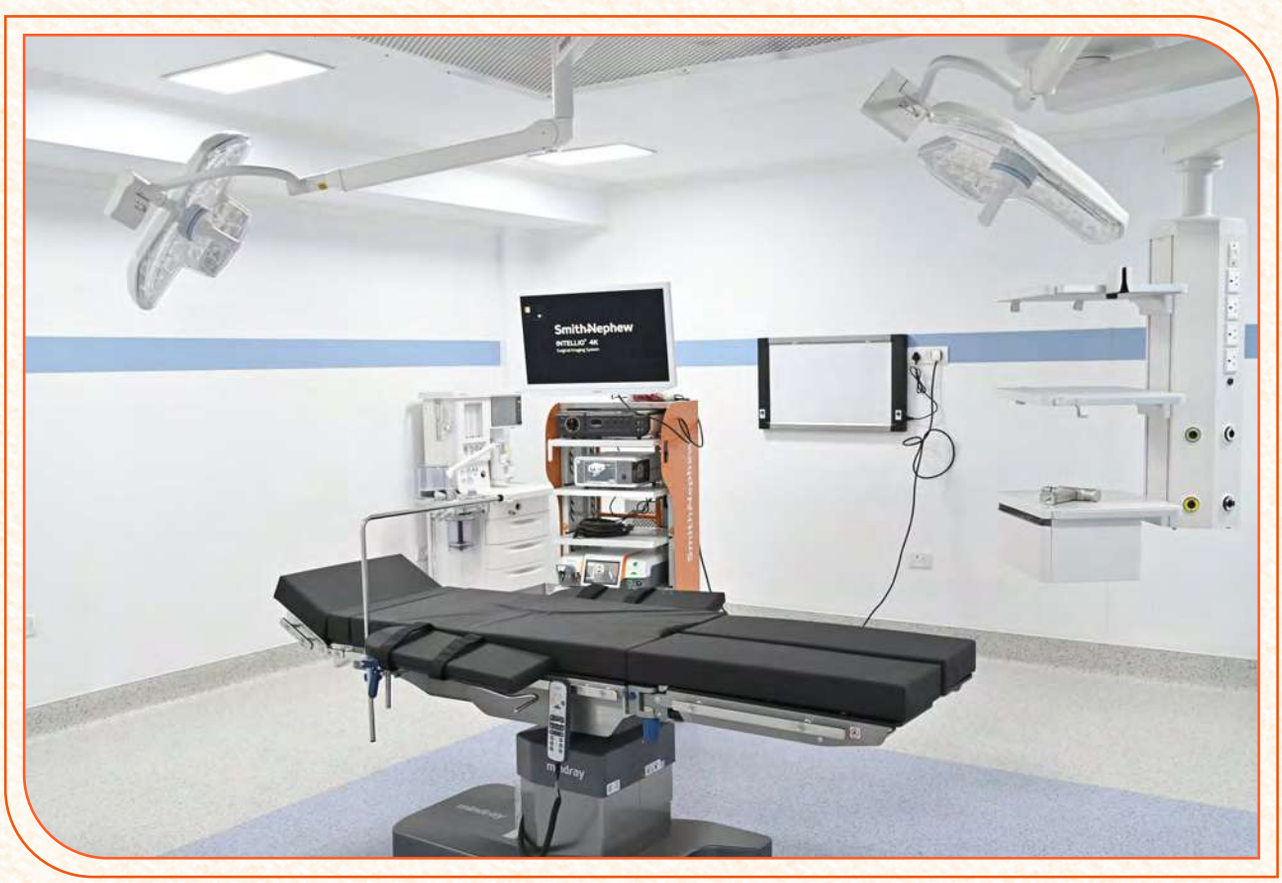

In the year 2025 totally 56331 outpatients were examined and a total of 1607 eye surgeries were performed. The School of Optometry has been Operating under the Public Health Department in the Municipal Eye Hospital since 1978.

Medical Relief and Education

Bone Marrow transplant centre, L.T.M.G. Hospital

Rehab Centre, K.E.M. Hospital

Medical Relief and Education

1. K. E. M. HOSPITAL & SETH G. S. MEDICAL COLLEGE

The twin institutes of Seth GS Medical College & KEM Hospital were established in 1926 with a nationalistic spirit to cater to the health care needs of the northern parts of the island to be manned entirely by Indians. The glorious legacy now spans 100 years and these institutes are among the top ranked in the city and country with the Latin maxim *Non Sibi Sed Omnibus- not for self but for all* embedded in every heart.

The centenary year (2025-2026) was marked by several achievements. This hospital sent the first batch of three undergraduate students to UCLA, Los Angeles as part of an international exchange program.

The institute started the city's largest AI led clinical trial on the diagnosis of breast cancer and was awarded the best performing institute for the successful implementation of the Mahatma Jyotirao Phule Jan Arogya Yojana and Ayushman Bharat - Pradhan Mantri Jan Arogya Yojana. A USG machine for fetal ultrasound was acquired through the rare diseases grant of the Govt. of India. A high-tech sports medicine clinic was inaugurated, the first in a public hospital in Western India. The Burn Care Center unit was inaugurated that offers advanced, dignified burns management with intensive care capabilities, skin grafting and amniotic membrane harvesting. Construction is ongoing for a 21 storey residential tower and a new Ayushman Shatabdi Tower to alleviate space constraints and expand patients care services .

Department wise specific activities are as follows:-

1) Department of Anatomy:

Anatomy Faculty members actively contributed to research, workshops and conferences in the fields of anatomy and medical education.

Collaborative workshops with clinical departments.

2) Department of Transfusion Medicine-Blood Bank:

The demand of 150-200 blood units per day for patients admitted in the hospital was fulfilled by about 166 blood donation camps in year 2025 with 19,085 blood units (indoor and outdoor) collected in the year.

Total units 7,385 of Random Donor Platelets (RDP) and 85 units of Single Donor Platelets (SDP) were prepared. A total of 13,110 units of Fresh Frozen Plasma (FFP) and 1,203 units of cryoprecipitate were prepared.

The Department also participates in the Hemovigilance Program of India. M.D. (Immunohaematology and Blood Transfusion) course is conducted by the Department with an annual intake of two students per year.

3) Departm nt of Cardiology:

In the year 2025, numbers patients underwent echocardiography, stress test and coronary angiography/permanent pacemaker implantation, Coronary Angioplasty with stenting including state of art imaging facilities like Intravascular Ultrasound and Optical coherence tomography. Procedures like bifurcation PCI and rotational atherectomy were performed by adroit operators.

This Dept. continued the rich tradition of performing electrophysiological studies and radiofrequency ablation.

This Dept. made a quantum leap in structural procedures too by performing usual balloon mitral valvotomies, septal defect closures coarctation stenting and exotic procedures like transcatheter heart valve intervention. This year too, six trained DM cardiology fellows and four bachelors of Paramedical Technology students.

4) Department of Cardio Vascular and Thoracic Surgery:

The department has 12 ICU (LIC) beds and 36 beds in ward 31. This Dept. also have 4 dedicated operation theatres.

Renovation of old CVTS OT into Modular OT completed this year comprising of all the latest equipment's and facilities.

5) Department of Biochemistry :

CCBL : Daily approx. 14,510 tests are done in this lab. These are mainly routine tests.

E-Lab : This laboratory provides service for 24hrs daily. Every day approx. 3,989 tests are done. These are mainly emergency tests.

Started MD Biochemistry PG Course from AY 2024-2025

6) Pulmonary Medicine Department and Environmental Pollution Research Center:

The Department of Pulinonary Medicine and Environmental Pollution Research Center provides diagnostic and therapeutic services for patients with respiratory disorders. Pulmonary Function Tests, Polysomnography, arterial blood gas analysis, bronchoscopy and diagnostic thoracoscopy services are provided for evaluation. Asthma education is provided to patients on regular basis.

7) Department of Dermatology:

OPD load of 300-400 patients per day.

Indoor patients: Total 40 beds with an average occupancy rate of over 80%

7-10 biopsies per day, ensuring strong dermatopathology support

The department handles over 2,500 biopsies per year.

150-200 procedures per week, including RF, peels, intralesional therapies and needling.

8) Departments of Dentistry:-

The department of Dentistry offer comprehensive dental, care services catering to patients across all age groups, from pediatric to geriatric.

This Deptartment facilities include state-of-the-art diagnostic equipment such as portable RVG and OPG machines, enabling accurate and effcient imaging.

Treatment options range from providing emergency management services, including intermaxillary fixation for maxillofacial fractures and emergency root canal treatments, to full mouth rehabilitation with crowns, bridges, and implants.

9) Department of E.N.T.:-

The ENT department is known in India & Abroad for outstanding Micro ear surgery & Endoscopic Sinus Surgery, Skull Base Surgery, for voice disorder & airway obstruction cosmetic surgery Rhinoplasty Head & Neck cancer with major reconstruction.

ENT Department is also a centre of Excellence for Cochlear Implant, BAHA and Sialendoscopy.

10) Department of Endocrinology:-

The department had organized 04 online CMEs in 2025.

Department has published 40 publications in 2025.

A new DXA machine has been purchased through a donation by Sanyog Trust.

11) Emergency Medical Services:-

A New 15-bed 'Medical intensive care unit - 2' was started in the emergency medical service department for the treatment of critical patients.

12) Department of Forensic Medicine & Toxicology:-

Regular training sessions of police personnel at Naigaon police hall since August 2025.

Training sessions and orientation programs for law students and dentistry students on medico legal cases and autopsy.

Observer-ship program for Forensic Science graduates.

Inauguration of Special Cold Storage Facilities for Facilitating Cadaver Retrieval Training Workshops. Inauguration of Cadaver Laboratory for Cadaver Retrieval workshop.

Departmental & mortuary complex renovation.

Department has been center of reference for sensitive, complicated, medicolegal & sexual assault cases.

Total Nos of 1070 Post-mortem examination done & total 291 ante-mortem examination done.

13) Department of General Medicine:-

The department caters to patients with different medical conditions in wards, OPDs and EMS (Emergency Services). Medicine OPD is conducted 6 days a week and Emergency Services are run 24 x 7 throughout the year. In addition specialty OPD running on weekly basis include Rheumatology, HIV, Hypertension, Geriatric, Infectious Disease and Palliative Care OPD.

14) Department of Surgical Gastroenterology:-

The Department of Surgical Gastroenterology at K.E.M. Hospital performs advanced and complex procedures for both malignant and being G.I. pathologies. This department the only department in a public hospital in the state of Maharashtra performing Liver Transplant.

In this department surgeries for cancer (Malignancy) and Complex benign diseases of Oesophagus, Stomach, Pancreas, Liver, Gall bladder, small and large intestine are performed on regular basis. Advanced Laproscopicc Surgeries are also done.

Four successful liver transplants were performed in our department last year. One was cadaver liver transplant and three were living donor liver transplant.

15) Department of Gastroenterology:-

Inauguration of the Enteroscopy system.

Living donor liver transplant of a patient with Wilson's disease, through financial assistance from NPRD(National Policy for Rare Diseases).

16) Department of General Surgery:-

Active collaboration with 'Mumbai Veterinary College' for three research projects in Animals and Birds.

A new MUHS fellowship in ' Abdominal Wall Reconstruction' started.

17) Department of Hematology:-

The Hematology Out Patient Department(OPD) at KEM Hospital, offers comprehensive evaluation and management of haematologic disorders. This includes specialized Clinical Hematology services for lymphoma and myeloma patients, incorporating supportive care protocols.

18) Department of Microbiology:-

ICMR has granted sanction to establish an Infectious Disease Research and Diagnostic Laboratory (IRDL) under the "Expansion and strengthening of the existing Virus Research Sand Diagnostic Laboratory (VRDL)" in the Department of Microbiology, Seth G. S. Medical college and K.E.M. Hospital, Mumbai.

VRDL division of Department of Microbiology has been designated and funded as EQAS provider for Respiratory viruses (Sars CoV2 & Influenza) pan INDIA under the project .'Enhancing infectious Disease Diagnosis Quality: External Quality Assurance Program' by ICMR:--

19) Department of Neonatology:-

Department of Neonatology caters to over 6,000 newborns per year including high-risk referrals from other institutions. Out Of these 30-35% requires special care for various problems.

The department has the state of art well equipped 42 bedded NICU. Department provides pasteurized donor human milk to sick and preterm babies through a Human Milk Bank under the Comprehensive Lactation Management Centre.

Department also has provision for inhaled nitric oxide therapy for sick newborn babies. Department has the state of art Kangaroo Mother Care Centre Pain and Palliative Care.

20) Department of Nuclear Medicine:-

The Department of Nuclear Medicine is well-equipped with two Gamma cameras thyroid uptake probe, rectilinear scanner and other instruments. It can perform a variety of diagnostic scans to cater to the various clinical branches in the hospital such as: Endocrinology, Nephro-urology Gastrointestinal systems Cardiology, Neurology, Oncology, Respiratory system, etc.

PET Scan: The radioactive Glucose is used for detection of cancer metastases, viability of heart and brain disorders.

21) Department of Neurology:-

The Department offers both daily outpatient and inpatient with neurological disorder. Specialized clinic like Neuropsychology, Memory Clinic, Stroke Unit.

22) Department of Nephrology:-

The department is recognized for D.M. course in Nephrology and M.Sc & PhD in applied biology.

28 live related and 04 cadaver kidney transplants & also provided haemodialysis sessions to 11,700 patients last year.

Department increased the dialysis beds, there are 22 dialysis beds in the department and successfully completed 860 kidney transplant cases.

23) Department of Neurosurgery:-

In 2025, advanced endoscopic neurosurgical interventions and surgeries were initiated at King Edward Memorial Hospital, utilizing modern endovascular neurosurgery, stroke services and epilepsy surgery supported by highly advanced endoscopic equipment.

The adoption of minimally invasive endoscopic techniques has proven beneficial for patients.

24) Department of Orthopaedics:-

The Department has supper-speciality operation theatre for Joint replacement, Arthroscopy and Spinal surgeries with State of Art facilities including cutting edge technology.

Specialized services :-

Orthopaedic Traumatology & Accident Medicine.

Total Joint Replacement - fully automatic robot for knee replacement.

25) Departnumt of Ophthalmology:-

Green Laser Inauguration on 12.03.2026 in Laser Room, Ophthalmology Operation Theatre.

Paediatric warmer received in the Ophthalmology Theatre for paediatric cases in OT.

26) Department of Obstetrics & Gynaecology:-

Ethicon Basic Suturing Technique Workshop for Resident Doctors dated 12th February 2025.

Awareness and education on domestic violence and sexual exploitation of children on the occasion of International Women's Day. Date: 3 to 9 March 2025.

27) Occupational Therapy Training School & Centre:

To commemorate the 75th Diamond Jubilee, various programs were organized throughout the year, focusing on community awareness, patient care and continuing medical education.

28) Department of Community Medicine:-

General OPD, Immunization (UIP & Yellow fever), Screening OPD (NCD, Oral & Breast Cancer), Infectious disease surveillance and Naigaon OPD (Geriatric & Under-5).

Services at Malvani UHTC:- General OPD, Under 5 OPD, Other OPDs (Skin, Psy. etc.), Laboratory services.

Services at Rural OPD:- General OPD, Other OPDs (ANC & NCD)

29) Department of Paediatrics:-

The department has 3 units. Emergency Medical Services are available round the clock.

Special Services - Paediatric Critical Care Unit, Genetic Clinic and Paediatric Research Laboratory, Chest Clinic, Nephrology , and Rheumatology Clinic, Paediatric Epilepsy Clinic and Thalassemia Day Care Center.

Department also has Well- Baby Clinic, School Clinic services and Learning disability Clinic.

30) Poor Box Charity Fund:-

Donation are collected in this department from various donors and from various sources like Prime Minister's National Relief Fund, Chief Minister's Relief Fund, Mayor's Fund, Shree Siddhi Vinayak Ganpati Temple Trust, Shree Mahalakshmi Temple Trust, Shree Saibaba Sansthan Trust, Shirdi Trust etc.

The money is used for poor and deserving patients.

31) Department of Pathology:-

EMS Laboratory works round the clock every day.

Autopsy services are available round the clock.

Teaching of undergraduate (MBBS, DT/PT, BPMT and Nursing) and post graduation (PG DMLT and MD Pathology) students.

MUHS affiliated fellowships for 12 students in six sub specialities have continued approval.

32) Department of Psychiatry:-

The Department offers both daily outpatient and inpatient services for patients with psychiatric illness.

Specialized clinics like Child Guidance Clinic, Memory Clinic, Suicide Counselling and Psycho-sexual groups are held.

Psycho education for caretakers of schizophrenia, bipolar and deaddiction disorders are also run by the department.

Deaddiction week, Mental health week, schizophrenia day, Alzheimer's day are celebrated as part of awareness initiatives.

Drug treatment regional centers have been stated under Ministry of Health and Family welfare.

Mental health helpline, HITGUJ (022-24131212) is also run by the department for patients and healthcare workers.

Tobacco cessation clinic and biofeedback clinic are held every week.

The department has started Minimal Access Surgery in the pediatric age group. This has led to significant advance in patient care.

The department performed Basic & Advance Thoracoscopies, Laparoscopies surgeries in children with 3D system of all age including newborns. The obvious advantages are better cosmetics, lesser post operative pain & adhesions.

34) Department of Plastic Surgery:-

The department has 40 beds for Plastic Surgery patients and a newly renovated Burns ward of 12 beds for male, female and Pediatric patients. This department also have 3 dedicated operation theatres and dedicated area for patients needing occupational therapy.

35) Department of Radiology:-

The Department of Radiology at KEM Hospital is one of the largest teaching departments in India, both in terms of clinical services provided and the Radiology Residency Fellowship, Radiographers Training program for the MUHSuniversity.

36) Department of Urology:-

150-watt Holmium Laser machine was purchased by the Municipal Corporation for the Department of Urological Surgery in 2025.

37) Physiotherapy School & Centre:-

Geriatri Services: Plans were made to provide rehabilitation services at old age homes.

Osteopathy OPD: An Outpatient Department for osteopathy was started to help reduce swelling and improve Quality of Life.

Neurorehabilitation: Specialized neuro-rehab services were made available for paediatric and adult patients.

38) Department of Anaesthesia:-

In the year 2025 Anaesthesiology department catered to 43 operation theatre tables located in 15 OT complexes.

Anaesthesia services were given to surgical patients.

The department catered to Anaesthesia OPD patients for pre-operative evaluation patients were assessed in Pain OPD.

39) Department of Physiology:

The department helps in scrutinizing applications of grants offered to patients of K.E.M. Hospital (esp. For endovascular interventions) the process of which was digitized. This helps the patients to overcome the financial hurdles and obtain necessary funds for treatment.

40) Homeopathic Out Patient Department:-

All OPDs Conducted on Tuesday (Average Patients 60) and Saturday (Average patients 30)

41) Social Service Department:-

Patient Care : Community Development Officers of Social Service Department supported total number of 28,600 from April 2025 to March 2026 poor deserving patients were helped with counselling, medical aid, other therapeutic material & rehabilitation. Public education with mass awareness programs were conducted throughout the year.

42) Diet Department:-

The Diet Department comprised a core team of four dietitians who provide evidence-based and customized nutrition consultation to IPD patients and OPD patients annually.

43) Dispensary (Pharmacy) Department:-

Main Dispensary, Ortho Dispensary, C.V.T.C. Dispensary, Medical Store, General Store and Malwani Health Centre comes under Pharmacy Department.

Dispensary - 31 runs 24 x 7 where pharmacist are vital Healthcare providers.

44) Department of Clinical Pharmacology:

The department runs Therapeutic Drug Monitoring (TDM) OPD every Friday and Saturday and daily Pharmacogenetics and Malaria OPD.

II) B. Y. L. NAIR CHARITABLE HOSPITAL AND TOPIWALA NATIONAL MEDICAL COLLEGE.

In response to the call given by the Father of the Nation in the year 1921, 4 students, from the British Government run Grant Medical College, quit their College to start a new nationalistic institution and that was the birth of Topiwala National Medical College. At the beginning, it was a Medical School and was registered for licentiate course by the College of Physicians and Surgeons. In the year 1946, On the occasion of its Silver Jubilee Year of the Institution, the college was taken over by the Brihanmumbai Municipal Corporation and was affiliated to the University of Mumbai for the degree course. The College received a magnanimous donation from the Topiwala Desai family and the well known Philanthropist Dr. Anandrao L. Nair and hence, it was named as Topiwala National Medical College and Bai Yamunabai Laxmanrao Nair Charitable Hospital. Today, these twin institutions are one of the leading institutions in the country.

This hospital has well equipped intensive care units for Medical, Surgical, Cardiac Neonate patients. For children, this hospital has an independent I.P.C.U., N.I.C.U., Intensive Care area, Trauma ward is situated next to casualty.

This hospital has its own blood bank and component therapy Unit which provides services round the clock. It is recognized by the Food and Drug Administration. It is a Member of Federation of Blood Bank. A whole body C.T. Scanner, Cardiac Cathetrisation System etc. The hospital has independent Hyperbaric Oxygen Therapy Chambers housed in Kasturba Hospital premises. This is a second of its kind in the city of Brihanmumbai. The first being at Port Trust Hospital, Wadala.

The hospital information management system has helped in streamlining the administrative work of the hospital and provides accurate information about the medicines and treatment given to the patients in the past.

The cloud-based H.M.I.S. system that is being implemented at Brihanmumbai Municipal Corporation Health Care facilities (B.Y.L. Nair Hospital, Kasturba Hospital) is also identified as 'Aarogya Sanchayani', which relates to a 'Health Repository' and covers a wide scope of data management and real time patient data with stored 3D images like X-ray, CT-Scan, U.S.G. are made available across all B.Y.L. Nair Hospitals departments.

TOPIWALA NATIONAL MEDICAL COLLEGE :

This College was first started for Medical Licentiates during National Movement in the year 1921 and was then called as National Medical College. In 1946, the College was upgraded to the degree courses and affiliated to the University of Mumbai in October 1946 and it was taken over by the Corporation and now it is one of the reputed Medical Colleges in Maharashtra State.

LIBRARY DEPARTMENT :

The library of Topiwala National Medical College is well maintained and well managed therefore information stored is easily accessible to all readers. T.N.M.C Library services are cater to 624 postgraduate, Resident doctors, Teaching Staff, 1100 undergraduate students and 380 other staff eg. Scientific Officers, Research Officers, Assistants, Nurses, Dietician, Psychologist, Medical Social Workers etc.

CARDIOVASCULAR AND THORACIC SURGERY :

- This department operating 450-500 cases every year.
- Open Heart Surgery (MVR, AVR, DVR, CABG, VSD, TOF)(peripheral vascular (Bypass grafting Femorofemoal,femoro popliteal, embolctomy) and lung surgery.
- This department also doing minimally invasive aortic and mitral valve surgery, arterial grafting, and VATS cases.
- This department 3 wards where on an average 30-35 patients are indoor.

OCCUPATIONAL THERAPY DEPARTMENT :

The Department of Occupational Therapy at Topiwala National Medical College and B.Y.L. Nair Hospital, established in 1955, provides comprehensive outpatient and inpatient services and has expanded into specialties including psychiatry, neurology, orthopedics, and pediatrics. The department offers undergraduate, postgraduate, and PhD programs and is affiliated with the Maharashtra University of Health Sciences. The departments also working under various social programs like Samvedana, Cerebral Palsy development centre, Latur and Sarva Shiksha Abhiyan and Cheeta camp.

<u>Psychiatry Department</u> -

- The Department of Psychiatry which is an ISO certified department. It provides a multi-disciplinary comprehensive management of psychological problems in all age groups. Besides the regular activities, teaching & research run the following specialty clinics / services: -

- School Mental Health Clinic the first of its kind continues its work in the various municipal school. Also work with Sarva Shiksha Abhiyan.
- The Learning Disability Clinic is a certified centre of Govt. of Maharashtra which has screened yearly 1110 children & certified yearly 1127 children from the LD center.
- This department 44 students in two batches in Autism Dynamic Intervention (ADI) at school of the department & have screened 565 children and certified 474 children for Autism.
- This department also started a weekly Psycho geriatric OPD for elder patients.
- This department the Swami Vivekanand Remedial Centre for Children with learning disability & with 28 students enrolled in this centre.
- The Fellowship in Child & Adolescent in Mental Health has intake of 8 student's year.
- This department started Community Psychiatry Services in the neighboring area for geriatric psychiatry & screening of children and training session for teachers in nearby schools.
- Celebration of various days like World Deaddiction Day, World Schizophrenia Day, World Alzheimer's Day and Mental Health Week.
- Two educational films on psychiatric conditions to create awareness in general population are released every year during Mental Health Week.

DEPARTMENT OF UROLOGY :

- The Department of Urology at B.Y.L. Nair Hospital is a tertiary care center providing comprehensive urological services with state-of-the-art technology.
- Established in 1990, it has grown into a high-volume center with dedicated urology OT and specialized wards.
- The department manages over 16,000 OPD and 2,000 IPD patients annually with excellent surgical outcomes.
- It performs more than 100 major surgeries per month including endourology, laparoscopy, reconstructive and transplant procedures.
- Renal transplantation services have been active since 1993, including advanced procedures like swap transplants.
- Advanced procedures such as RIRS, HOLEP, and minimally invasive surgeries are routinely performed.
- Specialized clinics include Pediatric Urology OPD and a dedicated Andrology Clinic started in 2021.
- The department is actively involved in academic activities, workshops, and national/international conferences.
- It is equipped with modern infrastructure including modular OTs, C-arm, HD laparoscopic systems, and endourological instruments.

- The department continues to expand its services to reduce patient waiting time and to deliver best patient care.

PAEDIATRIC SURGERY DEPARTMENT :

- The Department of Pediatric Surgery was started as an independent department at Nair Hospital. MCI recognition was obtained and the first super specialty student joined in 1993. Many students have been admitted and have passed MCh Pediatric surgery since then.
- The Department is one of the finest departments in the country for quality patient care, teaching, training and research. The Department also has an excellent neonatal surgical intensive care unit.

PHARMACOLOGY DEPARTMENT :

- Therapeutic Drug Monitoring (TDM) services for 14 anti-epileptic drugs & 4 first line anti-tubercular (ATT) drugs (Isoniazid, Rifampicin, Ethambutol & Pyrazinamide) & Linezolid & Levofloxacin in patients with Tuberculosis
- Ayurvedic Services: OPD & Panchakarma services
- Genotyping services through the Molecular Diagnostic laboratory.

RESPIRATORY MEDICINE :

This is a super speciality dept that serves patients affected by respiratory disorders. Department offer dedicated patients care in the form of OPD, IPD, ICU care, sleep studies, OPD deals with patients suffering from all sorts of respiratory disorders such as TB, Bronchial Asthama, OPD, ILD, lung malignancies, OSAS, pleural effusions, etc.

This department indoor facilities and ICU facilities for patients of Exacerbations of ILD, COPD,PTE, Hydropneumothorax, empyema, TPE, ABPA, diagnosis of lung malignancies, etc. Fully functional 6 Bedded ICU takes care of seriously ill respiratory patients. Also deliver a comprehensive multidisciplinary patient care including pulmonary rehabilitation.

This department contribute as experts to the PMDT site at sewree-TB hospital to take care of drug resistant TB patients.

AUDIOLOGY AND SPEECH THERAPY DEPARTMENT :

The Department of Audiology and Speech Therapy is an ISO-certified unit dedicated to providing comprehensive, multidisciplinary care for individuals with hearing, speech, language, and swallowing disorders across all age groups. The department integrates clinical services with teaching and research, ensuring high standards of patient care alongside academic excellence.

The department offers a wide range of diagnostic, therapeutic, and rehabilitative services. Speech and language therapy services are provided at multiple locations within the Nair Hospital complex, ensuring accessibility for patients. Individuals with hearing impairment visit the department for detailed assessment, rehabilitation, and certification purposes.

A variety of advanced audiological tests are available, catering to different age groups. These include Pure Tone Audiometry, Impedance Audiometry, Speech

Audiometry, Brainstem Evoked Response Audiometry (BERA), P300, and Otoacoustic Emissions (OAE), among others. These tests assist in accurate diagnosis and effective management of hearing disorders.

Children & Adults with hearing loss are fitted with hearing devices such as hearing aids, cochlear implants & BAHA, with timely intervention they can lead fulfilling lives.

SKIN AND V. D. DEPARTMENT :

This is a speciality department that serves patients affected by skin and venereal disorders and leprosy.

This department dedicated patients care in the form of OPD, IPD, and minor OT services. Our OPD deals with patients suffering from all sorts of skin disorders such as skin infections, vesiculobullous disorders, acne, psoriasis, vitiligo, leprosy, venereal diseases, etc

This department indoor facilities for our patients of drug rash, Stevens-Johnson syndrome, Vesiculobullous diseases, erythroderma, lepra reactions etc.

This department a dedicated minor OT which is functional every day for biopsies, electrocautery and radiofrequency procedures, as well as a fully functional daycare room. Special procedures are done on Wednesdays.

PHYSIOTHERAPY SCHOOL AND CENTRE DEPARTMENT :

Physiotherapy School & Centre runs an Undergraduate, Postgraduatge and Doctoral programme affiliated to Maharashtra University of Health Sciences and renders its services to indoor (including Intensive care units) patients and OPD patients. The Physiotherapy Cnetre runs Musculoskeletal OPD, Neurorehabilitation OPD) both Adult & Paediatric), Chest OPD on daily basis & Special OPD like High Risk Neonatal OPD, CA Breast OPD, Geriatric OPD, Fitness OPD, Industrial OPD, Women Health OPD. The Physiotherapy Centre also provides community services at UHC, Cheetah Camp, Shivaji Nagar and burns ward, Kasturba Hospital once a week.

GASTROENTEROLOGY DEPARTMENT :

- The Department of Gastroenterology is an ISO-certified department. It provides comprehensive and advanced care for disorders of the digestive system, including the esophagus, stomach, intestines, liver, pancreas, and biliary tract. Besides regular clinical activities, teaching and research, run the following specialty clinics/services
- This department provide OPD services for all gastrointestinal and liver-related diseases 2 days a week and IPD services round the clock.
- This department have a well-equipped Endoscopy Unit performing diagnostic and therapeutic procedures including Upper GI Endoscopy, Colonoscopy, ERCP, EUS, and advanced therapeutic interventions.
- This department have a dedicated inpatient unit for management of acute and chronic gastrointestinal and liver diseases.
- This department run specialized clinics for Liver Diseases, Inflammatory Bowel Disease (IBD), Pancreatic disorders, Motility disorders, and Functional GI disorders.

MICROBIOLOGY DEPARTMENT :

The Microbiology Department offers diagnostic services for infectious diseases through its different laboratories viz Bacteriology, Mycobacteriology, Mycology, Parasitology, Molecular Diagnostics, Serology, and Immunology including ICTC (Integrated counseling and testing center for HIV testing) and RTI/STI (Reproductive Tract Infections & Sexually Transmitted infections).

BIOCHEMISTRY DEPARTMENT :

The Department of Biochemistry has under its aegis the Central Clinical Laboratory and the Emergency Laboratory which caters to biochemical investigations of all IPD and OPD patients of BYL Nair Charitable hospital. The Central Clinical Laboratory and the Emergency Laboratory over the years has seen tremendous improvement in the area of providing quality service to its patients.

OPHTHALMOLOGY DEPARTMENT :

The Ophthalmology Department began in 1923, 1505 Major surgeries and 246 Minor surgeries have been successfully done in the last year. Specialized surgeries such as Squint patients operated in the last year were 48.

Specialized Clinics Conducted in the department are 1) Retina 2) Squint 3) Glaucoma 4) Cornea and Contact lens 5) Pediatric Ophthalmology 6) Neurophthalmology 7) Uveitis 8) Oculoplasty 9) School Clinic 10) ROP

The community Ophthalmic services rendered to the slum population of Greater Mumbai is through the Mobile Van Services of our department to the Centers at Cheeta Camp. Also in co-ordination with various voluntary Organisations regular Eye check-up Camps are conducted contributing towards the National Programme for Prevention of Blindness.

Ophthalmic department in B.Y.L.Nair Hospital has an Eye Bank established in the year 1969. Enucleating calls & keratoplasties are done for the needy patients.

PHYSIOLOGY DEPARTMENT :

1. Preparation of graphs, charts, models & power point for teaching purpose.
2. Preparation of posters for museum.
3. Preparation of notes for practical classes.
4. Preparing MCQ Bank.
5. Conducting microteaching, journal clubs, and seminars for P.G. students.
6. Students counselling specially for underachievers to help them to improve their performance.

ANESTHESIOLOGY DEPARTMENT :

- Department of Anaesthesia Provides comprehensic Anaesthesia, Critical care & Pain Services to various departments including General Surgery, Obstetrics & Gynaecology, Orthopaedic, ENT, Opthal & Super specialities like cardiac surgery, Neuro surgery, paediatric surgery & Urology.

- Also Anaesthesia services are provided for certain procedures like ECT, CT scan & MRI, Endoscopy, DSA, Interventional Radiology and Interventional Pulmonology.

MEDICINE DEPARTMENT :

Outpatient Department (OPD) – Each sub-division has a designated weekly OPD day, a weekly follow-up OPD day, and a day for emergency admissions. Services for both discharge and admission are available through all outpatient clinics. Numerous specialized tests are conducted in the medical research laboratory, enabling patients to benefit from rapid diagnosis and care.

This department is equipped to provide exemplary care. It features state-of-the-art equipment, including ventilators (both invasive and non-invasive), cardiac monitoring systems (central and individual patient monitors), blood pressure monitors, pulse oximeters, precision infusion pumps, and more.

ORTHOPAEDIC DEPARTMENT :

The Department of Orthopaedics at Topiwala National Medical College (TNMC) & BYL Nair Charitable Hospital in Mumbai is a leading Centre for musculoskeletal healthcare, training, and research. It provides comprehensive care, including trauma fractures, joint replacement, spine surgery, pediatric Orthopedic surgery and arthroscopy with high patient volume and advanced surgical facilities. All Outpatients are seen daily in Orthopedic OPD no. 18 time 8 am to 11.30 am on the ground floor OPD building. Approximately 200 patients are seen everyday in OPD. Male patients are admitted in ward no 8 on 6th floor OPD building. Female patients are admitted in ward 8 in OPD building 6th floor. Total beds are 105 with average occupancy of approximately 80 percent.

BLOOD CENTRE :

This Department is committed to ensuring safe, timely and life-saving blood support for patients in need. Your trust and contribution help us uphold the highest standards of quality and humanity. Together, we save lives every day.

ABOUT THE DEPARTMENT:

B.Y.L. Nair Charitable Hospital also affiliated with Topiwala National Medical College is the parent institution where this blood centre, a key clinical service operates

Address & Location

OPD-2-32, Located on the 2nd Floor of the New OPD Building, B.Y.L. Nair Charitable Hospital, Dr. A. L. Nair Road, Mumbai Central, Mumbai – 400008, Maharashtra, India.

ANATOMY DEPARTMENT :

Department Activities

- Teaching Anatomy (Gross Anatomy, Clinical Anatomy Embryology, Histology, Genetics & Neuroanatomy) to undergraduates of 1st MBBS,1st BDS, F. Y. B. O. Th /B. P. Th Nursing and BPMT courses PHD in Anatomy. Conducting lectures, tutorials,

dissection, demonstration, practicals, seminars and group discussions.

PAEDIATRIC DEPARTMENT :

The Pediatric department has 3 pediatric units and other subsection viz Pediatric Intensive Care Unit and Neonatal Intensive Care Unit.

The department has 3 full time Pediatric units. The departmental teaching staff consists of 1 Professor, 5 Additional Professors and 6 Assistant Professors on schedule.

PAEDIATRIC INTENSIVE CARE UNIT (PICU) :

Department of Paediatrics has 6 bedded PICU.

In-charge: All 3 units for the respective unit patients.

PICU is equipped with the latest equipment Class I Ventilators & portable ventilators with bedside monitors, non- invasive blood pressure monitors, pulse oximeters, syringe and volume infusion pumps (to administer medications in measured quantity) and USG machine.

Department of Pediatrics has 25 bedded NICU. Our NICU is equipped with the latest equipment.

Emergency Pediatric Room (EPR)

EPR is the first contact for <12 years old patients coming for emergency care to this hospital.

COMMUNITY MEDICINE DEPARTMENT :

FIELD PRACTICE AREAS & SERVICES

1. **Urban Health Training Centre (Shahaji Nagar, Mankhurd**)

   Address: Shahaji Nagar Urban Heath Centre, near Trombay Police station, V. N. Purav Marg, Cheeta Camp, Mumbai-400088

   Services: Preventive, promotive, curative and rehabilitative services, health education, screening and outreach.

2. **Rural Heath Training Centre & Primary Health Centres affiliated**

   PHC Kharbao (Rural Heath Training Centre), Kharbao VN Purav Marg, Bhiwandi, Kharbav, Taluka Bhiwandi, District Thane, Maharashtra 421302

   PHC Kon, Vasudev Patil Nagar, Kongaon, Taluka Kalyan, District Thane, Maharashtra-421311

   PHC Nilje, Kolegaon-Dombivli Rd, Kolegaon, Nilje Gaon, Taluka Kalyan, District Thane, Maharashtra-421204.

   All within 50 km of parent institute, with hostel & mess facilities available at RHTC-Kharbao.

   Shahaji Nagar Urban Health Training Center

   During the period from April 2025 to March 2026, a total of 30,853 patients attended the OPD at Shahaji Nagar UHTC.

HAEMATOLOGY DEPARTMENT :

Department of Haematology has Clinical Haemaology and Haematology Laboratory .Haematology OPD is held twice a week . Every OPD day approximately 8 to 10 new patients are enrolled & about 60 to70 old patients come for follow up. Treatement done on OPD as well as emergency cases of Haematology and Oncology. Patients come in the morning for blood collection as per the prior appointment and they are attended by the doctors with the blood report in the OPD. Patients are enrolled with HMIS. Thus, clinical haematology works in collaboration with lab Haemotology.

Patients requiring emergency management as well as chemotherapy get admitted in the ward. Counselling of patients through direct dialogue with patients and their relatives will emphasize on public awareness about these conditions and will help prevent morbidity and mortality . Transfusion services are provided for Paediatric as well as adult Thalassemia patients. From 2012 “Fellowship in Clinical Haematology” affiliated to MUHS, Nashik, has been conducted for the student who have completed post graduation in Medicine and Pathology.

NEPHROLOGY DEPARTMENT :

- The Department of Nephrology gives **Hemodialysis Services for 24 hours** and has total of 36 Hemodialysis machines. Dialysis section is well equipped with all intensive care unit facilities inclusive of ventilator.
- The Department of Nephrology performed 11785 dialysis sessions this year.
- Bedside dialysis for critically ill patients was provided in ICU & Trauma.
- The Department is recognized **Kidney Transplant Center** by Directorate of Health Services, Maharashtra and performs Kidney Transplant regularly. This year total 12 Kidney transplant were performed.
- **Intensive Kidney Care Unit** handles patient with critical nephrology illnesses.

NEUROLOGY DEPARTMENT :

- The department of neurology was established as an independent department in the year 1963.
- Along with training DM Neurology students, the department also runs BPMT (Neurology) course recognised by MUHS, training 3 students every year.
- The department runs two general neurology and two subspeciality OPDs (Epilepsy and neuroimmunology) per week.
- The Department was first among the public hospitals to run neuroimmunology OPD in the city.
- Along with OPD and IPD services, the department runs a well equipped high dependency unit for acute neurological cases

- The department also provides quality neurophysiology services including nerve conduction/Electromyography (NCS/EMG) and Electroencephalography (EEG).
- The department also provides intervention (Botulinum toxin injection) for movement disorders.
- The department is known for rigorous hands on and academic training of neurology residents and well regularly conducts and participates in local and national conferences.

PHARMACOLOGY DEPARTMENT :

Community and Patient care activities

A number of community and patient care activities were conducted by the department.

- Junior residents attended the Chaityabhoomi Health camp from 5th to 7th December 2025 and examined patients and prescribed medicines.
- All residents are posted in rotation at peripheral hospitals for 3 months as a part of District Residency Program.

ENT DEPARTMENT :

- Cancer Camps: Diagnosis, treatment, and rehabilitation for head and neck cancer patients, along with special workshops in the outpatient department.
- Cochlear Implants & BAHA Program: Treatment and rehabilitation for children with congenital hearing loss.
- Endoscopic Skull Base Surgery & CSF Repair: Including optic nerve surgeries.
- Vertigo Research Laboratory: The department pioneered this laboratory for vertigo research, exclusively available for public patients.
- Voice and Airway Surgery: Specialized surgeries for vocal cords and respiratory airways.

ENDOCRINOLOGY DEPARTMENT :

The Department is responsible for patient care in Endocrinology. Referrals are made to this speciality from within the city and state, and at times from other parts of India. The department has 30 beds for indoor patients and runs daily OPD services”

The Department has fully Functional state of art Hormone Assay laboratory which does all the hormone assays at subsidised rates. It also has DXA machine to measure bone density of all the referred patients to take care of Bone Health.

It is a recognized department for training in DM Endocrinology affiliated to Maharashtra University of health sciences. It has an intake of 2 students per year.

GENERAL SURGERY DEPARTMENT :

- The Department of General Surgery is a major clinical department of B.Y.L. Nair Hospital providing comprehensive patient care, undergraduate and postgraduate training, and research activities.
- This Department provide daily OPD services, indoor admissions, elective surgeries, trauma and emergency surgical care, and critical care services round the clock.
- The department has 180 beds with an average occupancy of 80–90% and manages approximately 200 OPD patients per day.
- Elective surgeries are performed daily in the New Operation Theatre, while emergency procedures are carried out 24×7 in dedicated trauma operation theatres.

The Institution has a splendid record of its progress and has imparted high standard of Dental Education and training to the students. Post-graduation is offered in eight specialties viz., (1) Oral Diagnosis and Radiology, (2) Oral and Maxillofacial Surgery, (3) Periodontia, (4) Conservative Dentistry, (5) Pedodontics, (6) Orthodontics, (7) Prosthodontics, (8) Oral Pathology.

The audio Visual facility is available in library section of this Institute.

B) Dental Hospital :

This Institution has its own indoor facilities for maxillofacial surgical and dental patients.

This Institution has 09 super specialty departments and a total of 303 dental chairs. All the departments are manned by specialists, and guidance of their HODs and dynamic Dean are working hard to achieve excellence at every step.

The Institute had celebrated 92nd year on 18.12.2025 while catering to Patients oral health needs. This Hospital now boast of the latest technology and equipment such as CBCT, an endodontic microscope, state of the art operation theaters, a ceramic lab, an implant center, a mobile dental van, a tobacco cessation and oral cancer center to name a few.

This Institution also have a school dental program for Municipal Schools, free of cost. Nearly 10,000 children from municipal schools are given free treatment every year. The treatment is provided free of cost to children from orphanages, prisoners, handicapped patients and BMC staff as well. Also, the cost of treatment is 50%

subsidized for senior citizens. Institute has now started PHD courses affiliated to university of MUHS.

Recently, This Institute has started 04 NCD corners with the objective of serving general public and checking Diabetes plus hypertension in all patients over 30 years.

The institute has blossomed over the years and today we have been blessed with the fruits of the trees that took roots 92 years ago.

New Extenion Building

New extension building of Nair Hospital Dental College has center of excellence for providing advanced dental care to the public and also dental laboratories, simulation training labs, new class rooms, Modular OTS with in-house ward arrangements: mini ICU and a hostel for our students and warden's accommodation and a CADCAM digital lab. There is a parking lot in the basement for 37 vehicles.

The ground floor comprising of the Department of Oral Medicine & Diagnosis will provide screening to all dental patients. The existing CBCT, 3D printing is used for diagnosis and treatment with the latest technology. It is also used for accurate treatment planning of patient undergoing implant treatment and maxillofacial surgeries.

The building also houses the Oral Health Museum which promotes oral health through display of 3D models, Banners and Posters creating a comforting environment to guide patients. The exhibition help to create awareness about dental diseases and way to prevent them. Tobacco Cessation centre intends to create awareness among the general public about the negative effects of tobacco through individual intervention in the form of behavioural counselling and nicotine replacement therapy.

The first floor comprises of Dean office, administrative office and 6 guest rooms for examiners, inspectors etc.

The second floor comprises of modular Ots with in-house ward arrangements for 16 patients and with 4 special private rooms, a nursing station, a mini ICU and a Atrium - Garden area for patients.

Third Floor comprises of Dental Simulation center a laboratory which simulates the clinical environment for our dental students as they will practice and learn preclinical courses, on dummy (phantom) patients on electrical physiologic dental chairs.

The department of Prosthodontics is spread over 2nd, 4th and 6th floor.

Fourth floor will house the clinic for postgraduate students and faculty department of conservative for PG students. The metal and ceramic laboratory on 4th floor is to be used by department technicians for acrylic fabrication of various types of metal ceramic fixed crowns and acrylic removable dentures.

The fifth floor will house the ICT enabled classrooms and state of art auditorium.

The sixth floor will house a state of the art Digital Dental CAD CAM laboratory. All equipment and facilities are available to fabricate prostheses with digital technology like computer aided imaging, designing, milling and 3D printing.

The Implantology section on 6th floor comprises of two operation theaters, a diagnosis section, patient recovery room and sterilization room for dental implants treatment.

Hostel Facility :

From 8th to 11th floor hostel rooms are provided to UG & PG Students and warden's flat is on 7th floor.

1) Oral Medicine And Diagnosis Clinic :

In this department the registration desk serves as the patient's initial point of contact. There, the patient's name is recorded and an OPD number is given to the new patient. Additionally, a separate case paper is generated for each patient, in which details regarding all subsequent examinations and treatments are recorded.

This is the department where all new patients are checked and screened for all their dental complaints, soft tissue lesions like precancerous conditions etc and systemic diseases.

The patient detailed medical history/social history is recorded along with the present dental status. The chief complaint of the patient is noted and all the relevant investigations like radiographs, biopsy, and blood investigations are prescribed and carried out and the patient is referred to the specific department for treatment. The patients are also counselled as regards their oral hygiene status, cessation of tobacco associated habits, etc.

The management of oral manifestations of systemic diseases, oral mucosal lesions, early stage precancerous conditions, autoimmune disorders is carried out in the Oral Medicine Clinic. Patients are screened for Oral Cancer, biopsy and radiographic investigations are prescribed. Referral and rehabilitative counselling is also an integral part of this unit.

Temporomandibular Disorders, Musculoskeletal lesions and Orofacial pain is also diagnosed, treated, counseled using varied modalities including (TENS) trans electrical nerve stimulation, in the Oral Facial Pain Clinic. Minor laser surgeries are also under taken in the department.

The department has CBCT machine, a Radiovideography unit and Laser instruments.

2) Oral & Maxillofacial Surgery and Exodontia Department:

The Department of Oral & Maxillofacial Surgery is a major referral centre for patients requiring treatment for various diseases & disorders related to the bones of the face & jaws, such as congenital jaw deformities or those arising from trauma during vehicular accidents, tumours, Temporomandibular joint ankylosis, Oral submucous fibrosis, implantology and distraction osteogenesis. Along with major surgical treatment procedures the department, also attends to patients requiring routine treatment such as dental extractions & minor surgical procedures such as extraction of impacted teeth, cyst enucleation, closed reduction of jaw fractures, TM Joint dislocation, preprosthetic surgeries & Biopsy procedures for patients with suspected cancerous lesions of the oral cavity. Also various Research project related to Oral Surgery are carried out in the Department by Post Graduate Students under guidance of the teaching faculty.

3) Periodontology Department:

The speciality deals with the management of the Periodontal diseases i.e. diseases of gums & jaws bones. Periodontal disease is a disease of neglect. There is an

extremely high incidence (51%) of Periodontal problems in the Indian population. Neglect of healthy mouth by improper brushing & deleterious habits, leading to poor oral hygiene, are the main etiological causes of this disease. The deposits on the teeth are removed by oral prophylaxis also called as Scaling and Root planing by means of hand instruments/sophisticated electronic equipment, Ultrasonic Scalars.

Patient's primary checkup is done for chronic gum disease and their teeth are cleaned also to give them better dental health. Patients with bony defects are treated with artificial bone grafts e.g. dried bone allograft & soft tissue defects are treated by membranes e.g. Alloderm. Both these grafts are synthetically prepared and are procured from established organizations. Patients with mobile teeth are treated by splinting, which can be done by composite, wire etc. A fully functional Dental implant Section has now started in the department. Treatments also include cosmetic procedure like depigmentation, crown Lengthening and laser therapy.

4) Pedodontics Department:

Department of Pedodontics & Preventive Dentistry provides services to Children from infancy to adolescence to all socioeconomic strata. The preventive programmes like oral Hygiene Counselling, Diet Counseling, Fluoride Therapy are routinely performed. All the treatment modalities from diagnosis to complete oral rehabilitation are done. Restorations with silver amalgam, tooth coloured materials root canal treatment, extraction, space management, minor surgical procedures are carried out. Habit breaking procedure (for eg. thumb sucking, digit sucking, mouth breathing) are routinely carried out. The children with Dental traumatic injury are attended with advanced modalities & techniques.

Speciality treatment for medically compromised children & those needing special attention i.e. cardiac diseases, cerebral palsy (spastic children), Autism, Thalessemia, Haemophillia, Leukemia, cleft lip & palate are carried out with special care. .

Municipal School Children are treated free of cost and special efforts are taken through daily dental van services. Pediatric patients suffering from highly infectious and contagious disease like HIV/ AIDS, Hepatitis B are also treated. Underprivileged children living in orphanages are brought on monthly basis for regular oral health care.

5) Orthodontia Department:--

Orthodontics and Dentofacial Orthopedic is a highly specialized branch of Dentistry. The department at Nair Hospital Dental College was the first to start in the country an till date offers contemporary treatment to the patients visiting the department. The treatment modalities includes treatment of 1) mild to moderate growth related problem 2) Malocclusion due to pressure related habit 3) cleft lip and palate 4) Skeletal malocclusion 5) functional problem 6) occlusal disharmonic 7) Crowding 8) Proclination etc.

6) Prosthetic, Crown and Bridge Department :

In this department artificial teeth are replaced. Replacements are directed towards achieving oral function, aesthetics, speech and mastication.

Depending on the extent of edentulous span, the patient could be treated either with a complete denture, removable partial denture or a fixed partial denture. Different

types of maxillofacial prosthesis are also made for patients with congenital or acquired defects. Fixed partial denture work is carried out with the latest available material (e.g. Resin, Ceramic, Metal) and Modem technology. Dental implant treatment is also carried out in the department. This department has been renovated recently, and new dental chairs have also been installed.

A state of art Digital Dental Lab (CAD CAM Lab) has been a new addition to the department. It will help in fabrication of faster and more accurate computer aided design & manufacturing (CAD/CAM) dental prostheses.

7) Oral Pathology and Microbiology Department:

Oral Pathology and Microbiology deals with examination of oral manifestations of diseases and their treatment. Biopsy procedures and Histopathological reporting is also done in the department. Routine lab investigations are carried out for the patients.

The department is involved in academic and research activities. The department has a research microscope and automatic blood cell counter. The latest addition to the department are twenty five illuminating binocular microscopes.

Oral Cancer and Precancer Prevention and Detection Center deals with detection and counselling of patients with precancerous and cancerous lesions.

8) Conservative Dentistry & Endodontics Department :

The department of Conservative dentistry and Endotontics works towards conserving and restoring teeth. Work done by the department is concentrated on relieving the pain and discomfort of the patients, majority of the treatment carried out is Root canal treatment of teeth. Besides silver amalgam restorations or Esthetic dentistry, the department also serves the patients with treatment modalities ranging from Periapical surgery, management of Traumatic dental injuries. Non-surgical retreatment and multidisciplinary Endo-Prostho and Endo-Perio cases. The department has state-of-the-art equipment which includes Lasers, Electrocautery, Surgical operating Microscope, Table top microscopes and Bleaching units. Special personalized care is given to "Mentally and Physically challenged" patients in special care room. Senior citizens are treated on priority basis every Friday. Seropositive cases are taken every Wednesday in a special room.

9) Department of Public Health Dentistry :

The Public Health Dentistry Department is constantly working toward the comprehensive prevention of dental diseases and the widespread promotion of oral health. The sole objective of this department is to ensure that as many people as possible achieve excellent oral health.

Dental services are provided by visiting two urban health centers via a mobile dental van. Oral Health outreach programs are regularly implemented to provide free screening and treatment to the poor and needy population in slums and remote urban settlements. In addition to these regular visits, the Public Health Dentistry Department provides oral health information (Awareness) and treatment for those in need in slums, red-light areas, orphanages, and for the general public. Similarly, dental check-ups for school children are conducted regularly.

Through dental camps, the community is informed and educated about the process of oral diseases and their prevention. 'Every year, "No-Tobacco Day", "Cancer Day" is observed to raise awareness among dental patients about the ill effects of tobacco consumption and oral cancer. People are encouraged to adopt a healthy lifestyle through street plays, slogans, and posters. Through the Tobacco Cessation Center, free counseling is given to patients who are addicted to tobacco consumption.

In the Oral Health Museum developed by the department at the ground floor of Nair Hospital Dental College, each and every patient is taught how to tackle oral health issues, dental diseases, various treatment options and preventive care.

In the future, the department is striving to reach as many people as possible, especially in the remote parts of the city, throμgh a well-equipped mobile dental van to provide them with the benefits of free dental treatment.

IV) LOKMANYA TILAK MUNICIPAL GENERAL HOSPITAL AND LOKMANYA TILAK MUNICIPAL MEDICAL COLLEGE

1) L.T.M.G. HOSPITAL:

After the IInd world war, the Indian Military Hospital at Sion was taken over by the Bombay Municipal Corporation in the year 1946 and the Dharavi Municipal Group of Hospitals was started from 24th April 1947. It started with 50 beds and now LTMG Hospital is 1900 bedded tertiary referral center. Currently, hospital is undergoing redevelopment after which it will have 3000 beds.

Various clinical facilities and specialized units such as Flying Maternity Squad Service, Accident Ambulance and Mobile Coronary Care Units have been provided at this hospital.

2) LOKMANYA TILAK MUNICIPAL MEDICAL COLLEGE:

The Brihanmumbai Municipal Corporation established its third Medical College at this hospital in the year 1964. The college is affiliated to Maharashtra University of Health Sciences, Nashik. Upto the year 2016-17 100 no. of undergraduate students were admitted every year. From academic year 2017-18, 150 undergraduate students were admitted to MBBS course. From 2019-20, 200 Under Graduate students are given admissions.

The college admits Post Graduate students for various Degree & Diploma courses in all specialities and super specialities besides conducting D.M.L.T, M.Sc. & Ph.D in Microbiology, Biochemistry, and Applied Biology & Pharmacology.

The School of Physiotherapy and Occupational Therapy, conducts B.P.Th./B.O.Th. & M.P.Th/M.O.Th. courses. Students are also trained for M.Sc. Course in these specialties. Students are admitted for B.P.M.T. courses also. There is school of nursing affiliated to Nursing Council of India & admits 100 students every year for GNM course.

DEPARTMENT OF ANAESTHESIOLOGY :

Department of Anaesthesiology has trained undergraduate and postgraduate students, organized various academic activities, conducted postgraduate examinations

and provided anaesthesia related services to 20 other departments of LTMM College and Hospital as well as other hospitals as per the directives.

During the year 2026, totally 28242 patients received anaesthesia care for various, routine and emergency surgeries in different surgical specialities and super specialities. 4175 patients were evaluated in Anaesthesia OPD. In addition, 1333 patients were provided ventilator care and 4064 patients critical care in different ICUs.

DEPARTMENT OF ANATOMY :

Teaching and Evaluation of First Year M.B.B.S. Physiotherapy & Occupational Therapy students, M.D. Anatomy Postgraduate students of L.T.M.M.C. Teaching of First Year B.Sc. P.M.T. & Diploma Nursing students of L.T.M.G.H in Anatomy.

Department of Anatomy conducted Undergraduate Seminars for First Year M.B.B.S. students.

The Department of Anatomy accepts Body Donation after death, for Dissection purposes for First Year M.B.B.S. students, M.D. Anatomy Postgraduate students and for Research.

Helps for arranging Workshops for various clinical departments.

DEPARTMENT OF BIOCHEMISTRY:

Biochemical investigations are carried out using fully automated clinical biochemistry Autoanalyzer. Investigations like LFT, RFT, Calcium, Uric acid, amylase are analyzed for intensive care areas. The total No. of tests during 2025-26 in Biochemistry Clinical Laboratory 9,69,629 & Emergency Laboratory was 5,79,017

Investigations like Blood sugar, Serum electrolytes, lipid profile, LDH, fluid and urine biochemistry along with special investigations like VMA, Ammonia, Lipase, CRP, Serum Iron, Serum Ferritin, Unsaturated Iron Binding Capacity, Magnesium, ADA, Lactate, Amylase, were also done for all the patients (indoor and outdoor).

Biochemistry department has also started insulin, C-Peptide, HPLC for Haemoglobinopathies.

This department also started Hormonal assay like Prolactin, parathyroid hormone & Fertility profile like FSH, LH, testosterone, Antimullerian hormone to assess hormonal levels and reproductive health to evaluate fertility potential and identify any underlying issues.

DEPARTMENT OF CARDIOLOGY:

The Department of Cardiology was established in 1975-76. The Department has been a pioneer in many fields like Primary Angioplasty in Myocardial Infarction (PAMI), Trans Catheter Indian Society of Aortic Valve Replacement (TAVR) and Atrial flow regulator, etc. Indian Society of Electrocardiography (ISE) was established in Sion 20 years ago. Presently, the Department has a fully equipped ICCU, which provides acute care for all cardiac emergencies. Cardiology OPD is held twice a week in L.T.M.G. Hospital, Sion. The Department also conducts non invasive and non-invasive cardiac procedures like 2D & 3D colour Doppler Echocardiography & Trans Esophageal. Echocardiography & Computerised Stress Test and PCI while also being involved in

various clinical trials. The new "State of the Art" flat panel cardiac catheterization lab was installed on 31st October, 2018, where all type of diagnostic & therapeutic cardiac procedures like Angioplasty, Valvuloplasty, diagnostic and therapeutic interventions for Congenital Heart Diseases and Pacemaker implantation etc. are routinely done. The department also provides highly specialised arrhythmia clinics, Electrophysiology Studies and Radiofrequency Ablation services by world renowned faculty.

DEPARTMENT OF CARDIOV ASCULAR & THORASIC SURGERY:

THE CVTS dept. deals with pediatrics and adult cardiac surgeries including open heart surgeries like valve replacement and coronary artery bypass grafting ate. and pediatric cardiac surgeries for cyanotic and cyanotic congenital heart diseases. Also it caters to various vascular emergency surgeries like that involved in trauma and thromboembolism. The dept. conducts various thoracic surgeries like decortications, lobectomy, pneumonectomy and cyst excision in both adult and pediatrics patients and cases referred from chest medicine dept. Patient requiring dialysis undergo A.V. Fistula surgery.

DEPARTMENT OF COMMUNITY MEDICINE:

Department of Community Medicine conducts undergraduate teaching for I, II, and IIIrd year M.B.B.S. students. Educational visits to various institutes of public health importance are organised for Undergraduate and Postgraduate students. Additionally, teaching sessions are conducted for B.P.Th, B.O.Th, B.P.M.T and Nursing students. Community visits under Family adoption program are organised for Undergraduate students. Department also conducts Continuous Rotatory Medical Internship Program.

N.C.D. Clinic and Immunisation Centre : NCD Screening Corner has been set up in the OPD building to screen patients and caregivers aged ≥30 years for hypertension, diabetes, and obesity.

Integrated Disease Surveillance Project (I.D.S.P) : Daily reporting and line listing of malaria, dengue, leptospirosis, AFI, ARI, cholera, and gastroenteritis are carried out from OPD, IPD and laboratory services.

DEPARTMENT OF GASTROENTEROLOGY

This department specialized in the clinical evaluation, diagnosis and treatment of the diseases of the digestive tract, liver, biliary system and pancreas along with endoscopies. This department perform about 500 diagnostic OGDscopies and 200 colonoscopies per month. This department department also performs dilatation of esophageal strictures, Capsule endoscopy for unexplained GI bleeding, EUS guided drainage of pancreatic fluid collection. We perform about 40 ERCP per month for biliary tract stones, strictures and malignant obstruction. Our department has started performing cholangioscopy for difficult biliary stones and POEM procedure for achalasia cardia.

DEPARTMENT OF OBSTETRICS AND GYNAECOLOGY:

The department of Obstetrics and Gynaecology of LTMG Medical College and General Hospital had total deliveries of 7999 in the year 2025-26. Total no of new OPD registrations was approximately 11428. Total no. of Old OPD registrations was

approximately 38880. Daily average no. of new OPD patients was approximately 423. Daily average no. of old OPD patients was approximately 1620.

DEPARTMENT OF MEDICINE:

Medicine department is very important structure providing patient-centric care in multiple discipline. It is also involved in medical education Of M.B.B.S, M.D. Medicine students. along with Physiotherapy, Occupational therapy. Paramedical technology and Nursing courses.

Daily in Medi ine O.P.D., 400-450 patients are treated. Speciality ORD.'s like Diabetes, Endocrinology. Infectious Diseases, Hematology and Rheumatology provide services to nearly 250-300 patients per week. Senior citizen's OPD looks after around 40-50 patients per week. ART centre for HIV provides services to 150-200 patients per day under Mumbai District Aids Control Society U.HC. Dharavi has a daily O.P.D. of 40-50 patients/ day and Indoor capacity of 40 male beds and 15 female beds which are fully utilized. Medicine department admits 60-80 patients daily which increases to about 110-130 patients daily during monsoon season. There were 30,020 Indoor patients this year including monsoon related illnesses like Malaria, Leptospirosis & Dengue. Adult patient of Thalessemia Major are given blood transfusions on O.P.D. basis in special Thalessemia Centre in conjunction with Pediatric Department.

DEPARTMENT OF MICROBIOLOGY :-

Department of Microbiology has processed Four lakhs Sixty Four Thousand Four hundred and Fifty Four (4,64,454) specimen in the year 2024 (January- December 2024).

The significant special activity in 2024:

- NABL Accredited Lab as per ISO15189:2012
- Molecular Testing facility for SARS Covid 19/ Influenza viruses
- Sterility testing facility for Milk bank/Blood Bank/ Skin bank
- Part of MAHASAR- Maharashtra State Antimicrobial Resistance Surveillance

DEPARTMENT OF NEONATOLOGY:

The Department of Neonatology provides specialized care for newborns delivered at the hospital as well as infants referred from public and private healthcare institutions for advanced neonatal management.

The department houses a 46-bed, Level IIIA Neonatal Intensive Care Unit (NICU) equipped to deliver comprehensive neonatal care. Services include invasive and high-frequency ventilation, point-of-care ultrasonography, phototherapy, exchange transfusion, and intensive monitoring for critically ill newborns.

For the past 37 years, the department has operated a Human Milk Bank, supplying pasteurized donor human milk to preterm and vulnerable infants. Dedicated lactation support services are available to assist mothers in initiating and establishing breastfeeding in accordance with Baby-Friendly Hospital practices. The department also serves as the Zonal Reference Centre for the Comprehensive Lactation Management Centre (CLMC) for the West Zone of India.

In June 2025, th department launched a Neonatal Palliative Care Program in collaboration with the CIPLA Foundation. This was followed by the introduction of a Neonatal Hearing Screening Program in partnership with the Indian Academy of Pediatrics in April 2025.

DEPARTMENT OF NEUROSURGERY :

The Department of Neurosurgery at Lokmanya Tilak Municipal Medical College and General Hospital is a well-established tertiary care specialty department providing comprehensive neurosurgical services to patients from Mumbai and across Maharashtra. The department is committed to delivering high-quality patient care, advanced surgical treatment, academic excellence, and research activities. All these services are provided free of cost under various Government schemes, benefitting underprivileged patients from Maharashtra and neighbouring states.

Clinical Services Provided are Neurotrauma Services, Neurovascular Services, Neuro-Oncology Services, Spine Surgery Services, Pediatric Neursurgery, Functional and stereotactic Neurosurgery and Neurocritical Care.

DEPARTMENT OF NEUROLOGY:

The Department of Neurology is now a separate department. Apart from routine NCS and EMG studies, a facility for VEEG has also been started. This department offers a wide range of services including botulinum toxin injections for dystonia and hemifacial spasm and thrombolysis for stroke. In addition to two general neurology OPDs on Monday and Friday, the epilepsy OPD has been started on Wednesday. The department has got recognition from NBE and has 3 Dr. N.B. residents currently. The department has also conducted the Dr. N.B. Neurology practical exam in April 2026.

DEPARTMENT OF NEPHROLOGY:

The Department of Nephrology provides Hemodialysis services to patients with acute kidney injury and chronic kidney disease. Also, we run a Kidney Transplant programme in L.T.M.G.H. There were 467 admissions last year in Nephrology ward in 2025. 04 live related renal transplants were performe. This department is running Hemodialysis services at 03 places in hospital which includes ward 35, HD unit in O.P.D. Building and M.I.C.U. The department has provided 3399 Hemodialysi sessions in 2025. The department has also provided interventional nephrology services in the form of T.C.C. insertions and kidney biopsies, 101 tunneled cuff catheters were inserted and 140 kidney biopsies were perfomed in 2025.

DEPARTMENT OF OPHTHALMOLOGY:

Routine eye check up, Refraction , Autorefractokeratometry, Fundoscopy (Direct and Indirect, 90 D lens) , Tonometry (Schiotz and Applanation), Dry eye examination, Lacrimal sac syringing, Slit lamp examination with imaging, Gonioscopy, Perimetry, Color Vision test, Amsler's Grid test, A scan, B-scan, Optical biometer, Optical Coherence Tomography, Fundus photography, Fundus fluoroscein angiography, Retinopath of prematurity screening, Learning Disability screening, Visual Disabilty screening Diagnostic services are done.

DEPARTMENT OF ORTHOPEDIC:

The department of Orthopaedics was established in 1970. Initially, it started off with fifty beds and has since then progressed to become one of the premier centres for Orthopaedicsurgery, not only in the city of Mumbai, but also in the entire country.

This department runs three Operation Theatres six days a week plus one emergency O.T. round the clock. The Orthopedic outpatient department caters to 350 patients per day on an average.

Besides the general outpatient department, specialty clinics such as the Arthroscope & knee clinic and the spine clinic. Cerebral Palsy are also run by the department.

DEPARTMENT OF PATHOLOGY :

Department of Pathology renders services through various laboratories like Hematology (The basic Hematology tests are NABL accredited since year 2021), Cytopathology, Histopathology, Clinical Pathology, Post-mortem Histopathology and Chemical Pathology.

Emergency lab runs 24 hours a day, catering to emergency patients. For cancer patients, advanced test like immunohistochemistry & Frozen section facility is provided.

DEPARTMENT OF PEDIATRICS:

The Pediatrics Department had a highly productive 2025, making meaningful strides across patient care, academics, and community outreach.

The Division of Paediatric Haematology-Oncology marked an important milestone in the form of completion of 100 bone marrow transplants. The event was an opportunity to honor and express gratitude to the individuals and NGOs, who have made a lifesaving contribution to patients undergoing bone marrow transplant.

Patient Care Highlights - Over 6093 patients were admitted during the year, with nearly 24,000 OPD visits and more than 20,000 children handled through emergency services.

New & Notable Initiatives - Palliative care services for both cancer and non-cancer pediatric patients were implemented with a dedicated team, backed by CSR funding and celebration of one year anniversary.

DEPARTMENT OF PHYSIOTHERAPY:

This department renders patient-care services to all indoor areas including all intensive care units, and also offers O.PD. based services to patients with any musculoskeletal, Adult & Paediatric Neurological and Cardio-Pulmonary Dysfunctions, with speciality services to patients with hand injuries.

DEPARTMENT OF PLASTIC SURGERY:

Plastic Surgery O.P.D. runs 3 days a week with footfall of around 100 to 120 patient every O.P.D. This department has specialised O.P.D. including Hand O.P.D. Cleft & Craniofacial O.P.D. & Cosmetic Surgery O.P.D.

This Department operates around 3,000-3,500 Routine & Emergency cases every year including Trauma, Cancer reconstruction Cleft & Craniofacial Surgery, Cosmetic Surgery. Hand Surgery & Gender reassignment Surgery.

DEPARTMENT OF PSYCHIATRY:

The following services are provided by this department.

O.P.D. & I.P.D. Services :- About 250 to 280 old patients and approximately 35-40 new patients are assessed, evaluated and treated under Senior supervision on a daily basis in the ORD. Department also provides indoor treatment facilities through Male ward (18 beds), Female ward (09 beds) and Pediatric ward (04 beds).

Community Outreach Services:

- Weekly visits at both the male and female Beggar's home, Chembur.
- Conducting Dementia camp with Shield Foundation in Dharavi.
- Weekly visits to Grace foundation at Chembur.
- Visits at Navjeevan Foundation.

Child Guidance Clinic (C.G.C.): About 12-15 patients (up to the age of 14 years) are assessed and evaluated every' day in C.G.C. The department caters its support to the learning disability clinic run by the department of Pediatrics by evaluating children for co-morbid psychiatric disorders in the regular OPD.

Electroconvulsive Therapy {E.C.T.) : Modified E.C.T.S. under general anesthesia are given to both patients and out-patients on daily basis,

DEPARTMENT OF SURGERY:

Surgery - The department treats patients in OPD, perform major and minor operations each year.

Minimal invasive surgery - Routinely performing basic and advanced laparoscopic surgeries.

Trauma ICU care - About 3100 per year critically injured patients are provided quality care at the trauma ward.

Surgical Gastroenterology & Endotherapy Clinic - Endoscopy, Cancer Chemotherapy Clinic, Burn Care services etc. available.

DEPARTMENT OF GASTROINTESTINAL SURGERY:

The Department of Surgical Gastroenterology & GI-HPB Oncosurgery continues to provide comprehensive, state-of-the-art surgical care for patients with complex gastrointestinal and hepatopancreatobiliary conditions. In the academic year 2025-2026, the department successfully performed over 170 major GI-HPB surgeries and catered to more than 900 patients through its outpatient services, reflecting its unwavering dedication to patient care.

DEPARTMENT OF UROLOGY:

Urology department at L.T.M.G.Hospital is one of the oldest Urology departments in Mumbai. This department is very active in providing advance treatment techniques to

Kidney disease patients. Also, Live and Cadaveric Kidney transplant are successfully done regularly.

Majority of procedures in Urology are done endoscopically in this department (Endourology, Laparoscopic Urology, Laparoscopic Donor Kidney treatment etc.). Other diseases like Kidney diseases (Stone, Cancer) Urinary bladder & Prostate diseases (cancer, stones, BPH) also treated regularly. Modem techniques like LASER,UDS,RIRS and ESWL are available in our department. Andrology OPD is also there. Also separate Uro-Oncosurgery OPD is conducted every Thursday.

DEPARTMENT OF DERMATOLOGY:

- In the period of January 2024 to December 2024, the Department of Dermatology has provided its services to over - 1,17,066 patients on OPD basis, 76 patients on IPD basis, 10,158-day care procedures, 304 dermatosurgeries and 735 EC procedures.
- Conducted special OPDs for hair, vitiligo, psoriasis, acne/melasma. The hair OPD alone has patient load this year.
- Provided services like vitiligo surgeries, hair transplants, radio cautery, surgical excisions, phototherapy, chemical peels, STD counselling.
- Provided diagnostic services like histopathology, dermoscopy, trichoscopy, Wood's lamp examination, KOH mount, gram staining.

Dentistry Department :

This department is providing state of the art dental treatment in Dentistry Department. Apart from U.G. clinical teaching we provide various dental procedures like Dental Extractions, RVG X-rays, Minor Oral Surgeries, Dental Fillings, Root Canal Treatment (RCT), Crowns and Bridges.

Dental Implants and Full Mouth Rehabilitation (FMR) cases are also done commonly. Last year the Dentistry Department performed 1022 Dental Fillings, 442 RCTs, 56 Intra Oral Scans, 366 Dental Crowns, 54 Dental Implants and 10 Laser Surgeries.

In the process of procurement of OPG Machine and setup of Digital Dental Centre at LTMGH.

Paediatric Surgery:

The department provides comprehensive paediatric surgical care through regular OPDs, specialized clinics, linkage OPDs at Rajawadi, Shatabdi, and Cooper Hospitals, and round-the-clock emergency services. Specialized clinics for Neonatology, Anorectal Malformations, Genitourinary Disorders, Spina Bifida, and Antenatal Counselling continue to offer multidisciplinary care. During 2025, the department catered to 13,641 OPD patients through regular, follow-up, linkage, emergency, and camp services.

Indoor care is delivered through Wards IA and 8, along with a dedicated 10-bed Surgical Neonatal Intensive Care Unit (SNICU).

DEPARTMENT OF OCCUPATIONAL THERAPY:

The Occupational Therapy Department runs special clinics on a daily basis, including Neuro Rehabilitation, Amputation Rehabilitation, Work Fitness, Stress Management, SI & NDT, Developmenta O.P.D., CP Clinic, Hand Clinics, High-Risk Disability Assessment and Certification, and Community-Based Rehabilitation services at Matunga and Mankhurd Labour Camp. The Occupational Therapy Department also runs an Autism Intervention Centre (AIC) at UHC Dharavi.

FORENSIC MEDICINE:

A) ROUTAINE ACTIVITIES:-

1) Effectively taking undergraduate lectures, tutorials & practical as per MUHS syllabus..
2) Conducting Medico Legal autopsy as per BNSS, maximum by any Medical College of Mumbai.
3) Total 2127 umbers of postmortem conducted in the year 2025.
4) Total 377 Antemortem cases examined in the year 2025.
5) Collection preservation of viscera and biological evidence for chemical analysis to Forensic Science Laboratory, Kalina.
6) Collection & preservation of tissues for histopathological examination preservation of tissues for histopathological examination.
7) Conducting terminal exams and MUHS University exam as MUHS guidelines.

DEPARTMENT OF E.N.T.:

The ENT department at L.T.M.G. Hospital, Sion, is a leading tertiary referral centre, managing a wide array of complex and challenging cases referred from across the country. Alongside this, we handle a high volume of routine cases, with approximately 150-200 patients attending the Outpatient Department (OPD) daily.

Our operation theatre is active every day, with 7-10 major and minor surgeries performed regularly. Emergency surgeries are available 24/7 to cater to urgent cases. In addition to routine ENT procedures, the department performs a broad range of advanced surgeries.

DEPARTMEN T OF PHYSIOLOGY:

The Department of Physiology is mainly involved in teaching the 1" year M.B.B.S., B.O.Th., B.P.Th, B.P.M.T. and Nursing students and conducts regular lectures, practical's tutorials and seminar for them and assesses the regularly. The department also conducts teaching and seminars for postgraduate students. It conducts classes for third year B.O.Th students.

Faculty participates in different faculty development programs.

RADIOLOGY DEPARTMENT:

The Radiology department currently boasts of two fully functional multislice CT Scan machines (160 Slice multidetector CT scanner and 16 slice multidetector CT scanner) and the third CT scanner under the PPP project is under process, one 3 Tesla MRI Scanner and the second MRI machine is being installed, One Biplane DSA Machine, three Mid-End grey scale and Colour Doppler machines and four low-End USG machines, one Fluoroscopy System, three CR Agfa and six portable X-ray machines, three DR machines and two wall- mounted x-ray machines

DEPARTMENT OF RESPIRATORY MEDICINE:

The Department of Respiratory Medicine operates a comprehensive care facility, boasting a 12-bed Intensive Respiratory Care Unit and a 40 Bed Respiratory Ward. These units specialize in managing a diverse range of respiratory conditions such as COPD, Asthma, Interstitial Lung Diseases, Occupational Lung Diseases, Pleural Diseases, ARDS as well as cases like Hanging, Drowning & Tetanus.

ACCIDENT & EMERGENCY MEDICAL SERVICES DEPARTMENT :

Emergency Medical and Surgical Services Department (E.M.S.) has completed 23 successful years of service towards rendering immediate treatment to patients attending EMS Casualty and Operation theatres. E.M.S. department is an integral part of the prestigious L.T.M.G. Hospital. Emergency services are rendered·24x7 to all the needy patients. L.T.M.G. Hospital being a Tertiary care Hospital, patients from all economic groups are given immediate treatment.

LOKNETE EKNATHRAO GAIKWAD URBAN HEALTH CENTRE:

Urban Health Training Centre, Dharavi

The centre provides comprehensive outpatient and community-based healthcare services. The training for resident doctors, interns, nursing, MPH, and MSW students is organised at Urban Health Centre.

It conducts General OPD, Immunization, ICTC, DSRC clinic, Screening for Non-Communicable Disease (NCD), Palliative Care, and referral services.

Rural Health Training Centre, Vasind

Dept. of Community medicine has rural health training centre at PHC Vasind where residents are posted on rotational basis. The RHTC facilitates the delivery of primary healthcare services, community outreach activities, and field training for medical students, interns and postgraduate residents.

V - SETH. A.J.B. MUNICIPAL EAR, NOSE AND THROAT HOSPITAL FORT :

Seth A.J.B. Municipal ENT Hospital situated on Maharshi Dadhichi Marg, Fort, is a 100 bedded "Specialized Hospital" for the specialized treatment of Ear, Nose and Throat diseases since 1964.

The out Patient Department is open daily except Sundays and Public Holidays. All types of Surgeries of Ear, Nose and Throat are undertaken here. Round the Clock emergency treatment facilities for Ear, Nose, and Throat disease are also available here.

Comprehensive Audiology and Neuro-Otology tests are available in this hospital. The hospital also provides Pathology services & Radiological services. The hospital has an in- house pharmacy which prepares various Ear, Nose, drops & preparations.

In the year 2025- 2026 total 95506 patients were treated in the outpatient department, and 2223 patients were admitted in Indoor patient department. Similarly 1973 Major surgeries and 165 minor surgeries were performed in the operation theatre of Seth A.J.B Muncipal Hospital.

VI) ANTI -T. B. SERVICES OF THE BRIHANMUMBAI MUNICIPAL CORPORATION

Group of Tuberculosis Hospital and City T. B. Control Programme

Group of Tuberculosis Hospitals, Sewree, Mumbai is largest hospital for Pulmonary Tuberculosis in Asia, run by Brihanmumbai Municipal Corporation. Patient with drugs sensitive and drugs resisitant (MDR - XDR) TB come to the hospital for examination, treatment and admission.

- Separate OPD for Drug sensitive & Drug resistant TB patients functioning 24x7. Separate wards for Drug sensitive & Drug resistant TB patients.
- 24x7 digital X-Ray facility.
- 10 Bedded I.R.C.U (Intensive Respiratory Care Unit) & Modular Operation Theatre.
- Upgradation of hospital laboratory to IRL - Intermediate Referral Laboratory. Now all sputum tests for TB diagnosis are done at GTB Laboratory like Gene-expert, true NAAT, LPA, Culture and Sensitivity for OPD and IPD TB patients along with samples collected from all over Mumbai under National Tuberculosis Elimination Program. Recently Gene-Xpert testing capacity is increased from 08 samples to 16 samples. Also culture & sensitivity is available for 04 Anti TB Drugs.
- ART Centre was started on 14th August 2020 in collaboration with Mumbai Districts AIDS Control Society - MDACS for TB and HIV co-infected patients.
- Pulmonary Rehabilitation Centre was started for cured TB patients to increase Lung Compliance by Chest Physiotherapy. Uptill now 6,811 patients have been benefited.
- Patient support care committee is formed with involvement of hospital employees of all cadres.
- Non communicable diseases clinic is started for hospital employee TB patients and their relatives.
- Two Bio-Medical waste machines were installed to dispose Bio - medical waste of the hospital.
- ‘Sakas Aahar’ i.e. supplementary high protein diet for all hospital employees in all three shifts to boost their immunity.

- Regular quarterly screening of all hospital employees for early diagnosis of TB, Diabetes, Hypertension and other diseases to prevent future complications and if needed treatment is also given.

STATISTICAL INFORMATION YEAR WISE :

YEAR	OPD (NEW/OLD)	IPD
2021	22,562	4,157
2022	21,939	4,015
2023	20,730	4,200
2024	20,607	4,354
2025	20148	4,222

OPERATIONS :

YEAR	MAJOR	MINOR	TOTAL
2021	00	614	614
2022	00	769	769
2023	04	1,071	1,075
2024	01	1,658	1,659
2025	01	2,317	2,318

Engineering Services

Dahisar River, STP Plant

Solar Tree, C. D. Deshmukh Garden, Mulund

Engineering Services

1) City Engineer's Department :

City Engineer is a statutory post as per Section 74 of the Mumbai Municipal Corporation Act, 1888. The prime duties of the City Engineer are as follows :-

1. Recruitment, Transfer and Promotion of all staff in Engineering Department.
2. Empowered to appoint Municipal Junior Engineer (Civil / M. & E.), Sub Engineer (Civil / M. & E.), and Assistant Engineer (Civil / M.& E.) and Architect on permanent or temporary establishment of the City Engineer's Department to the conditions mentioned in the recruitment circular issued from time to time in respect of direct recruitment.
3. To determine qualifications for posts of Dy. Chief Engineer, Executive Engineer, Sub Engineer, Jr. Engineer & Technical Assistant (Construction).
4. New Construction / Redevelopment of Municipal Buildings with execution of such building works included in 'A', 'B' and 'E' Budget excluding construction work related to Health department.
5. There is one section of Registration and Monitoring of Contractors of Engineer's Department. This Section looks after the work of Registration, Revalidation and Gradation of Contractors and also Rules of Registration.
6. Preparation of budget proposal of Revenue expenditure & Income as received from 24 Wards and departments under City Engineer.
7. For the staff working under City Engineer / Engineer Unit, City Engineer is competent authority to Penalize, Remove from Service, Increment stop, Suspend / Dismiss the staff who got punishment. To remove / dismiss the administrative employees and Engineer Cadre working under City Engineer, subject to provision of section 83 of the M. M. C. Act., 1888. City Engineer is Competent Authority, hence punishment orders of such employees are issued under the signature of City Engineer.

School Infrastructure Cell :

As per Hon'ble High Court & Hon'ble Dhanuka Committee's recommendation School Infrastructure Cell was established since the year 2008. Brihanmumbai Municipal Corporation owns total of 479 school buildings. Repair, Upgradation, Reconstruction and New Construction of B.M.C. school buildings is executed by Dy. City Engineer (School Infrastructure Cell) department. In the year 2025-26, 01 no. of reconstructed and new constructed school buildings is handed over to education department.

Total no. of 08 repair works and 09 Reconstruction / New construction works are in progress in Dy. City Engineer (School Infrastructure Cell) department and same will be completed in stipulated time. Now, process of inviting new tenders for repair works and reconstruction works is in progress and same will be invited and work order for the same will be issued after receipt of administrative approval for same.

In the financial year 2025-26, Rs. 259.08 Cr. fund was utilised out of Rs. 281.34 Cr. i.e. 92.08 % Revised Estimate of 2025-26 provision.

2) Environment Department :

Legal Aspect :-

As per 74th ammendment of the constitution of India in 1992 (12th schedule) the Maharashtra State Government issued an ordinance to amend Mumbai Municipal Corporation Act,1888 making "environment protection, promotion of ecology and urban forestry" as an obligatory duty vide section 61 (ab) in the year 1994 and under the section 63-B of Mumbai Municipal Corporation (MMC) Act, 1888 Environmental Status Report is prepared and submitted every year before 31st July to the Corporation.

Environment and Climate Change :-

Under the National Clean Air Programme, as per the guidelines given by the Central Pollution Control Board and Maharashtra State Pollution Control Board and as per the template sent, the Central Pollution Control Board has approved the Air Action Plan prepared by the Municipal Corporation to improve the air quality in Mumbai and bring it within the prescribed limits on 24th October 2019. The Mumbai Municipal Corporation is working as the coordinating body in this and the relevant departments within and outside the Municipal Corporation has been informed by the Municipal Corporation for implementation as per the action plan. The Municipal Corporation inter departments includes Chief Engineer (Roads and Transport), Chief Engineer (Solid Waste Management), Chief Engineer (Development Planning), Chief Engineer (Mechanical and Electrical), Executive Health Officer, Garden Superintendent, Assistant Commissioners of all wards, etc. External departments such as RTOs, Traffic Police, Mumbai Metropolitan Region Development Authority, BEST, Railways, Metro Rail, Maharashtra State Electricity Board, Reliance, Maharashtra State Road Development Corporation, MHADA, Ministry of Transport, Ministry of Petroleum, Ministry of Mines, etc. have significant involvement.

The plan includes widening of roads, reducing traffic congestion by removing obstacles, regulating traffic, and implementing smart transportation. Emphasis has been placed on measures to develop the system, reduce air pollution emitted by vehicles in areas like Bandra Kurla Complex, Lower Parel, etc., and control air pollution and, in turn, noise pollution.

The Brihanmumbai Municipal Corporation has received a grant of Rs. 1052 crore (approx.) from the Ministry of Environment, Forest and Climate Change, Union Government, under the 15th Finance Commission to improve air quality. Also, an estimated amount of Rs. 990 crore has been received for water conservation, supply and management and solid waste management.

Therefore, various measures are being taken by the Brihanmumbai Municipal Corporation to improve air and water quality. Such as purchasing mechanical brooms along with spraying water, providing funds for purchasing e-buses for BEST transportation, increasing and improving green belts, converting waste into energy, etc. Due to the extremely poor air quality in Mumbai between January 2023 and February 2023, the Environment Department has formed an 8-member committee under the orders of the Hon'ble Commissioner to prepare an action plan for controlling air pollution in Mumbai. Also, orders have been issued to each department for its implementation and accordingly, action is underway in all departments.

Mumbai Climate Action Plan (MCAP) : -

C-40 is a global coalition of 40 major cities. The coalition provides guidance to global cities on how to protect themselves from the threats posed by climate change. For this, it is necessary to prepare a climate action plan for each city. For this reason, the Environment Department of the Brihan-Mumbai Municipal Corporation has prepared the Mumbai Climate Action Plan. Mumbai city has become a member of C-40 after the C-40 organization accepted the action plan. Currently, work has started on various aspects of this action plan.

The department has prepared an environmental budget for the year 2026-27. The projects considered in the municipal budget, if implemented will help Mumbai achieve its goal of "Net Zero". By monitoring the progress of these projects, it will also be possible to track how the goal of environmental improvement is being achieved. To implement the MCAP action plan, the Environment Department has been expanded with the approval of the Hon. Municipal Commissioner and Administrator, and new posts including that of Chief Engineer (Environment and Climate Change) have been created.

Of the newly created posts, 24 Sub Engineers (Climate Change) are being permanently appointed across 24 departments; this now makes it possible to monitor polluting establishments and work towards controlling them.

IIT, Kanpur has developed a system to collect information on air pollution sources at the micro level of the city, understand its nature and accordingly devise measures to reduce air pollution. IIT Kanpur has created a dashboard, which collects information about air pollution from various areas of the city through air quality sensors spread across the city. This dashboard provides real-time updates of the Air Quality Index (AQI) of various locations in the city and if the Air Quality Index (AQI) level reaches hazardous levels of pollution, it becomes possible to take necessary measures to control air pollution. To establish a similar system in Mumbai, the Environment and Climate Change Department of the Brihanmumbai Municipal Corporation have coordination with IIT Kanpur.

The Ministry of Earth Sciences (MoES), Indian Institute of Tropical Meteorology (IITM), India Meteorological Department (IMD) and National Centre for Medium Range Weather Forecasting (NCMRWF) have jointly developed a high resolution air quality system for the Delhi NCR region. This system provides advance air quality alerts for the next 7 days based on weather forecasts, pollution sources, data from CAAQMS Stations and Low Cost Sensors. The Mumbai Municipal Corporation should have such an early warning system to enable immediate action to be taken against potential pollution incidents. It is intended that the Mumbai Municipal Corporation should have such an early warning system to enable urgent measures to be taken against potential pollution incidents. I.I.T.M. has developed a dynamic modeling system “Decision Support System (DSS)” for air quality. The "Air Quality Early Warning Decision Support System" will be called "AIRWISE". Using "Early Warning System", the Mumbai Municipal Corporation can implement a measures to mitigate the impact of harmful pollution by monitoring pollution levels on a large scale.

The Brihanmumbai Municipal Corporation (BMC) is taking several steps to reduce the burden of dust pollution; it is formulating short and long-term mitigation strategies such as air monitoring systems and dust suppression measures to ensure

access to better-quality air. Therefore, it is proposed to deploy vehicle mounted units comprising multipurpose dust suction systems, sprinkler systems, and dust suppression (fogging/misting) systems across all 26 administrative wards within the Brihanmumbai Municipal Corporation's 7 zones, in order to carry out dust suction, road sprinkling, and dust suppression in the surrounding environment.

The multi-purpose dust suction, sprinkler, and dust suppression (fogging/misting) systems will be installed on eco-friendly CNG vehicles; these units will primarily operate on Mumbai's main roads and thoroughfares, as well as in areas where the Air Quality Index is found to be poor.

To achieve the 'Net Zero' goal, various measures have been proposed in the budget, including provisions to identify air pollution and heat hotspots and implement concrete solutions for them.

Air Quality Monitoring and Research Laboratory sub department :

Air pollution is measured by the Air Quality Monitoring and Research Laboratory through a Continuous Ambient Air Quality Monitoring Stations at 05 locations in the Brihanmumbai Municipal Corporation jurisdiction; this includes SO_2, NO_2, CO, O_3, PM_{10}, $PM_{2.5}$, Hydrocarbans etc. pollutants. Along with this weather parameter viz; Winds speed, Wind direction, humidity & Temperature is also measured. Whenever the complaints are received from citizens, special monitoring is carried out and the reports are submitted to concerns.

Through Continuous Ambient Air Quality Monitoring Stations Air Quality Levels, Air Quality Index etc. Information is becoming available to Mumbaikars. The Continuous Ambient Air Quality Monitoring Stations are connected to the servers of Central Pollution Control Board and Maharashtra Pollution Control Board and daily Air Quality Index (AQI) information is displayed on the website of Brihanmumbai Municipal Corporation. Daily Air Quality and Air Quality Index etc. information is available on 'SAMEER' Mobile app of the Ministry of Forest and Climate Change.

In the BMC area with the help of Mobile Van, monitoring is carried out at traffic junctions namely Wadala and Andheri. Similarly at the dumping grounds namely Deonar, & Kanjur. The pollutants analysed are SO_2, NO_2, CO, O_3, PM_{10}, $PM_{2.5}$, Methane, Non Methane, Total Hydrocarbons, etc. Whenever the complains are received from citizens, special monitoring is carried out with the help of Mobile Van and the reports are submitted to the concerned authority. Result of pollutants are compared with standards set by Central Pollution Control Board (CPCB) and Monthly / Annual report is forwarded to Dy. Ch. Eng (Civil)Env /Ch. Eng. (SWM) and HOD, Environment Pollution & Research Centre(EPRC) department (KEM).

Under the National Clean Air Programme, five 'Automatic Ambient Air Quality Monitoring Stations' which provide real-time data have been established within the Brihanmumbai Municipal Corporation area during the year 2022-23. The tendering process for setting up another five such stations during the year 2025-26 is currently in the final stage. Five High-Volume Samplers/Dust Samplers were procured in 2025-26 for collecting air component samples at the laboratory's stationary monitoring stations. Additionally, the tender process for procuring one UV spectrophotometer intended for

analyzing the air pollutant samples (SO_2, NO_2, CO, O_3, PM_{10}, $PM_{2.5}$) collected at these stations is currently in the final stage.

The important project 'SAFAR- Mumbai' is a joint venture of Brihanmumbai Municipal Corporations (BMC), Indian Meteorology Department (IMD) Mumbai & Indian Institute of Tropical Meteorology (IITM) Pune. Under SAFAR project various monitoring sites are installed at different places in the area of BMC. Viz. Air Quality Monitoring Stations (AQMS) 09 nos. Automatic Weather Station (AWS) 16 nos. & Digital Display Board (DDB) 13 nos.

Data received from 'SAFAR- Mumbai' is further analysed by Air Quality Monitoring and Research Laboratory. Monthly and Yearly report is submitted to concerned departments. In this NO_2, CO, O_3, PM_{10}, $PM_{2.5}$, pollutants are included. Under 'SAFAR-Mumbai' program Status of Air Quality, Weather Forecast & Air Quality Index is now available to citizens on Mobile App namely 'SAFAR-Air'.

Environmental Status Report for 2024-2025 is already submitted to the Corporation by Air Quality Monitoring and Research Laboratory, and the preparation of Environment Status Report for 2025-2026 is in progress.

3) Works attended by Chief Engineer :

(1) Chief Engineer (Storm Water Drains):

Mumbai is lined on the west by Arabian Sea and intercepted by number of creeks. The tidal variation is a major concern in the system of storm water drains (S.W.D.) to release rainwater as well as waste water into sea. The present S.W.D. system in the Mumbai city area has Major Nalla of approx. 281 kms., Minor Nalla and of 1,039.06 km. and Road side Drains of 2,103.69 km. The storm water drainage system in Mumbai city has been in existence for over 100 years. This system includes underground drains, open drains running alongside roads and major and minor nallas and is constructed according to the intensity of rainfall at that time. The old storm water drainage system has capacity to carry 25 mm of rainwater per hour at low tide with a storm water drainage coefficient of 0.5. If the rainfall exceeds 25 mm per hour and the tide, comes at the same time, then some parts of Mumbai are always likely to be flooded.

In fact, these storm water drains carry not only rainwater but also sewage from septic tank and ground water, etc. These storm water drains are operated and maintained from time to time. The flow flowing through these open storm water drains is discharged into the nallahs, culvert, creak or sea. The garbage thrown by the citizens, mainly in the slum areas, in these open storm water drains makes their condition miserable and thus creates unsanitary conditions. For this, regular tenders are issued every year and the drains are cleaned by registered contractors. Due to the inadequate sewerage system that existed earlier, the open drains on the side of the road as well as underground drains (Storm Water Drains) carry sewage / fecal mixed water. The consultants have suggested to prevent the sewage / fecal mixed water in storm water drains. A separate scheme has been taken up by the Sewerage Project Department under the JNNURM programme of the Government of India to separate sewage from storm water drains.

There are 82 major outfalls in city area which discharges rainwater into the Arabian sea, 9 at Mahim creek and 7 at Mahul creek and 7 at Thane creek. In the western suburbs draining directly into Arabian sea while 14 drain into Mithi river which ultimately discharged in the sea through Mahim creek. In the eastern suburbs, 25 out-falls

discharge into Thane creek and 4 outfalls discharge into Mahul creek. The open rainwater drains (storm water drains) have been constructed on both side of the roads in the suburbs and the extended suburbs.

BRIMSTOWAD PROJECT :

In June 1985, heavy rainfall in the city caused flood like conditions, disrupting road and rail traffic causing huge economic losses. Therefore, the Brihanmumbai Municipal Corporation decided to study the entire storm water drainage system of Mumbai city and prepared a comprehensive plan for the prompt drainage of rainwater and reducing the incidence of flood like conditions. In 1989, M/s A.I.C., an Indian associate of M/s Watson Hawksley International Pvt. Ltd. was appointed as a consultant for the project. The consultants surveyed the existing drains and nallas and divided the city into 121 catchment areas and studied their deficiencies. They also noted the obstacles in cleaning and maintenance of them. Also their mapping criteria were revised and a comprehensive plan for the enhancement of the storm drainage system was prepared in 1993, which is known as the BRIMSTOWAD Project. According to that report, the storm water drainage system should be designed to accommodate intensity of rainfall upto 50 mm per hour and the storm water drainage coefficient should be increased to 1.00.

As per the Detailed Project Report submitted to them, the Government of India agreed to provide a special grant of Rs. 1,200 Crore for the implementation of the BRIMSTOWAD Project in the year 2007, Out of this, Rs. 1,000 crore has been received so far.

On 26 th and 27 th July 2005 Mumbai city was hit by heavy rains, with a record rainfall of 944 mm in a single day, creating a flood-like situation in Mumbai city and its suburbs. The Government of Maharashtra formed a Fact Finding Committee to investigate the cause of this incident and to suggest measures to prevent such incidents from happening in the future. As per the BRIMSTOWAD Report and as per the recommendations of 'Fact Finding Committee' the work on the 'BRIMSTOWAD' Project has been undertaken. As per the recommendations of the Fact Finding Committee, the Brihanmumbai Municipal Corporation has appointed a consultant, M/s. MWH (I) Pvt. Ltd, to review and revise the BRIMSTOWAD Report. The consultant has prepared a comprehensive plan and submitted it to the Brihanmumbai Municipal Corporation on 30th April 2018.

The BRIMSTOWAD Project is proposed in two phases with 20 works in Phase I and 38 works in Phase-II. The scope of work for the BRIMSTOWAD Project is as under:-

1. Expansion and Rehabilitation of underground drains, sewers and culverts in city.
2. Construction of new storm water drains in R.C.C.
3. Reconstruction of existing nallas in R.C.C. M-40.
4. Deepening and Widening of nallas.
5. Construction of service road along the nalla.
6. Construction of Storm Water Pumping Stations.

Present status of the BRIMSTOWAD Project

Details	Phase-I				Phase-II			
	City	W. S.	E. S.	Total	City	W.S.	E.S.	Total
No. of the works	05	07	08	**20**	16	10	12	**38**
No. of the Completed works	05	07	07	**19**	14	05	11	**30**
No. of the works in progress	00	00	01	**01**	01	03	00	**04**
Tenders yet to be Invited	00	00	00	**00**	01	02	01	**04**

Status of Storm Water Pumping Stations in Brimstowad

Sr.No.	Pumping Station	Status
1	Haji Ali	Completed and Commissioned in May 2011
2	Irla	Completed and Commissioned in May 2011
3	Cleavland	Completed and Commissioned in May 2015
4	Lovegrove	Completed and Commissioned in May 2015
5	Brittannia	Completed and Commissioned in June 2016
6	Gazdarbund	Completed and Commissioned in June 2019
7	Mogra	A Contractor has been appointed and work is underway to obtain the necessary permissions from the competent authority for the work.
8	Mahul	The advanced possession of land has been given by Salt Commissioner of India for this project (for planning purposes only). The process of final possession of land is in process. A contractor has been appointed for this work and work of obtaining necessary permissions from competent authorities is in progress.

The total expenditure incurred on the BRIMSTOWAD Project till March 2025 is approx. Rs. 2,541.37 Crores. However, the increased width and depth of the drains due to changes in conceptual design, the need for unconventional technology for working on drains mainly in the tidal areas and the significant increase in the overall financial requirement due to encroachment issues during the period has required an additional funds of Rs. 2,700 Crore.

Environmental Aspect -

The cleaning of major nallas is carried out every year before the monsoon by inviting tenders through registered contractors. The scope of desilting work is divided into 80% of the estimated work is carried out before monsoon, 10% during the monsoon and 10% in the remaining period after the monsoon. Further, water inlets are also cleaned.

Underground storm water drains and deep chambers where cleaning is not possible by human entry are cleaned using drain cleaning machines. Storm water drains along the roads are cleaned using rodding and dredgers. Major nallas in the suburbs are cleaned using machines like JCB, Poclain, etc.

The pump sets are arranged to drain the water accumulated in low-lying areas due to heavy rainfall during high tide. This helps in the rapid drainage of rainwater. Also flood control valves are arranged at necessary places to prevent high tide water from entering urban areas. Apart from this, trash booms have been arranged on some nallas to prevent waste from urban areas from entering the sea.

The Brihanmumbai Municipal Corporation has undertaken rejuvenation work of Dahisar, Poisar and Oshiwara River. Said work is in progress.

River rejuvenation work includes widening of river, improvisation of quality of river water, preventing contamination of rivers caused from river catchment area, network of sewage disposal line, construction of service road for sewage water process stations, beautification of river bays / sides and installation of sewage water process station etc.

Development of Mithi River -

Government of Maharashtra vide GR No. MRD-3305/C.N.-109/UD-7 dtd. 19.08.2005 has formed 'Mithi River Development and Protection Authority' under the Chairmanship of Hon'ble Chief Minister of Maharashtra State for the effective implementation of Mithi River development Project. As per the said Government Resolution, out of total river length of 17 km, the development works for 11 km. length (between Filtarpada, Powai and C.S.T. Bridge, Kurla) have been carried out by Brihanmumbai Municipal Corporation whereas, the development works for remaining 6km. length (between C.S.T. Bridge, Kurla and Mahim Causeway) have been carried out by Mumbai Metropolitan Region Development Authority under the guidance of 'Mithi River Development And Protection Authority'. In Brihanmumbai Municipal Corporation Jurisdiction part of Mithi River, widening and deepening work is almost completed except the stretch between Kurla-Kalina Bridge and C.S.T. Bridge.

Till date, 96.00% of widening & deepening work and 95.50% of construction of retaining wall work have been completed for 17 km. long Mithi River, as a result two times the holding capacity and three times the carrying capacity of river has been increased. In order to control the Pollution Problem of Mithi River, Mithi River Pollution Control plan has been prepared. The said plan is being carried out in 4 package between Filtarpada, Powai to Mahim Causeway.

(2) Chief Engineer (Sewerage Project) :

Chief Engineer (Sewerage Project) department is divided into Dy. Chief Engineer (Sewerage Project) (Planning & Design Division) and Dy. Chief Engineer (Sewerage Project) (Construction Division).

The Sewerage System of Greater Mumbai is divided into seven Zones viz. Colaba, Worli, Bandra, Versova, Malad, Bhandup and Ghatkopar. In these zones the work of laying sewer line by traditional method (i.e. Open Cut) & trenchless technology. Dy. Chief Engineer (Sewerage Project) (Planning & Design) undertakes the work of Planning and Designing new sewer lines in unsewered areas and upsizing of existing sewer lines wherever required by invitation of tenders. The laying of these sewer lines are carried out by Dy. Chief Engineer (Sewerage Project) (Construction division).

During the financial year 2025-26 a revised budget provision of Rs. 752 Cr. (Rs. 352 Cr. Sewage Project + Rs. 400 Cr. Storm Water Drain) was made for sewage pipelines by the Sewage Project Department. Out of this, an amount of Rs. 581.96 Cr. (Rs. 294.53 Cr. Sewage Project and 287.43 Cr. Storm Water Drain) has been incurred on various works. For the financial year 2026-27, a budget provision of 960 Cr. (Rs. 400 Cr. Sewage Project + 560 Cr. Storm Water Drain) has been made for laying new sewer lines and upsizing the existing sewer lines, whereas required, at various locations in the City, Eastern Suburbs and Western Suburbs.

(3) Chief Engineer (Sewerage Operation) :

Brihanmumbai Municipal Corporation's Sewerage Operation Department carries out operation and maintenance of Sewerline Network, Sewage Pumping Stations, Sewage Treatment Plant and Waste Water Treatment facilities in seven zones of Mumbai City. Sewage is conveyed through sewerline network which is laid underground and collected at satellite pumping stations and after treatment of the sewage by eight sewage treatment plants, the sewage is discharged in nearby sea / creak.

Further, department's other major functions involves repairs and maintenance/ rehabilitation of sewer lines. Moreover department has also installed small decentralized 'Sewage Recycling Plants' within the premises of sewage pumping stations, for the reuse of sewage water for non potable purposes. The department also provide and manage transport services to the Water Supply and Sewerage departments.

1. Sewerage Infrastructure:

a. The sewage utility management centre of sewage operation department has carried out digitization of 2,120 km sewer lines Network, 4,638 vent shafts and 78,790 manholes in G.I.S.

b. There are 48 satellite sewage pumping stations of 3,790 M.L.D. capacity and 8 Terminal Pumping stations with installed capacity of 6,842 M.L.D. and around 1,525.76 M.L.D. of sewage is treated and disposed off daily.

c. There are 8 Sewage Treatment Plants at Colaba, Worli, Bandra, Versova, Malad, Charkop, Bhandup and Ghatkopar. The sewage from Colaba is treated up to tertiary treatment, Worli and Bandra is treated up to preliminary treatment and discharged in Arabian sea through deep Marine Outfalls. Sewage from Versova lagoons is treated up to secondary treatment. Charkop S.T.P. is treated up to tertiary treatment. Malad is treated up to preliminary treatment and disposed off in the Malad Creek while sewage from Bhandup and Ghatkopar Lagoons is treated up to secondary treatment and disposed off in the Thane Creek. The upgradation of existing treatment plants is undertaken by Mumbai sewage disposal Department and are scheduled to be completed in the year 2026-28. Therefore, till the completion of works of upgradation of existing sewage treatment plants undertaken by M.S.D.P. and also to meet the stringent norms stipulated by Hon'ble N.G.T., the treated sewage at Worli, Bandra, Ghatkopar, Bhandup, Versova and Malad is further treated by Bio-remediation technology. The treated sewage by Bio-remediation technology are meeting the norms stipulated by Hon'ble N.G.T.

2. Systematic Cleaning of Sewerage Conveyance System :

Department has an annual systematic cleaning programme where desilting of sewer line is carried out and periodic inspection of sewer lines are done so as to maintain undisturbed sewage flow and avoid overflowing sewage from manholes. Taking utmost safety precautions, the work of desilting of sewer lines is carried out by 'Mechanized' means to completely eliminate human intervention.

For effective functioning of sewer network works such as periodical inspection. removal of silt etc is carried out under systematic cleaning. The cleaning and maintenance of sewer lines is carried out in mechanized way without human intervention by using power Rodding Machines, Power Bucket Machines, Suction Machines, Jetting Machines, Recycler Machines, Grab Bucket Machines etc. Existingly, there are 90 nos. of vehicles mounted machinery and 10 nos. of Quick Response Vehicles. In addition to that 10 Quick Response Vehicles and 7 main sewer cleaning machines under PPP Model (Public-Private Partnership) are utilized for maintenance of sewer lines. Therefore, total 117 vehicle mounted machinery are used for maintenance of sewer lines.

Silt drying units each having capacity of 30 Ton per day are installed at Dadar for City division and at Versova and Ghatkopar for Suburb division.

3. Attending Complaints Pertaining to Sewerage Conveyance System :

The complaints pertaining to sewerage system are attended and resolved round the clock by three control rooms, situated each at City, Eastern Suburbs and Western Suburbs and it is closely monitored by the administration on daily basis. The control rooms are equipped with power rodding machines and quick response vehicles. The complaints are attended within 24 hours.

4. Sale of Sewage to Industries for Re-use after Treatment :

The B.M.C. has permitted tapping of sewage from Municipal Sewerage Network to certain industries for re-use and internal use on payment of necessary charges. This also generates revenue to the corporation and saves precious drinking water. Accordingly 45.4 M.L.D. sewage is supplied to M/s. Rashtriya Chemicals & Fertilizers (R.C.F.) at the rate of Rs. 7.20 per KL.

5. Sewage Recycling :

This department has installed & commissioned small capacity S.T.P.s in the premises of sewage pumping stations for recycle and reuse of sewage for non- potable purpose at various locations described below:-

I) S.T.P. of 01 M.L.D. capacity is installed at Love Grove Pumping Station, Worli. The treated is supplied to Wellingdon Sports Club at Rs. 40 per KL.

II) 1.5 M.L.D. capacity S.T.P. is installed at Banganga Pumping Station and treated sewage is supplied to Rajbhavan at a rate of Rs. 3.27 KL.

III) 0.3 M.L.D . capacity S.T.P. is installed at Dadar and treated sewage is used for gardening purpose at Pramod Mahajan Kala Park.

IV) 1 M.L.D. capacity S.T.P. is installed at I.P.S. Bandra and the treated sewage is used for gardening purpose in pumping station.

V) 06 M.L.D.capacity S.T.P. based on rotating bio-media reactor is installed at Charkop and the treated sewage is used for gardening purpose at Gorai dumping ground and gardens in nearby area.

VI) 37 M.L.D. S.T.P. is installed at Colaba pumping station under S.B.R. technology and is in operation from April-2020. Treated water 0.5 M.L.D. is given to Indian Navy at the rate of Rs. 1/- Per 1,000 Ltr. Also Sludge Treatment Plant is to be installed at Colaba Pumping Station through which 10 ton of sludge will be processed daily and converted to fertilizer for next 10 years and the revenue will be Rs. 20 per ton of sludge.

VII) 15 K.L.D. capacity S.T.P. is installed at Sant Gadge Maharaj Pumping Station, Byculla and the treated sewage is used for gardening purpose at Sant Gadge Maharaj Garden.

VIII) 15 K.L.D. S.T.P. is installed at Bhandup and the treated sewage is used for gardening in Bhandup pumping station.

IX) 15 K.L.D. S.T.P. is installed at Ghatkopar and the treated sewage is used for gardening in Ghatkopar pumping station.

X) 10.3 M.L.D. capacity S.T.P. is installed at Mahul S.T.P. and 1 M.L.D. treated sewage is supplied to H.P.C.L. at the rate of Rs. 8.72 per KL.

XI) 2 M.L.D. capacity S.T.P. is installed at Videocon Atithi, Chembur and treated sewage is supplied to H.P.C.L in future. Current treated sewage is unutilized.

XII) In Storm Water Drains Department at Dadar, there is Sewage Treatment Plant of capacity 100 KLD. Treated Sewage ar STP is used in the vehicles of SWD Department for jetting purpose.

6. Rehabilitation of Sewer Lines :

This department is carrying out work of rehabilitation of old dilapidated sewer lines and rising mains of pumping stations by trenchless technology to improve structural strength of sewer lines, hydraulic performance and enhanced useful life of sewer lines and rising mains. Presently, rehabilitation of 96.28 km of sewer lines has been completed. Also, work orders have been issued for rehabilitation of 97.4 km of sewage lines and the works will be completed by May 2027.

7. Recent Developments :

I) Work of installation of odour control systems at various pumping stations have been completed.

II) Work of improvement of performance of pumping stations by using Artificial Intelligence is ongoing and now it is at the commissioning stage.

III) Maintenance of sewer lines with the help of vehicle mounted machineries is being carried out under P.P.P. (Public-Private-Partnership) model.

IV) Sludge Treatment Plant is to be installed at Colaba Pumping Station through which 10 ton of sludge will be processed daily and converted to fertilizer for next 10 years and the revenue will be Rs.20 per Ton of sludge.

(4) Chief Engineer (Mumbai Sewage Disposal Project) :

The Sewerage System of Mumbai is in existence from British era. The present system consists of collection, conveyance, treatment and disposal of sewage with 2,026 k.m. of Sewer Line, 74,682 Manholes, 40 Satellite Pumping Stations, 7 Terminal Pumping Stations and 7 Waste Water Treatment Facilities (WwTF). There are seven sewerage zones viz. Colaba, Worli, Bandra, Versova, Malad, Bhandup and Ghatkopar. At Colaba the sewage is treated upto secondary treatment and released into the deep sea through marine outfall. There is facility of tertiary treatment at Colaba, Worli and Bandra sewerage zones are provided with Preliminary Waste Water treatment facility and effluent is discharged into deep sea through marine outfall. Versova, Bhandup and Ghatkopar sewerage zones are provided with preliminary treatment facilities and aerated lagoons and the treated effluent is discharged into creek. At Malad, the effluent is discharged into the Malad creek after preliminary treatment.

As a part of upgradation of WwTFs, the new Colaba WwTF having capacity of 37 M.L.D. is commissioned in April 2020 and put into operation. At present, 10 M.L.D. of treated waste water is available at Colaba WwTF for reuse.

Worli (500 M.L.D.), Bandra (360 M.L.D.), Dharavi (418 M.L.D.), Versova (180 M.L.D.), Bhandup (215 M.L.D.), Ghatkopar (337 M.L.D.) and Malad (454 M.L.D.). WwTFs will have preliminary treatment, secondary biological treatment and disinfection facilities. 50% of total plant capacity will have treatment upto tertiary level for reuse purpose. All the works have been started and are in progress. In January 2023, 8 M.L.D. Sewage Treatment Plant under Mithi River Package - 1 is commissioned and operation & maintenance of the same is started.

Beside this, following works are also in progress -

1. **Versova Sewer Tunnel :** The work of sewer tunnel of 2000 mm dia from existing Versova Pumping Station to New Versova Influent Pumping Station is in progress. The Length of Sewer Tunnel is 3.1 km. Physical progress of work is 99%.

2. **Mithi River Sewer Tunnel :** The work of sewer tunnel of 2600 mm dia and 6.7 km. length to carry dry weather flow from Bapat Nalla and Safed Pool Nalla upto Dharavi WwTF is in progress. Physical progress of work is 96.80%.

3. **Priority Sewer Tunnel - 1 :** The work of sewer tunnel of 3200 mm dia and 5.9 km. length from Don Bosco School in 'R/Central' ward to New Malad Influent Pumping Station in 'P/North' ward by Segmental lining method is in progress. Physical progress of work is 84%.

4. **Priority Sewer Tunnel - 2 :** The work of sewer tunnel of 2600 mm dia and 4.8 km. length from Goregaon Pumping Station to New Malad Influent Pumping Station by segmental lining method is in progress. Physical progress of work is 67.15%.

5. **Malad Pumping Station -** Work of construction of 1580 M.L.D. capacity Malad Influent Pumping Station is in progress. Physical progress of work is 77%

6. **Versova Pumping Station -** Work of construction of 540 M.L.D. capacity Versova Influent Pumping Station is in progress. Physical progress of work is 88%.

7. **Bhandup Pumping Station -** Work of upgradation of Bhandup Pumping Station is in progress .Physical progress of work is 99%

8. **Ghatkopar Pumping Station -** Work of upgradation of Ghatkopar Pumping Station is in progress .Physical progress of work is 84.30%

After commissioning of these priority sewer tunnels Gorai Pumping Station, Charkop Pumping Station, Shimpoli Pumping Station, Malad Pumping Station and Goregaon Pumping Station will be decommissioned and expenditure on Operation & Maintenance of these pumping stations will be permanantly saved. The incoming Sewage flow to these pumping stations will be diverted to Priority sewer tunnel 1 & 2 and carrying capacity of sewage will be increased. Thereby, sewage load in surrounding sewer lines in Borivali to Goregaon area will be decreased and capacity of sewer lines will be increased.

(5) Chief Engineer (Roads & Traffic)

1) Road Reforms :

Road is an important basic and visible amenity. BMC maintains and preserves roads of approximately 2118 km length. Mumbai being economic backbone and global face of the Country, it is necessary to make road infrastructure sustainable, durable and environment friendly with international standards.

The work of concretization of 700 km of roads has been undertaken in two phases. Out of this, concreting of 355 km of roads has been completed and remaining work is in progress. Till date, approximately 1566 km of roads/roadside strips have been improved with cement concrete.

Traffic :

2) Traffic Engineering :

The work of Traffic Planning and Traffic Co-Ordination Department is carried out under the control of Dy. Ch. Eng. (Traffic) who work under Ch. Eng. (Roads & Traffic). The department approves the parking design required for the proposed development on private and government land through an online system. This office looks after the matters pertaining to prescription of regular line of road under the Municipal Corporation Act, 1888 for widening of roads under the Municipal Corporation. Also, installation and maintenance of traffic signals on roads, installation of street name boards and directional boards, provision of traffic related facilities on roads, inviting tenders for operationalization of parking after the transfer of public parking to the Municipal Corporation. This department looks after the installation of various traffic amenities for smooth traffic movement, in co-ordination with traffic police.

3) Parking Policy :

In order to avoid traffic congestion due to unauthorized parking on roads tender procedure has been initiated for execution of on-street and off-street parking schemes. The contractors have been appointed for 61 pay & park scheme. Similarly out of 36 Public Parking Lot, contractors have been appointed for 35 sites and are in operation, which have been handed over to Brihanmumbai Municipal Corporation (B.M.C.) under

DC Regulation No. 33 (24) of 1991 and Regulation No. 33 (18) of DCPR 2034. There are 29 nos. of amenity parking places handed over to Brihanmumbai Municipal Corporation.

4) Scrapping of Abandoned Vehicles :

At present, in Mumbai metro and other infrastructure works are in full swing, as a result, the roads are either completely closed or some lanes are closed for traffic. Sometimes traffic has to be diverted. In such a situation, if there are abandoned vehicles on the road it causes traffic congestion. To take action against abandoned vehicles this office has appointed contractor for Identifying and Scrapping abandoned vehicles. This will help in movement of traffic smoothly.

5) Multilevel Robotic Car Parking :

BMC has appointed contractor for the capacity of 194 vehicles robotic multilevel parking at Flora Fountain (Hutatma Chowk) near Apsara Pen Shop in 'A' Ward. Also contractor appointed for the capacity of 640 Four Wheeler & 112 Two Wheeler multilevel robotic car parking at Worli Engineering Hub in 'G/South' ward. Accordingly, parking capacity of around 834 Four Wheeler & 112 Two Wheeler will be available in near future.

6) Initiative on Road Safety & High Risk Intersection (Black Spots) :

As reported by the traffic police, 45 High Risk Intersections (black spots) in Brihanmumbai in 2022. The aim is to review the High Risk Intersections (black spots) for conducting various engineering and traffic flow studies and to undertake appropriate engineering and planning interventions that can bear higher impact in saving lives on the road. Accordingly, N.G.O. and their partner have submitted the report to the Chief Eng. (Roads & Traffic). As per the said report, the concerned Deputy Chief engineer (Roads) and concerned Ward Offices will take the necessary action onremedial measures. Also, in future, if traffic police informed the High Risk Intersections (Black Spots), the same procedure will be followed for eradicate High Risk Intersections (Black Spots). Invitation of tender is in process for the improvement of Black Spot.

7) Area Traffic Control (ATC) :

At present 258 Signals in Greater Mumbai has already been converted into fully adaptive automated Signal System and are working satisfactorily. The maintenance of remaining 427 conventional system and 184 flashing beacons are being carried out.

(6) Chief Engineer (Bridges) :

1. Reconstruction of Bellasis (Road over Bridge)

The 130 year old Bellasis Bridge is a vital link in South Mumbai connecting Nagpada area with Tardeo area. The reconstruction of Bridge over the railway portion is carried out by Western Railway & approaches was undertaken by BMC.

The Bridge work is completed on 6th January 2026 and opened for traffic from 26th February 2026 with inauguration at the hands of Hon. Chief minister of Maharahtra State.

The rebuilt bridge restored crucial east-west connectivity, easing traffic congestion at Mumbai Central Railway Station, Nagpada, Grant Road, Tardeo, etc.

2. Gopal Krishna Gokhale Bridge :

This department has reconstructed Gopal Krishna Gokhale ROB at Andheri, The Railway and Municipal portion both are constructed by Brihanmumbai Municipal

Corporation in consultation with Western Railway and under supervision of R.I.T.E.S. The total length of bridge is 510 meters and width of the bridge 13.5 meters (3 lanes on each side). In this the huge two Open Web Girders of 1300 MT each has been launched in railway portion and completed. Simultaneously in this work the old Barfiwalla Bridge both lanes has been lifted and connected to the newly constructed Gokhale Bridge successfully. Both these works are unique and challenging which has been completed by Brihanmumbai Municipal Corporation simultaneously. The Ghokhale Bridge has vital importance in Western Suburbs and due to opening of this bridge the traffic jams from Santacruz to Jogeshwari will be considerably reduced. The phase I of this bridge is completed and opened to L.M.V. traffice on 26th February 2024 and phase 2 of this bridge is completed on 30th April 2025. The said bridge is commissioned in full capacity from 11th May 2025.

3. Extension of the flyover from SCLR to LBS Road at Kurla (W) in 'L' Ward :

The project focuses on extension of the flyover up to LBS marg, which starts at MTNL junction in BKC and merges to SCLR flyover (Santacruz-Chembur Link Road) in 'L' Ward for establishing new connectivity, at a total cost of Rs.29.84 crore. The flyover measures 246 meters in length and 5.5 meters in width, and was opened to vehicular traffic on 21st January 2026.

The construction involved the challenging task of launching a curved span over the heavily trafficked LBS Road junction. Notably, the project is completed 11 months ahead of the schedule. This flyover will benefit commuters traveling from BKC by helping them bypass three traffic signals and ensuring smoother connectivity to Ghatkopar via LBS Road ultimately saving both time and fuel.

4. Construction of 18.30 m wide DP Road across Dahisar River connecting River Valley Road to Rangnath Keskar Road, Dahisar (West) in 'R/North' ward

A bridge of 18.30 meters width has been constructed over the Dahisar River connecting River Valley Road to Ranganath Keskar Road, in accordance with the approved Development Plan (DP) 2034. This bridge has been constructed as per the orders of the Hon'ble High Court. At present, the bridge benefits residents of River Valley Society, Panchsheel Nagar, and nearby institutions such as St. Francis School and Rustomjee Cambridge International School, as well as people living in the surrounding areas. It also provides a direct and uninterrupted connection to the emergency department of Bhagwati Hospital. The Bridge measures 47.70 meters in length and 22.10 meters in width, and was opened to vehicular traffic on 14th March 2026.

5. Reconstruction of existing Bandra East Skywalk from Bandra station to MHADA office, W.E. Highway in 'H/East' Ward:-

The reconstruction of the existing Bandra East Skywalk, connecting Bandra Railway Station to the MHADA Office across the Western Express Highway, was undertaken by the Brihanmumbai Municipal Corporation (BMC). The skywalk has a total length of 680 metres and an average width of 5.40 metres. It is equipped with 2 escalators, 4 staircases, and 14 CCTV cameras to facilitate safe and convenient pedestrian movement.

The project was completed on 31st December 2025 and was opened to the public on 26th January 2026.

The facility has also contributed substantially to reduce congestion on Anant Kanekar marg, as a large number of pedestrians now utilize the skywalk instead of crossing through vehicular traffice corridors.

6. VIKHROLI (ROB) -

This office has proposed the work of construction of ROB in lieu of L. C. no. 14C at Vikhroli Railway Station (Excluding Railway span and slip road). The work of railway portion of ROB is constructed by Central Railway and Approaches work of ROB is constructed by Brihanmumbai Municipal Corporation. The width of Bridge is 12 M and total length of Bridge is 615 M including Railway span. This bridge is built near Vikhroli station abutting to a school which made the construction of Bridge as well as launching of MS girders in S shape is very challenging Job.

Vikhroli ROB is the best connectivity of L. B. S. Marg at West side and Eastern Express Highway at East side. Due to this ROB surrounding periphery of 5 Km area at East and West side will be connected and traffic flow is also regulated by this Bridge. Vikhroli ROB is opened for traffic movement from 14th June 2025.

(7) Department of Chief Engineer (Mechanical & Electrical)

The Chief Engineer (Mechanical & Electrical) Department provides necessary services to hospitals, maternity homes, dispensaries, schools, ward offices, markets, parks, playgrounds, crematorium, fire stations and other municipal establishments as per their demands. The department carries out maintenance and repair, installation, testing and commissioning of various types of diesel generator sets, water pumps sets, fire fighting systems, EPABX systems, sound systems, electricity and PNG boilers.

Materials like cast iron manhole frames and covers, handcarts, tree guards etc. are manufactured for various departments in the Municipal Corporation workshop by the skilled workers of the department and supplied to various departments as per requirement. Also hospital clothes washing is also gets from the Municipal Corporation Power Laundry. Installation, testing, commissioning and maintenance of air conditioning system, lift, computer and LAN networking works, electrical installation, fire prevention works and other mechanical and electrical equipment are done by the department staff as well as private organization.

(8) Conservancy Services

Solid Waste Management Department :

Removal of Dead Animals :

For the removal of dead animals if the proper address of the place where the dead animals is located is given, then the Assistant Commissioner of concerned ward and the following officers of solid waste management department will take action.

The following offices of Solid Waste Management Department and give the exact address from where the dead animals are to be removed :-

(i) Head Supervisor, Solid Waste Management Office, Khatav Market Building, 4th floor, Near Aavishkar Society, Sletar Road, Near Grant Road Station, Grant Road (West), Mumbai - 400 008.

(ii) Citizens may also contact to remove dead animals to the Manager, Kora Kendra, Shimpoli Road, Borivali (W), Mumbai - 400 092, Tel. No. 28980782 and 28980972 and to the Secretary, Mumbai Khadi & Village Industries Association, Khadi Emporium, 286, D.N. Road, Fort, Mumbai - 400 001. (Tel. No. 43474991-99 and Fax No. 43474991/92/93.)

Municipal Solid Waste (Management & Handling), Cleanliness and Sanitation Bye Laws, 2026:-

The Municipal Solid Waste (Management & Handling), Cleanliness and Sanitation Bye Laws, 2026 of the Brihanmumbai Municipal Corporation (BMC) were prepared in February 2026 to replace the earlier 2006 sanitation framework and establish a comprehensive regulatory structure for solid waste management in Mumbai. These bye laws apply to all waste generators across the city, including residential, commercial, institutional, industrial, and public spaces, ensuring a uniform and enforceable system for maintaining cleanliness and sanitation.

The bye laws focus on regulating the entire lifecycle of waste management, beginning with the prohibition of littering and prevention of public nuisances, and emphasizing the need to maintain cleanliness in all premises, described as ensuring a "clean aangan/premises/place." A key operational requirement is the segregation of municipal solid waste at source, along with proper storage, handling, and delivery of waste to authorised municipal systems, forming the core of organized waste processing and disposal. The bye laws also provide structured provisions for handling various categories of waste, including solid waste, biomedical waste, e-waste, plastic waste, and construction and demolition waste, ensuring that each type is managed according to specified procedures and environmental standards.

An important aspect of these bye laws is the clear definition of roles and responsibilities. Waste generators are required to maintain cleanliness, segregate waste, and hand it over as prescribed, while following guidelines for different waste types. The BMC, along with its agents and contractors, is responsible for providing infrastructure and services related to collection, transportation, processing, and safe disposal of waste, as well as ensuring compliance and enforcement throughout the city. In certain situations and waste categories, responsibilities are shared between the generators and the municipal authority to ensure proper management. The bye laws also introduce strict enforcement mechanisms, including enhanced penalties for offences such as littering, non-segregation, and improper disposal, along with provisions like user fees for waste collection services, aimed at improving accountability and financial sustainability. Overall, the SWM Bye Laws, 2026 establish a detailed, enforceable, and city-specific framework focused on cleanliness, segregation, defined accountability, and scientific waste management to improve sanitation standards in Mumbai.

SCHEDULE OF PENALTY

Sr No.	Description of Bye- law	Amount of fine if the offence is committed for the first time (per instance)
1	Littering on roads/ streets/ Footpaths, Gardens/ Public areas	₹.500/-
2	Spitting	₹.250/-
3	Bathing (Open and public spaces)	₹.300/-
4	Urinating	₹.500/-
5	Defecating	₹.500/-
6	Feeding animals/birds (at Open spaces and public spaces which will create nuisance spots i.e feeding birds along the major streets, feeding cows, dogs on footpaths etc.)	₹.500/-
7	Washing utensils / clothes / any other objects in pubic places	₹.300/-
8	Washing Vehicles	₹.500/-
9	For the first offence of delivering waste that is not segregated and not stored in separate bins:	
	Individual	₹.200/-
	Bulk Generator	₹.1000/-
10	For not maintaining Clean Aangan:	
	for owners/ occupiers of single premises	₹.500/-
	for others	₹.1500/-
11	For indiscriminate dumping of Construction & Demolition waste at unauthorized or non- designated sites.	₹.20000/- per vehicle
12	For transportation of Construction & Demolition without approved plan by zonal EE(SWM)	₹.25000/- per vehicle
13	For not delivering “dry” waste in a segregated manner as specified	₹.200/-
14	For not delivering garden waste and tree trimmings as specified	₹.200/-
15	For Burning of waste	₹.10000/-
16	For not delivering (non-household) fish, poultry and meat waste in a segregated manner, as specified	₹.750/-
17	For a vendor / hawker without a container / waste basket/ dustbin	₹.750/-
18	For a vendor / hawker who does not deliver waste in a segregated manner as specified	₹.750/-
19	For not keeping a house gully clean	₹.500/-
20	For littering/defecation by pet / owned animals	₹.1000/-
21	For not cleaning-up after public gathering / event within 4 hours	Forfeiture of the cleanliness deposit

Deonar Dumping Ground :-

As per the Hon'ble High Court's order, 5 members Monitoring Committee has been consitituted for monitoring the operation and maintenance activities at Deonar Dumping Ground, especially the safety measures. The day to day activities of Deonar Dumping Ground is being carried out as per the directions of the said Monitoring committee.

Presently, Deonar Dumping Ground is receiving approx. 500/600 M.T. M.S.W. per day. Approximately 10 % of the total waste generated within the limits of Brihanmumbai Municipal Corporation is received at Deonar Dumping Ground. The waste received at Deonar Dumping Ground is being disposed off in a conventional manner.

1. Brihanmumbai Municipal Corporation has provided a tractor-mounted spraying system to reduce the insects, flies and foul smell at Deonar Dumping Ground. This system sprays water-mixed deodorant on daily basis. Due to this measures, good results are seen at the said surrounded area. Also, water tankers have been provided to control the fire & smoke generated at Deonar Dumping Ground and the same are used as and when required. Also, the Water tankers are daily used for sprinkling water to reduce the dust particles at Deonar Dumping Ground & it's surrounded area. Thus, it helps to reduce the pollution in the surrounding area of Deonar Dumping Ground.
2. In order to release the landfill gases trapped in the dump, a special purpose pipes are installed in the waste at Deonar Dumping Ground which releases the entrapped gasses. As a result, the frequency of repeated fire incidences at Deonar Dumping Grounds has been significantly reduced.
3. In order to monitor the pollution level at Deonar Dumping Ground, the Air Quality Monitoring and Research Laboratory of Brihanmumbai Municipal Corporation conducts air survey on monthly basis.
4. Due to various measures taken by Brihanmumbai Municipal Corporation as mentioned above, it is helping to reduce the air pollution and foul smell at Deonar Dumping Ground and the citizens of the surrounding area of Deonar Dumping Ground are facing healthy environment.
5. As per the order received from Government of Maharashtra, Brihanmumbai Municipal Corporation is invited tender for Biomining of legacy waste accumulated at Deonar Dumsite.
6. Additionally, a project is being developed at the Deonar Dumping Ground for processing approximately 600 metric tonnes of municipal solid waste per day using scientific methods and generating energy from waste. The work on this project is in progress, and it is expected to become operational from June 2026.

Further, the Revenue and Forest Department, Government of Maharahtra, vide letter 2624/No. J-3 dated 24.01.2025, has requested the Municipal Corporation of Greater Mumbai to scientifically process the land at Deonar reserved for the dumping ground and restore it to its original condition. In accordance with the provisions of the Solid Waste Management Rules, 2016, a tender has been floated for the bioremediation of approximately 185 lakh metric tonnes of legacy waste at the Deonar Dumping Ground.

The scope of the project includes biomining, resource recovery, and scientific remediation. As a result, the land occupied by the dumping ground will be made available for future civic amenities. Moreover, the removal of legacy waste will help address issues such as pollution, public health concerns, emission of harmful gases, and leachate discharge, thereby providing significant long-term benefits.

Accordingly, a tender has been invited for the bioremediation of legacy waste, with a contract period of three years. The Letter of Acceptance was issued to the appointed contractor on 10.10.2025, and the process of obtaining necessary environmental and regulatory clearances for the project is currently in progress.

Thus, the Brihanmumbai Municipal Corporation is making continuous efforts to ensure 100% scientific processing and disposal of the waste generated within its jurisdiction and received at the dumping grounds.

Kanjur MSW Processing Site :-

As per orders of Hon'ble High Court, Mumbai and Hon'ble Supreme Court, the Government of Maharashtra handed over a plot admeasuring 141.77 hectares area at Kanjur to B.M.C. on 24.10.2005 for developing M.S.W. disposal site. Out of said 141.77 Ha. area, mangroves area admeasuring 23.36 Ha. was retained by the Government of Maharashtra vide notification dt. 02.04.2012.

Kanjur M.S.W. Processing facility has received Environment Clearance from State Environment Impact Assessment Authority Maharashtra (S.E.I.A.A.) on 05.12.2014 for 65.96 ha. non C.R.Z. area.

Further, Kanjur M.S.W. Processing facility has received Environment Clearance from State Environment Impact Assessment Authority Maharashtra (S.E.I.A.A.) on 29th October 2018 for scientific processing of MSW in the 52.45 ha. of C.R.Z. - III area. Renewed authoriaztion from M.P.C.B. is received on 23rd August 2022. Accordingly, total 118.41 ha. of land is available at Kanjur M.S.W. Processing facility.

At present, processing of about 5,300 T.P.D. of M.S.W. with bioreactor technology and about 1,000 T.P.D. of M.S.W. with windrow composting technology is being carried out at Kanjur M.S.W. Processing facility.

The Ch.E.(SWM) Project department report regarding scientific processing of MSW generated in Mumbai is as below:-

1. **Development of Waste to Energy (WTE) Project at Deonar-**

   Work of Waste to Energy Project is awarded. About 600 TPD MSW will be processed scientifically and about 8 MW energy will be generated from this project. Consent to Establish (CTE) has been received for the project on 04.06.2022 from MPCB. Project is expected to be commissioned by 30.06.2026.

2. **Project of Dumpsite Reclamation at Mulund Dumping Ground(MDG) in Mumbai by adopting suitable technology for existing garbage dump-**

   Work of Dumpsite Reclamation at Mulund Dumping Ground (MDG) is awarded to the contractor. After obtaining required clearances and

mobilization of equipments and machineries, commencement of the project is started from 01.10.2019. Till date (22.04.2026) contractor has scientifically processed and disposed off about 59,90,844 MT of legacy waste.

3. **Collection, Transportation, Processing & Disposal of Construction & Demolition (C & D) Waste in Mumbai-**

The BMC scientifically processes 1200 TPD of C & D waste. 2 plants of 600 TPD for Processing of C&D Waste has been commissioned in Nov 2024.

The work consists of Collection, Transportation , processing & Disposal of C&D Waste

4. **Scientific processing and disposal of waste at village Karavale, near Taloja -**

As per Hon'ble High Court vide its order in PIL No. 217 of 2009, Government of Maharashtra has allotted about 52.10 Hectares at village karavale, Tal.- Ambernath, Dist - Thane to B.M.C. for Solid Waste Management Project. Out of this 39.90 Hectare land is government land and 12.20 Hectare is private land. Out of total 52.10 Hectare land, 35.82 Hectare lands is useful for the B.M.C. (i.e. 29.715 Hectare Govt. land and 6.105 Hectare of private land) due to alignment of Alibaug Virar Corridor and the G.A.I.L. Pipeline passing through the designated plot. Out of 39.90 Hectare Govt. land advance possession of Govt. land admeasuring 38.81 Hectare is given to B.M.C. on 18.01.2016. The physical possession of Government land admeasuring about 12 Hectare has been taken over by B.M.C. from Tahsildar Ambernath on 16.02.2019. Acquisition of remaining Govt. land and about 6.105 Hectare private land is being carried out through Collector Thane District.

Slum Sanitation Programme :

- The Slum Sanitation Programme was launched in 1997 with financial assistance from the World Bank and is a component of the Solid Waste Management Department. The Main objective of the program is to provide improved and sustainable toilets to the slum dwellers.
- Under the said program, it is intended that the slum dwellers should be involved in the planning, conceptualization and construction of the toilets and the daily cleaning and maintenance of the constructed toilets should be done by local residents through public participation. The toilets constructed under the program are handed over by the Brihanmumbai Municipal Corporation to the registered organizations of the local slum dwellers after completion of construction for use on completion of Memorandum of Understanding (M.O.U.).
- Also according to the availability of space, old dilapidated toilets are demolished and double-storied toilets with higher capacity are constructed there. In the meantime, to avoid inconvenience to the residents, before demolishing the old toilets, temporary toilets are constructed for the use of slum dwells or mobile toilets are made available through the office of the Chief Engineer (S.W.M.)

- In the year 2016 and 2019, tender with project cost of Rs. 920.79 crore was invited for construction of community toilets under Lot-10 and Lot-11(R).173 Toilet blocks along with a total of 4186 toilets seats were constructed under Lot-10 and 831 toilets blocks with a total of 19,769 toilets seats were constructed under Lot-11 (R) contract. For this, a total project cost of Rs. 878.80 crore was spent for community toilets constructed under Lot-10 and Lot-11 (R) till 31st March 2026.
- In the year 2023-24, & 2024-25, 30 tenders have been invited and contractors have been appointed for construction of 594 community toilets blocks with 15,144 toilet seats in various slums of Mumbai under Lot 12 with total project cost of Rs. 585.81 crores. Out of which Rs. 125.64 crores have been spent till dt. 31.03.2026. There is budget provision of Rs. 136.22 crores for year 2026-27.
- Tenders were invited and Contractors were appointed for construction of Aspirational toilets at places of touristic, religious and culturally importance in Mumbai city. At present , the work of construction of 7 Aspirational toilets are undertaken out of which work of 5 Aspirational toilets are completed and 2 Aspirational toilets are commissioned for use of citizens.

(Civil) SWM:

In Mumbai City and Suburbs there are 46 Colonies for Conservancy Staff of Solid Waste Management departtnent of Brihamnumbai Municipal Corporation (BMC) where approximately 5592 workers are residing. Minor repair works of SWM Staff Quarters, Repair and renovations of the Chowkies, Repairs of the Garage Buildings and electrical works are being carried out by the department of Dy.ChE (C) SWM.

ASHRAY YOJANA CELL:

Brihanmumbai Municipal Corporation is proposed to redevelop 31 colonies out of 46 existing colonies of conservancy staff with extended area (300 sq.ft.) by using 4.00 FSI under Ashray yojana Cell, to provide service quarters approximately to 27900 conservancy staff in SWM Dept of BMC.

The redevelopment work is completed in phase-I at Cochin Street in 'A' Ward, Siddharth Nagar in E ward & Powells Land in 'R/S' Ward. This redeveloped places/colonies were handed over to HS (SWM) department.

The redevelopment work of phase I at Tank Pakhadi in city in E Ward, Gautam Nagar in F/S Ward are in progress. Moreover in western suburbs at new Hasnabad lane in H/W ward the removal of encroachment of hutments is in progress. For the redevelopment work at Cochin Street in A Ward (Phase-II), work order have already been issued to the contractor and the work is in progress. Similarly, the tendering process for redevelopment work at P. L. Lokhande marg in 'M/W' ward (Phase-II) is in progress.

Contractors and project management consultants have been appointed to redevelop 31 colonies of conservancy staff across the city, eastern and western suburbs, comprising approximately 10,691 units of 300 sq. ft. and 767 units of 600 sq. ft. redevelopment work is currently underway at 24 of these locations. At the remaining 05 locations, processes such as relocating the tenement holders and obtaining necessary approvals and No-Objection Certificates (NOCs) from various departments and authorities are in progress.

(9) Development Plan :

Online Development Right Certificates :

Development Plan Department has implemented the online system from 05th April 2021 for scrutiny Development Right Certificate (D.R.C.s). The developer / owner can submit their proposals for Transferable Development Rights (T.D.R.) online which are scrutinized and approved online through the said system. Thus, generation and utilisation of the T.D.R. is also done online through said system.

Online Town Planning Remarks :

The remarks regarding plots in Town Planning schemes are now made available online on Brihanmumbai Municipal Corporation portal from March 2021. The T.P. remarks can be downloaded after payment of prescribed fees by applicant.

Online Gorai and Manori Remarks :

The Development Plan of Gorai and Manori is prepared by M. M. R. D. A. which is sanctioned by State Government. Development Plan department has made available online D. P. remarks of Gorai and Manori D. P. from March 2021.

Building Plan Approval Management System and Auto D. C. R. Scrutiny :

The Building Proposal department sanctions Building plans by way of online Single Window Clearance. The applications for Building Proposal approval are accepted and processed online. The accepted and approved proposals, are available for viewing online and can de downloaded for the information of the citizens alongwith attached documents. The proposals, documents, along with approvals are routed through single window clearance system (S.W.C.S.) to departments involved in issuing the building permission. The proposals of Building Proposal Department are accepted and approved online.

Sanctions issued through digital signature certification can be downloaded and Printed.

Auto D.C.R. system is updated and made consistent for various users. The system is connected to Maharashtra State Government 'Revenue'and 'Mahakhanij' department. By which developers can avail online C.T.S. Plans, P. R. cards and excavation N.O.C. from Collector office necessary for approving system. This system is also connected with C. A. (Finance) department for online audit of Building approval files. The Trench permission, permanent tap connections etc. are also connected with this system.

Recently changes have been made in Auto D.C.R. application regarding Estate department, in which facility has been provided to obtain online N.O.C. for redevelopment of Lease hold and Municipal tenanted properties.

The Brihanmumbai Municipal Corporation is currently developing a system to streamline the building proposal approval process using 'Artificial Intelligence', becoming the first Municipal Corporation in the country to do so. Artifical Intelligence into AutoDCR application for Building proposal approval proposed to enhance automated scrutiny, improve compliance checks, detect rule deviations and increase processing accuracy and efficiency.

Development Plan G.I.S.

Facility has been provided in mobile app (MCGM Development Plan) to view 'Sanctioned Revised Development Plan (S.R.D.P.) 1991' and 'Sanction Revised Development Plan (S.R.D.P.) 2034'. In which we can see location base D.P. and overlay can be done on google map.

High Rise Building Proposals :

The Government of Maharashtra vide Notification No. TPB-4317/629/CR-118/2017/DP/UD-11 dated 08-05-2018 has 'Sanctioned Development Control and Promotion Regulation - 2034' & subsequent excluded parts vide Notification No. TPB-4317/629/CR-118(III)/2017/EP(DCPR)/UD-11 dtd 21.09.2018. Said Excluded parts has come into force from 13-11-2018. The regulation 19 (2A) of 'Development Control and Promotion Regulation - 2034' which was in excluded parts as EP-43 sanctioned vide Notification dtd. 21.09.2018. As per the regulation, The Municipal Commissioner shall constitute a 'Technical Committee for High-Rise building' to advise on issues related to High-Rise Buildings having height more than 120 Mtr. or any building having slenderness ratio 9 or more, irrespective of height of building.

Accordingly, a Committee under Chairmanship of a Retired I.A.S Officer is constituted on 25-02-2019 and the same is now reconstituted on 12.01.2023. The N.O.C. is issued after approval of Hon'ble Municipal Commissioner by obtaining clearance from the said Committee regarding proposal of high rise building.

TDR Exchange :

To strengthen implementation of the Development Plan and provide clarity on purchasing T.D.R.s for landowners, a streamlined and transparent platform is being developed.

❖ **E. T.D.R.System :**

In accordance with the Government of Maharashtra directive dated 22.05.2024, Brihanmumbai Municipal Corporation is establishing the 'E-T.D.R System' for electronic T.D.R. trading.

The palatform will facilitate buying and selling of T.D.R.s and manage financial transactions through designated nodal bank. The system will be hosted on commercial cloud platforms like Axure, AWS or Google Cloud, and will fully comply with MEITY approved standards.

Implemented on SaaS model, this initiative will boost T.D.R. demand, enhance municipal revenue and support efficient Development Plan execution.

Marking of Amenities in Sanctioned DP-2034 :

All Dp-2034 amenities received by BMC have been geo-referenced and made available on the DP-GIS platform.

Detailed amenity information such as type, area and location is accessible on the BMC portal.

CRZ Remarks :

Brihanmumbai Municipal Corporation (B.M.C.) has developed a new online module aimed at facilitating the process of seeking Coastal Regulation Zone (CRZ) remarks. The initiative is in alignment with the 'Sanctioned Development Plan 2034' and the Sanctioned Revised Development Plan 1991.

Also, Brihanmumbai Municipal Corporation has successfully developed switch tabs in the tables of Contents (T.O.C.) functionalities, allowing users to view the C.Z.M.P. 2019 map in conjuction with the D.P. 2034.

(10) Civic Training Institute & Research Centre:

The Civic Training Institute & Research Centre caters to the training needs of Brihanmumbai Municipal Corporation (B.M.C.) employees to improve their efficiency Brihanmumbai Municipal Corporation (B.M.C.) and to improve the level of basic service delivery to the citizens of Mumbai by means of capacity Building of Municipal Employees, through technical / administrative / Computer, Personality and Skill Development oriented trainings. The Civic Training Institute & Research Centre has been established in 1986 at its present campus of over 13 acres area Near Sanjay Gandhi National Park, Borivali (East).

As per requirement of various departments customized training and refresher courses are arranged (example : PCO, Shops & Estt., H.R. etc.). Further induction training programmes are arranged for newly recruited municipal employees for

introducing them to working of various departments. Special external courses through renowned training institutions are also made available for Municipal employees regularly.

In order to implement Municipal Corporation's present policy of Office Automation and computerization, two Computer Labs with 25 computers each having SAP connectivity have been set up. Along with computer Basic, Internet and Browsing Techniques training programme on S.A.P. Module, C.P.W.M. Modules are also organised, besides user I.D. management training programme for preparing various User Ids such as S.A.P. User I.D., Domain I.D., Email I.D., C.P.W.M. I.D., Transfer of I.D.'s, Additional charge of user I.D.'s, Mahatender Training of e-tendering & H.R., S.A.P. M.M. Modules, Libre Office Writer, Libre Office Calc etc. have been introduced.

As regards Mechanical & Electrical training programmes, on special topics such as H.V.A.C. facilities & its design consideration in infection control, Green Energy (Solar Photovoltaic Cell), Medical Gas/oxygen system in hospitals, maintenance of extra high voltage equipment used in installations of H.E. & S.O. departments, latest technologies in S.T.P.'s (Sewerage Treatment Plants) design & maintenance and latest technologies developed, desalination plant; S.C.A.D.A system in various installations overview of maintenance of pumping stations, electrical estimation, operation & maintenance of H.T. panels in pumping stations, electricity bills and machines, planning & design of major S.T.P. projects of Mumbai, Chlorination, Flow meters and water-meters, latest Technologies in S.T.P. are covered in training programmes. In addition to above, Considering feedback from various departments, a customized training programmes best suited to the respective departments through expert / knowledgeable persons are prepared by C.T.I & R. C & proposed to start Training Programmes immediately. The educational infrastructure facilities viz. Class Room / Air Conditioned Conference Hall with facilities like D.L.P. Projector, Recreation Hall and canteen facility are available at Civic Training Institute & Research Centre.

Canteen facilities have been upgraded to provide optimum nutritious Breakfast, Lunch and Tea to the participants attending lectures at Civic Training Institute & Research Centre. New tender for appointment of agency for the next five years has been awarded. Considering the faculties and participants coming from the remote locations like Panvel, Thane and Palghar, a Provision for breakfast, Veg & Non-veg Lunch along with High tea has been incorporated in the new tender.

16 nos. of rooms in C.T.I. & R.C. have been repaired by Chief Engineer (Building & Maintenance) department which are currently taken in use. Redevelopment work of some of existing dilapidated training rooms and dormitory is proposed. The said proposal has received 'In principal approval' from the Honourable Municipal Commissioner on Dt. 12.09.2023 and further course of action is under taken by the office of Municipal Architect department.

(11) Estates & Land Management :-

In between the years 1898 to 1948, the Improvement Trust and later by the Corporation took up some Improvement Schemes for development. The Management of plots of Corporation is made by Estate Department. Approximately 4,177 Municipal plots comprising of different scheme have been demised in favour of various parties for specific users. The duration of the demise of the properties is as under :-

Sr. No.	Period of lease	No. of Properties
1.	In perpetuity	1,247
2.	999 Years	2,148
3.	120 Years	01
4.	99 Years	584
5.	25 to 70 Years	193
6.	10 Years	04
	Total	**4,177**

The lease rent of these leasehold plots is fixed on the conditions mentioned in the agreement executed between the lessees of these leasehold plots and Brihanmumbai Municipal Corporation. To maintain the records of leasehold plots as well as lease rent recovery of lease land, transfer of leasehold rights, permission for development / redevelopment, permission for sub-lease of the lease land, renewal of the lands etc. are done through this office, as per policies approved by improvement Committee and Corporation.

1. Transfer of leasehold rights :

Transfer of lease hold rights is done as per terms and conditions of agreement to Lease / Lease Deed and it is required to be noted in Estate Record of Brihanmumbai Municipal Corporation and relevant documents are required to be recorded in Estate Record of Brihanmumbai Municipal Corporation. While updating the record of Estate Department of Brihanmumbai Municipal Corporation the name of existing lessee to be deleted and name of incoming lessee is recorded in the record of Brihanmumbai Municipal Corporation. When the lease rights are transferred to third party then transfer premium / fees are recovered as per prevailing policy of Brihanmumbai Municipal Corporation. Also, work is on going to the process of computerizing the entire process of transferring lease ownership rights.

2. Sub - Lease of leasehold Plots :

Improvements Committee / Corporation vide their resolution nos. ICR No. 29, dtd. 30.07.2014 and CR No. 689, dtd. 20.10.2014, respectively, has accorded sanction to the policy of Sub-Leasing of Municipal Leasehold plots where the rule of section 108 (j) of 'Transfer of Property Act 1882' is mentioned in lease deed. The lessee in such cases are permitted to sub lease or regularize the sub lease of the leasehold plots by charging fees / premium as per policy.

3. Development / Redevelopment of leasehold plots :

N.O.C. for Commencement Certificate / Occupation Certificate for Development / Redevelopment of Municipal Leasehold plots under Section 33(2), 33(5), 33(7) & 33(9) of Development Control Regulations is issued by Estate Department of Brihanmumbai Municipal Corporation. While issuing the N.O.C One Time Premium, Fees / Premium, Charges, Penalties, Lease Rent, Extra Ground Rent is charged as per prevailing policies approved by Corporation from time to time.

Remodeled policy for calculation of One Time Premium (O.T.P.) in redevelopment of municipal leasehold to accommodate changes as per 'Development Control &

Promotion Regulation, 2034' and to reduce financial burden on developers so as to give impetus to sluggish pace of redevelopment of old buildings on municipal leasehold plots. Also, the entire process of issuing all the N.O.C. from Estate Department required for disposal the Development / Redevelopment of building on the lease land has been Computerized and all N.O.C. are issued online.

4. Renewal of Lease & New Lease Agreement :

After expiry of the lease period of leasehold plots, the lease is renewed with the terms and conditions of earlier lease deed & new terms and conditions approved by the Corporation. The policy guidelines for charging the lease rent at the time of lease renewal is approved by Improvements Committee / Corporation vide Resolution ICR No. 172 of 24-12-2001 and CR No. 431 of 09-07-2002, respectively. The new lease rent is levied from the date of expiry and it increases by 10% after every 10 years.

Policy regarding renewal of lease for the Schedule 'W' plots, which are specified in Mumbai Municipal Corporation Act, 1888 was issued by the State Government under Resolution No. BMC-2516/C.R.280/UD-21, dated 15.03.2017. As per the said policy, lease will be renewed for a period of 30 years from the date of expiry of lease and also rent will be charged as per Stamp Duty Ready Reckoner rate of every year from the date of expiry of lease. According to the State Government policy Brihanmumbai Municipal Corporation have to share 70 percent revenue to State Government, which may derived after renewel of Schedule 'W' property. Certain compliance required in the petition no. 1251/2014 and other petition in the Hon'ble High Court. The matter is subjudiced & hence execution of lease deeds are pending.

Brihanmumbai Municipal Corporation Earned Rs. 215.66 crores revenue from lease rent from leasehold plots, various premiums and capitalized value from redevelopment of leasehold plots and municipal properties, etc.

Brihanmumbai Municipal Corporation taken over possession of 120.64 acres of land from M/s. Royal Western India Turf Club Limited for the development of 'Central Public Park' at Mahalaxmi Race Course. The development of the "Central Public Park" is being carried out by the office of Chief Engineer, Coastal Roads. Since the ground has remained unused till the actual development process as stated, now the permission has being given to various organisations to use the Central Ground for organising programmes by levying charges. BMC has received a revenue of Rs. 16.20 Crores from such permissions during the year period of 2024 to 2026.

Data related to lease plots such as wardm village, CTS number, name of lessee, lease sate, plot area, location etc. has been captured and integrated into the GIS platform. Copies of lease agreements have been scanned and uploaded to the system. In addition, summaries of the scanned lease agreements have been incorporated into the GIS database.

The information can be easily retrieved and accessed with reference to wardm village, and plot number, enabling efficient record management, quick verification, and this has improved transparency in lease administration.

5. Demand & Recovery of Ground Rent / Extra Ground Rent in SAP R.E. Module :

SAP R.E. Module is implemented from 01-04-2023 for demand and recovery of Ground Rent / Extra Ground Rent for lease plots allotted by A.C. (Estate) Department in future, online payment facility of lease rent will be made available to lesses.

6. Co-Operative Housing Society :

As per the provisions of D.C.R. 1991 & D.C.P.R. 2034 the municipal tenanted properties constructed prior to 30.09.1969 are taken up for redevelopments as per Regulation 33(7) & 33(9). Till today 154 proposals have been sanctioned by Improvement Committee/Corporation and out of 154 proposals, 10 proposals were terminated and 54 proposals have completed and tenants have been rehabilitated in the new constructed buildings & the remaining 90 proposals are at various stages. The Corporation is getting revenue from these redevelopment scheme in the form of capitalized value as per the polices in force from time to time. Till date Rs. 2393.65 Cr. have been received in form of capitalized value. As per present policy the balance capitalized value will be recovered at different stages of project as per S.D.R.R. Rate of prevailing on date of actual payment.

7. Staff Quarters :

There are 2,886 tenements maintained as Staff quarter for Municipal Staff of various categories (viz. Class I to Class IV) as per the norms.

8. Vacant Land Tenancies :

There are 3,668 number of vacant land tenancies on the Municipal land. There is not transfer of vacant land, However as per revised policy the same is terminated & the Vacant Land Holder / Occupiers are attorned and taken on record of Municipal Corporation.

A circular vide no. A.C./Estate/40/2024-25 had earlier been issued regarding the rent calculation of residential/non residential premises, constructed or acquired under various schemes of the Brihanmumbai Municipal Corporation and allotted on a rental basis, as well as regarding transfer charges, premium amounts, inheritance-based transfers and transfers made more than once. Subsequently, necessary amendments were made to this circular and a revised proposal was prepared. This revised proposal vide no. MGC/F/9121 dt. 29.01.2026 and No. MGC/F/0283 dt. 07.04.2026 has been approved by the Honble Municipal Commissioner. Accordingly, the revised circular has now been issued vide no. A.C./Estates/02/2026-27.

9. Project Affected Person (P.A.P.) :

As per sub-regulation 3.11 of Regulation 33(10) of the Development Control Regulation 1991/Development Control & Promotion Regulation 2034, to bring transparency in process of allotment of P.A.P. Flats or flats acquired through any other authority or private developer received by the Municipal Corporation to the project affected persons by the Municipal Corporation's urban projects through the Municipal Corporation, online allotment through online system is adopted.

So far P.A.P. flats have been distributed to 27,382 project Affected Persons through Various departments of the Municipal Corporation. In order to avoid delay in vacating dilapidated & dangerous Municipal Buildings, Brihanmumbai Municipal Corporation has formulated policy to provide monetary compensation to Project Affected Person of Vital project due to which project cost also reduced due to reduced time.

(12) Municipal Power Laundry :

Brihanmumbai Municipal Power Laundry situated at Bhoiwada, Parel established in 1965 is the sole laundry unit of B.M.C. rendering laundry services to all municipal hospitals and Medical institutions situated all over Mumbai.

Brihanmumbai Municipal Power Laundry have schedule capacity to wash 16,000 linens per day, with scientific method on laundry machineries using steam & chemical to disinfectant soiled linen.

Fire Brigade

Fire Brigade parade

Fire Bike

Fire Brigade

1. Preamble :

Fire Protection is one of the obligatory duty of the Brihanmumbai Municipal Corporation. Life and Property in any urban community is not secured, unless organized Fire Protection Services in the form of Fire Brigade are provided.

2. Objectives :

The primary objectives of the Fire Brigade is to protect life and property in case of fire and also to render services, with equal zeal and devotion during other Emergencies viz. building collapses, drowning cases, motor and train accidents, spillages of acids, oil and chemicals, natural calamities like floods and earthquakes, so also animal and bird rescue, etc. These services are available free of charge and round the clock in Mumbai.

3. Means to summon the Fire Brigade :

In case of emergency, the Brigade can be summoned through following Telephone Nos.:-

1) 101
2) 2308 5991
3) 2308 5992
4) 2308 5994
5) 2308 3240

Further, any emergency can be notified to the Police Control Room on Telephone No. 100, 1916 to Disaster Management Control Room who in turn, can transmit the message to the Brigade Control Room. Also in case of non-availability of telephone, people can summon personally the nearest fire station directly.

4. Organization :

Headquarters Mumbai Fire Brigade is located at Byculla and it has 35 Fire Stations and 19 Mini Fire Station as follows :-

	City	Eastern Suburbs	Western Suburbs
Fire Station	15	07	13
Mini Fire Station	04	08	07

Also, 22 Quick Response Vehicles placed at Brihanmumbai Municipal Corporation Ward level.

5. Regional Command Centers :

For the better services to the citizens and to improve and strengthen the administrative as well as operational command Mumbai Fire Brigade has established 06 Command Centers in Greater Mumbai.

City	Eastern Suburbs	Western Suburbs
Byculla	Vikhroli	Borivali
Wadala	Mankhurd	Marol

6. Liaison and Mutual Aid :

The Brigade has an established liaison with the D.M.C.R. of B.M.C., Mumbai Police, Airforce, Navy, Coast Guards, Home Guards, Civil Defense, the B. E. S. & T. Undertaking, M.S.E.B. and Adani Electricity, Mumbai Port Trust and Mutual Aid Group of Industries, etc.

7. Improvement in Basic Infrastructure :

Mumbai Fire Brigade has fleet of different types of modern, Fire Fighting, Rescue vehicle and latest communication system to carry out the work of Fire Fighting and rescue. To render services of Fire Brigade effectively to citizens of Mumbai 26 additional Fire Stations are proposed in Mumbai City under Development Plan 2034. For effective and for smooth working of Control Room. **'Integrated Command and Control System'** is established. Mumbai Fire Brigade has purchased the digital mobile wireless sets as per the policy of Ministry of Communication Department of Telecom Wireless Commission, New Delhi. **Water Mist Vehicles** purchased and included in the fleet. While fire fighting Fireman has to face various difficulties which can be fatal. To overcome this, **Three Robot** have been procured. While fire fighting, Fireman has to face various difficulties which can be fatal. Mumbai Fire Brigade has procured **Mobile Water Transport System appliances** for transportation of water. Considering the increasing numbers of sky scrapers in the city, special type of **High Rise Fire Fighting Vehicle** has been purchased from the distance of 3 km. nearby the scene of the incident. To overcome the difficulty of Maneuvering of fire tender along narrow lanes & road of Mumbai, **Quick Response Multipurpose Vehicle** are procured & activated in 19 Mini Fire Stations. Also, 22 more **Quick Response Vehicles** placed at Brihanmumbai Municipal Corporation Ward Level. Also 55 mtr. **Water Tower Vehicles** has been purchased which are used for Highrise fire fighting as well as for Slum and congested area fire Fighting purpose. Mumbai Fire Brigade also purchased 24 **Fire Bikes** to reduce response time and for effective efficient fire fighting at incipient stage of fire. Considering the increasing numbers of sky scrapers in the City, special type of **6 High Rise Fire Fighting Vehicle** has been purchased. A **New Technology Based Combined Fire Fighting Cum Rescue Vehicle with Hydraulic Platform** has been procured. Also, a **Breathing Apparatus Vehicle** with air compressor has also been procured. **Education Van** is being developed to create public awareness about fire safety and in addition, 11 new **Fire Engines** and 04 **High Pressure Lighting Vans** have also been procured. 04 **High Pressure Lighting Vans** have been procured and two **Hydraulic Platform Vehicles** with an operational height of 104 metres are proposed to be acquired. It is proposed to procure **Compressed Air Foam System (CAFS)** fire suppression vehicle with a view to enhancing the fire-fighting and emergency response capabilities for the ambitious Coastal Road project. **Advance Personal Protective Equipment** kits have been purchased for Firemen. Brihanmumbai Municipal Corporation has also deployed **Lifeguards, Jet Skies and Boats** for the safety of the citizens at the beaches of Mumbai and the Fire Brigade is also handling this responsibility.

8. Training :

In-service training is imparted to the Fire Brigade Personnel at Training Centrers. On specific requests from Industrial, Hotel, Office Premises, Educational Institutions, Social Organizations, High Rise & Special Risk Establishments, Mumbai Fire Brigade imparts basic training in Fire Prevention and Fire Fighting etc., to their workers /

employees. Practical attachment training programme is also arranged for the students of National Fire Service Collage, Nagpur.

The brigade has started B. A. Gallery for Breathing Apparatus training and refresher training is also organized regularly for officers & firemen at this training centre. An advanced 15 days Flood and Rescue Training Programme is conducted for officers and firemen at the Swimming Pool of Wadala Regional Command Centre as well as at Girgaon Chowpatty. Till date, 450 officers and firemen have successfully completed this training programme.

9. Fire Service Week :

The **'Fire Service Day'** is observed every year by arranging prayer meeting on 14th April to pay homage to those gallant officers and men, who laid down their lives in the fire and explosion in the ship **'S. S. Fort Stikine'** on 14th April 1944 and to those who subsequently died while performing their duties. A week long programme from 14th to 20th April (Fire Service Week) for public education in fire prevention is arranged with lectures / demonstrations / Radio – T.V. interviews, Exhibitions, Various competitions etc. are also being arranged in each region.

10. Fire Safety Awareness and other Distinctive Services :

Public awareness is very essential to minimise loss due to fire incidents. Wall posters to create public awareness about fire safety are being put up in various buildings, schools, colleges, hospitals. Citizens are given Fire Volunteer Training by Mumbai Fire Brigade. As citizen's participation in fire safety is also important, fire brigade conducting activities like lectures, demonstrations, rallies for public awareness about fire safety not only during the safety week but also throughout the year through many social and voluntary organizations. More than 7,000 fire volunteers have been trained under the concept of **' Agni Rakshak Swayamsevak**' which was implemented free of charge for the citizens in the past several years. These fire volunteers can act as fire volunteer in case of emergency and do the first aid till the actual crews of fire brigade reach the scene of incident and then to control crowd and planing. Not only the fire safety of the general public, but also such a trained response in the sensitive and serious situations of multiple accidents is very helpful in limiting the seriousness and scope of the accident.

Due to increasing numbers of high rise building in Mumbai & their safety, officers are nominated for the inspection of high rise building & various commercial establishments in view of **Maharashtra Fire Prevention & Life Safety Measures Act, 2006.** Mumbai Fire Brigade is upgrading itself by various ways for keeping Mumbai safe from fire and other similar disasters. Since, 2018 Compliance Cell has been established by Brihanmumbai Municipal Corporation under Assistant Commissioner of Concern Ward for day to day inspection of various establishments in Brihanmumbai Municipal Corporation Limit. The Cell is consisted of officers of fire brigade and ward officials. This cell initiates the action in case of non-compliance of fire safety measures.

11. A Testament to History - Turntable Ladder.

The Turntable Ladder is a historic fire-fighting vehicle of the Mumbai Fire Brigade, manufactured in England in 1937. It displayed unparalled bravery during the

catastrophic fire that broke out following the explosion aboard the cargo ship ‘S.S. Fort Stikine’ on 14th April 1944.

However, after rendering decades of srvice, the vehicle remained out of operation for many years. Through dedicated conservation and restoration efforts, it has been successfully preserved and recommissioned on 26th January 2026 by the auspicious hands of Hon’ble Chief Minister.

This Turntable Laddar is not merely a vehicle; it is a living symbol of the courage, scrifice and glorious legacy of the Mumbai Fire Brigade. Its history is being preserved as an inspirational heritage for future generations.

Disaster Management

DISASTER MANAGEMENT & CENTRAL COMPLAINT REDRESSAL SYSTEM DEPARTMENT :-

The Disaster Management Department (D.M.D.) was set up in the year 1999 at the Municipal Head Office to manage disasters in Mumbai. This department is upgraded with modern equipments and situated at second floor in B.M.C. Head Office, since November 2016

District Disaster Management Authority :-

No. DMU-2017/C.R.No. 344(A)/DMU-1. - By sub-sections (1), (2) and (4) of section 25 of the Disaster management Act, 2005 (53 of 2005) and Maharashtra District Disaster Management (Constitution of District Disaster Management Authority for the districts of Mumbai City and Mumbai Suburban) in exercise of the powers conferred by rule 3 of the Rules, 2018 and vide Government Notification Revenue and Forest Department No. DMU 2010/CR, The Government of Maharshtra 117/DM-1, the Government of Maharshtra has established the 'Brihanmumbai Disaster Management Authority' for the districts of Mumbai City and Mumbai Suburban with effect from 6th June 2012.

Hon'ble Additional Municipal Commissioner (City) as the Chairman of the District Disaster Management Authority for Mumbai City District and Hon'ble Additional Municipal Commissioner (Eastern Suburbs) (Senior Officer) has been appointed as the Chairman of the District Disaster Management Authority for Mumbai Suburban District.

Functions of Disaster Management Department:-

A Single-point source for all issues related to Disaster Management.

1. Hazard Vulnerability & Risk Assessment.
2. Prevention & Preparedness.
3. Co-ordinate with relevant agencies for reducing the severity of damage.
4. Response.
5. Co-ordinate with relevant agencies for help and rehabilitation.
6. Command & Control agency between administration & field units.
7. Co-ordinate for early warning to citizens.
8. Co-ordinate for arrangement of food and water during emergency situations.
9. Co-ordinate the transportation of stranded and injured people during disastrous situations.
10. Co-ordinate for the transportation of critically injured people on high priority.
11. Co-ordinate for setting up temporary shelters.
12. Co-ordinate with N.G.Os.

Objectives of Disaster Management Department : -

1. Co-ordinate for rapid and effective response during any disaster.
2. Improve co-ordination among all the responding agencies.
3. To utilize social media through Public Relation Officer for disseminating disaster related information among citizens.
4. To encourage preparedness at every level.
5. To encourage for helping disaster affected people.
6. Impart training to the citizens & stakeholders.

Emergency Operations Centre (EOC) :-

The Disaster Management Department works 365 days x 24 hours throughout the year. It serves as a Command & Control agency between the administration and field units. It is a single-point source for all issues related to disaster management. It co-ordinates with various stakeholders for quick and effective response during a disaster.

1. Direct contact telephone line facility.
2. Television sets which are tuned to major news channels to keep abreast of the latest news.
3. In case of interruption in communication system, HAM radio is used as alternative communication system.
4. '1916' helpline with 30 hunting lines are available for Citizens so that they can register complaints related to major/ minor accidents, fire, earthquakes, bomb blast etc..
5. 26 administrative ward Control Rooms, Back up Control Room, Hospitals & 28 outside agencies are connected with 62 satellite - hotlines which provides regular updates about the situation in the Mumbai City and Suburbs.
6. For monitoring disaster management activities a video wall of size 6,200 mm long and 1,744 mm height has been installed. Video wall receives feed from more than 12000 C.C.T.V. cameras installed by Mumbai Police.
7. D.M.R. is an advance communication system implemented by D. M. Department in January 2022. This system is installed in 24 ward control rooms, 37 stakeholders and on vehicles of designated Municipal Officers. Total 326 DMR sets installed. This system has advance features like Broadcast Call, Emergency Call, Pre Recorded Messages, Intelligent Audio, BlueTooth / Wi-Fi, Man Down & Loan Worker, Secured encrypted Voice Communication, Better Spectrum Efficiency, Intergrated Voice & Data (speech to text & text to speech), Double Capacity Per Frequency Spectrum, Longer Battery Life, Facility for Group Call, Individual Call, Enabling Data Application viz. Dispatcher, GPS Location Tracking, Geo Fencing, Data & Voice Logger, Over the Air Programming, Text Messaging, etc.

The following types of complaints are registered in Disaster Management Department :-

32 types of man made & natural disasters are identified which are likely prone to Mumbai City & Suburbs which is categorized into 102 sub-major disasters like major / minor accidents, landslides, felling of trees or unauthorize cutting of trees, water logging, house collapses, short circuits, floods, earthquakes, bomb explosions etc. On registration, these incidents are communicated to the concerned agencies for providing necessary assistance.

Automatic Weather Stations (AWS) :-

- 120 Automatic Weather Stations have been installed throughout Mumbai to get real time weather parameters.
- Weather parameter data is refreshed after every 15 minute on website and applications.
- The data is monitored, analyzed and the warnings are issued accordingly.

Flow Level Sensors:-

- Flow Level Sensors are installed to monitor water level in rivers and lakes. It gives real time information to Disaster Control Room.
- This will help to initiate early evacuation action low lying areas in the vicinity. Flow Level Sensors are installed at Dahisar, Poisar, Vakola, Mithi, Oshiwara Rivers and Powai-Vihar Lake.

Disaster Management Website :-

The website **'dm.mcgm.gov.in'** shows following information : High Tide - Low Tide time table, Weather forecast obtained from India Meteorological Department, Live weather parameters updated every 15 minutes, Traffic updates, Status of Local Trains, Status of Air Traffic, Important Contact Numbers etc.

Disaster Management Mobile App :-

Disaster Management Department, has launched a new android phone application to aid in citizen's response to disaster management and control. The app, **'Disaster Management B.M.C.'**, will provide real time information of weather parameters as well as help available at hand within a radius of 500 meters from the distressed person.

Through this application, on clicking on a landmark in the vicinity of the crisis, the app will automatically generate a list of Police Stations, Hospitals, Fire Brigade Station and Control Room numbers of Ward Offices within a radius of 500 meters.

The app will also allow the user to save emergency personal contacts in a separate list in the app and calls to numbers will be made through the app if the person chooses to notify the contacts of the disaster.

Emergency Support Functions (E.S.F.) :-

1. 14 Emergency Support Functions have been identified as an integral part to carry out emergency response activities including preparedness, response during the event and immediate recovery.
2. In the event of major disaster of emergency where quick response is required, the lead agency will take action as per S.O.P.s and work in co-ordination with the support agencies and other E.S.F.s to mobilize and deploy resources to the affected area in Mumbai.
3. In peace time, each E.S.F. Plan and prepare on emergencies through review of the planning assumptions, drills, table top exercises and preparation and reviews the Standard Operating Procedures.
4. Preparedness and planning activities are essentials to ensure adequate response and to identify areas of actions that would ultimately reduce the disaster risk.

Geographical Information System (G.I.S.) Based Command and Control System : -

Disaster Management is shifting from reactive to proactive nature and approach. Therefore risk reduction before disaster is really very important aspect in modern days.

It has been also learned from the previous disasters that, prediction, early warning are also playing vital role in disaster management along with prevention, mitigation, preparedness, planning, relief & rehabilitation. GIS based technology provides best platform for development of such system. GIS has emerged as an effective tool in disaster management since GEO spatial data and socio economic information needs to be amalgamated for the decision making and in handling a disaster or to plan for tracking disasters in scientific manner.

Prime objectives of developing GIS is to help DMD for :

1. Prediction and Early Warning.
2. Risk reduction, planning and preparedness in pre-disaster phase.
3. Decision Support System.
4. Damage Assessment & Relief Management.

G.I.S. combines layer of information on various themes to enable D.M.D. to take the most appropriate decisions under given circumstances.

1. D.M.D. generate maps both at micro and macro level indicating vulnerability to different extent under different threats perception.
2. Locations likely to remain unaffected or remains comparatively safe could be identified.
3. Alternate routes to relief camps and important locations in the event of disruptions of normal surface communication could be worked out.
4. Smooth rescue and evacuations operation can be properly planned.

City Institute of Disaster Management & Research Centre (C.I.D.M.) :-

In case of any mishap happens at Municipal Head Office and due to which if Emergency Operations Center at 2nd Floor is not accessible or cannot be operated a Backup control room has been setup at C.I.D.M., Parel. This backup control is equipped with Hotlines, Wireless Communication, HAM Radio, Video Wall, E.S.F. etc. similar to E.O.C. at M.H.O., C.I.D.M. provides comprehensive training on disaster management and first responder to employees of B.M.C. / Government / Private Companies, School and College Students, Medical Practitioners, Police etc. to create awareness amongst them about scientific methods of Disaster Management.

3D Auditorium and an Art gallery is developed to show realistic information of various disasters. The major objective of these facilities is to make visitors aware of disaster and its preparedness. This Art gallery has interactive dioramas, display, photographs and information boards for awareness generation of various disasters.

Post Graduate Diploma in Disaster, Fire & Industrial Safety Management (P.G.D.D.F.I.S.M.) :

Considering the importance of Disaster Management and ever increasing impacts of disaster in future, C.I.D.M. has commenced a one year P.G.D.D.F.I.S.M. course in co-ordination with G.I.C.E.D. and Mumbai University. This course offers scientific learning of concepts of natural and manmade disaster and techniques of every stage in D. M. The Primary aim of this course is to educate personnel from Government agencies, industries regarding appropriate response to the impending disaster and reduce the impact on mortality and economy.

City Disaster Response Force (C.D.R.F.) :

On the basis of National Disaster Response Force (N.D.R.F.) at National level and State Disaster Response Force (S.D.R.F.) at State level, a City Disaster Reponse Force (C.D.R.F.) is established at City level for Mumbai. The objective of formulating C.D.R.F. for Mumbai is to develop self sustainability for responding disasters like major fire, collapse structure, Chemical-Biological-Radiological-Nuclear etc. The personnel appointed for C.D.R.F. are from existing Security Force, Mumbai Fire Brigade, Doctors & Paramedics of B.M.C. and they are trained by National Disaster Response Force (N.D.R.F.).

Central Complaint Registration System (C.C.R.S.) :-

On-line Complaint Management System (C.P.W.M. Module) has been started from the year 2000 to register civic complaints. Central Complaint Registration System is working 24x7. Civic Complaints related to B.M.C. are registered on phone no.1916 in the central control room and sent to the concerned department through online system. Citizens can lodge their complaints online on B.M.C. portal i.e. http://portal.mcgm.gov.in.

Un-attempted complaints are automatically escalated to higher authorities such as Assistant Commissioner to Dy. Municipal Commissioner to Additional Municipal Commissioner.

Licensing Control

Mahatma Jyotiba Phule Market

Mahatma Jyotiba Phule Market

Licensing Control

(1) LICENCE DEPARTMENT :

The Licence Department Brihanmumbai Municipal Corporation is fulfilling the obligatory duties of the Corporation enlisted in section 61 (j) and (o) of the M.M.C. Act, 1888.

1) Licensing of Trades and Storages :

The Licensable Trade / Storages mentioned in the Schedule 'M' attached with section 394 of the Mumbai Municipal Corporation Act, 1888 amended upto date are being controlled by the Licence Department. According to rules & Regulations of the Corporation and as per section 479 of Mumbai Municipal Corporation Act 1888, licences for trades and storage are granted. Under section 471 of Mumbai Municipal Corporation Act, 1888 the persons trading and storing unauthorizedly are fined. Further, if unauthorized trades and storages are dangerous to lives of citizens then, under section 394 (4) of Mumbai Municipal Corporation Act, 1888 amended upto date the goods will be seized. Legal action taken against unauthorized production and storage of inflammable, dangerous & hazardous chemicals. Sometimes seizure action against such production and storages taken under section 516 AA of Mumbai Municipal Corporation Act, 1888 amended upto date.

'SAP SYSTEM' has been adopted by the Brihanmumbai Municipal Corporation for computerization with effect from 1st April 2007, to grant licences wherein licences are being issued under section 394 as per checklist and renewed on yearly basis. Services to grant new licences and renewal of licences etc under section, 394 of M.M.C. Act, 1888 have been made online and also integrated with 'Aaple Sarkar' portal of State Govt. of Maharashtra.

2) Control on Projections :

Stall Boards, showcases, projections projecting on the Municipal Roads/ Footpaths are being controlled under section 313 (1) (b) (c) of Mumbai Municipal Corporation Act, 1888. In this regard if shop owners produced documentary evidence of ownership of shop premises then permission is granted for showcases, rolling shutter box, over hanging awning, weather frame etc and the same is renewed on yearly basis. Online services are provided to grant new licences and renewal of licences under section 313 (1) (b) (c) and also integrated with 'Aaple Sarkar' portal of State Govt. of Maharashtra.

3) Control on Squatters and Street Vendors :

The Street Vendors (Protection of Livelihood and Regulation of Street Vending) Act 2014 has been published by Central Govt. of India on 1st May 2014. As per section 36(1) of said act Government of Maharashtra published rules viz. Maharashtra Street Vendors (Protection of Livelihood and Regulation of Street Vending) (Maharashtra) Rules,2016 on 3rd August, 2016. Subsequently, as per provision under Section 38(1) State Government of Maharashtra has published Street Vendors (Protection of Livelihood and Regulation of Street Vending) Scheme - 2017 on 9th January 2017. Hon'ble Mumbai High

Court in WP 652 of 2017 on 1st November 2017 has directed that this scheme may be use as general guideline. As per the order of the Government, the Mumbai Municipal Corporation is working to make Scheme and by-laws. The Town Vending Committee is being existed to finalize these matters.

Presently, as per directions issued by Hon'ble High Court Encroachment Removal Actions are being taken against encroachment of unauthorized hawkers squatting on more than 1mt. X 1mt. area obstructing pedestrian way and blocking the entrance of Shops and Residences and against hawkers engaged in cooking or preparation of food items on Municipal footpath/roads except Licensed Hawkers.

4) Advertisements :

With a view of beautifying the Mumbai city, the Advertisement Guideline Policy 2 0 2 5 regarding granting permission to display sky signs and advertisement under section 3 2 8 / 3 2 8 A of the Mumbai Municipal Corporation Act, 18 8 8 as amended have been published on 27th November, 2 0 2 5 .

The new policy on displaying advertisements has been properly regulated in view of public safety, smooth traffic flow and beautification of the city. As per these guidelines, hoardings larger than 40 x 4 0 feet have been completely banned. Also advertisements on footpaths and rooftops of buildings has been prohibited and no new permission will be given in such places.

In view of road safety, the luminance Ratio of digital hoardings has been limited to a maximum of 3:1. Also flickering or flashing advertisements have been completely banned. However, considering modern advertising media, LED advertisements have been allowed to be displayed on malls, multiplexes, shopping complexes commercial buildings and petrol pumps. Advertisement boards of minimum size 20 x 20 have been allowed at petrol pumps, busy places, toll plazas and a policy has been fixed to allow advertisement boards of maximum size 30 x 20. According to this policy, commercial and non-commercial advertisements have been allowed on the fences of buildings under construction or repair as well as on the exterior of buildings, however, it will necessary to follow the prescribed conditions for this.

Notably, for the first time, these guidelines have allowed V and L shaped hoardings along with single and back to back hoardings as well as triangular, square, pentagonal and hexagonal hoardings. However it will be mandatory to obtain the no objection of the traffic policy for this.

These guidelines have been made available on the official website of Brihanmumbai Municipal corporation on 27th November 2025. Brihanmumbai Municipal Corporation appeals to all advertisers, advertising agencies and related entities to strictly follow these guidelines.

Based on these guidelines, The Brihanmumbai Municipal Corporation is expected to increase the revenue received through advertising licenses and will help in preserving the natural beauty of Mumbai.

(2) SHOPS AND ESTABLISHMENT :

For regulating the conditions of work of employment in Shops, Commercial Establishments, Residential Hotels, Restaurants, Eating Houses, Theatres etc., The Maharashtra Shops and Establishments (Regulation of Employment and Conditions of service) Act, 2017 is enacted. The Act is implemented in the whole of the State of Maharashtra and the implementation of this Act in mumbai jurisdiction of Brihanmumbai Municipal Corporation is handed over to Brihanmumbai Municipal Corporation from 19th December 2017. The Act is implemented by Shops and Establishment Department in the jurisdiction of Brihanmumbai Municipal Corporation. Also, Child Labour (Prohibition and Regulation) Act, 1986 is implemented by this department, with effect from 29th August 1997.

As per Maharashtra Shops and Establishment (Regulation of Employment and Conditions of Services) Rule, 2018 and the amended Act, 2022, Shops and Establishment Department effectively implementing the action against all establishments to display the nameboard of establishment in Marathi within the jurisdiction of Brihanmumbai Municipal Corporation. Establishments who violated the said provision for the period from 28-11-2023 to 31-03.2026 a fine of Rs. 1,91,48,975/- through Court cases and a fine Rs. 99,28,000/- through compounding has been recovered.

As per the Maharashtra Government's notification dt. 23-03-2018 and Maharashtra Non-biodegradable Garbage (Control) Act, 2006, the officers & Facilitators working under Chief Officers (Shops & Estt.) are authorised & empowered to take action in respect of the provision of Maharashtra Plastic and Thermocol Products (Manufacture, Usage, Sale, Transport, Handling and Storage) Notification 2018. As per the Municipal Commissioner's orders Chief Officers (Shop & Estt.) Assistant Commissioner (Market) and Superintendent of Licence has taken action as per above Notification and Central Government's Plastic Waste Management (Amendment) Rule, 2021, during the period from 01-04-2025 to 31-03-2026 seized 7,681.285 Kg. plastic and recovered Rs. 1,18,15,000.00/- as a fine from the offenders.

As per the resolution of Municipal Corporation under no. 458 dated 21st June 2012, Facilitators of Shops & Establishment department, Inspectors of Licence and Market Department & their Supervisory Officers and all Asst. Commissioner of Ward are empowered to take compounding fees Rs. 5,000/- for first offence & Rs. 10,000/- for second offence under section 12 of the Maharashtra Non-biodegradable Garbage (control) Act, 2006 from any person violating the provisions of Prohibited Plastic, Carry Bag.

(3) Market :

There are 92 Existing Municipal Retail Markets, 124 Markets Accommodation Reservation and 16 Private Markets under the jurisdiction of Markets Department of Brihanmumbai Municipal Corporation. The total municipal licensees in these markets are 19,063. The Operation of the market is done through the Assistant Commissioner (Market) & Minor repairs to all Markets are being done by the concerned Ward Office.

As per The Mumbai Municipal Corporation Act, 1888, as amended up to date section 410 (1), 411, 412, 415, 416, 417 Seizures action as per complaints and laiding

lines at illegal slaughter are carried out through 'Special Vigilance Squad' of the Market Department. The confiscated Chickens and Fish are auctioned off and the confiscated animals are handed over to the General Manager, Deonar Slaughter House for handing over to the contractors. License to outside meat shops are issued by market department as per the prescirbed terms and conditions.

Redevelopment of Brihanmumbai Municipal Corporation Markets :

Under Regulation No. 33(21)(A) of DCPR 2034 approved by the Urban Development Department of the Government of Maharahstra. 10 markets are being redeveloped through the Market Department, out of which the construction of Babu Genu Market at Mazgaon has been completed and the license holders are being rehabilitated. Redevelopment work of 3 markets namely Topiwala Market, Mahatma Jyotiba Phule Market and Shirodkar Market is in progress. The construction of Chemburkar Market has been started. The work of preparing the plans of the remaining 5 markets is in progress. Similarly according to the guidelines issued by the Urban Development Department of the Government of Maharashtra for the redevelopment of existing municipal markets (February 2004 and May 2005), a total of 08 markets have been redeveloped through private developer. Extensive repair work of Lakshmanrao Yadav Market, A.P. Market, Lal Bahadur Shastri Market, Mahatma Gandhi Market, Hawkers Plaza Market, Chaferkar Bandhu Market etc. has been completed. The repair work of Dr. Kharude Market, Fort Market, D.N. Nagar Market, Swantaryaveer Savarkar Market, C.J. Shah Market etc. are in progress through Building Maintenance Department. The Organic Waste Converter (OWC) plant at Airoli Octroi Naka Part plot is in working for disposal of garbage/organic waste generated from Municipal Markets.

Allotment of alternative Commercial Space to Project Affected Persons (PAP) :

Under the various initiatives / projects of Brihanmumbai Municipal Corporation, action is taken by the Market Department to rehabilitate the commercial Project Affected Persons (PAP) by allotting them alternate accommodation available under accommodation reservation.

The policy regarding granting monetary compensation to PAP's instead of granting spaces has been approved & the same is being implemented by the concerned Wards. The license fee and shop stallage rent are being collected online.

(4) VETERINERY HEALTH DEPARTMENT :

Brihanmumbai Municipal Corporation vide resolution no. 87 dated 04th May 2018 has created a separate 'Veterinary Health Department' by streamlining the veterinary services available in the city from the point of view of public health. The services of Deonar Abattoir, Regional Veterinay Services, Dog Control Office, Cattle Pound Office, Municipal Veterinary Dispensary at Khar are coverd under 'Veterinary Health Department'. The Detailed information of the said Department is as follows :-

1) DEONAR ABATTOIR

As per section 61(h) of M.M.C. Act, 1888, it is an obligatory duty of Brihanmumbai Municipal Corporation to construct and maintain slaughter house for citizens of Mumbai. The main objectives of Brihanmumbai Municipal Corporation behind the construction of an Abattoir are as follows -

1. To provide clean wholesome and hygienic meat to the citizens of Brihanmumbai Municipal Corporation.
2. Collection and disposal of slaughter house waste scientifically to prevent contamination and pollution.
3. To provide separate market place to the animals arriving for slaughter purpose.

Deonar Abattoir is situated on 64 acres of area which is divided into three parts :-

1. Actual Slaughtering Units - 21 acres
2. Liarages and Resting Sheds - 19 acres
3. Grazing area - 24 acres

Sheep/Goats and Buffaloes from neighboring states like Gujrat, Madhya Pradesh, Karnataka, Rajasthan as well as from different districts of Maharashtra arrive at Deonar Abattoir for slaughter purpose. After arrival at Deonar Abattoir, these animals immediately undergoes Ante-Mortem inspection by Veterinarians. After Ante-Mortem inspection animals are provided with ample of food and water. Then these animals undergoes process of buying and selling in market place situated in Deonar Abattoir. Animals purchased by shopkeepers brought to slaughtering units for slaughter purpose.

After scientific slaughtering procedures, carcases of animals undergoes detailed post-mortem inspection by Veterinarians and then carcases get dispatched to respective meat shops in Mumbai.

Facilities available at Deonar Abattoir :-

1. As per order of National Green Tribunal, Pune for scientific disposal of slaughter house waste, Biomethanation plant of 15MT has been installed in Deonar Abattoir. Installation of Biomethanation plant is executed under the supervision & technology from Brihanmumbai Municipal Corporation and Bhabha Atomic Research Centre. About 7-8 Metric Ton Biowaste generated daily due to animal slaughter is used in the said plant & nearly 400-450 cubic meter methane gas is generated from this Biowaste. From this gas 40 units electricity is generated daily with the help of 65.5 KVA generator.
2. Deonar Abattoir has a facility of effluent treatment plant where contaminated water generated during the slaughtering procedure is treated and then used for gardening & road washing in Deonar Abattoir.
3. Solar boiler plant has been installed for slaughtering of pigs Deonar Abattoir due to which electricity will be saved.

In addition to local supply, the abattoir has the capacity to slaughter sheep and goats is used for Export purpose and the revenue generated from this is quite substantial too.

Bakri Eid Arrangement :

During the religious festival of Bakri Eid, the Deonar Abattoir observes additional arrangements beyond its daily operations. Annually, approximately 2 to 2.5 lakh goats and 10,000 to 12,000 buffaloes/male buffaloes are sold at the Deonar Abattoir during

Bakri Eid. These animals are provided with temporary sheds, additional water supply and electricity facilities by the Brihanmumbai Municipal Corporation. Additionally the corporation offers toilets, drinking water and rest houses for traders selling the animals. Animals begin to arrive 10 to 15 days before the Bakri Eid festival, prompting the provision of these facilities. To ensure law and order, extra police force and security guards are appointed. CCTV cameras are installed to monitor area. Temporary canteens are also set up by Deonar Abattoir for citizens purchasing animals. During the 15 days of Bakri Eid period approximately 70-75 metric tons of garbage is genrated and round-the-clock garbage collection services are provided by contractors. Furthermore, additional veterinarians from Mumbai Veterinay College are appointed to treat animals brought for sale at the Deonar Abattoir during Bakri Eid. Sanitation cleaning of the premises is carried out by santiation workers of the Brihanmumbai Municipal Corporation, with the assistance of NGO's.

Under section 403(2)(e) of Mumbai Municipal Act, 1888 as amended up to date Sheep and Goats purchased for religious purpose are permitted to be taken home. It is mandatory to purchase buffaloes/male buffaloes for religious purpose and slaughter them in the Deonar Abattoir, for which necessary arrangements are made through the administration for slaughtering on Bakri Eid and the two days following.

Slaughter Charges :-

1. Sheep /Goats for local slaughter :- Rs.48/-
2. Sheep/Goats slaughter for export :- Rs. 94/-
3. Suburban/ Midnight Sheep /Goat :- Rs. 30/-
4. Buffaloes/ Male buffaloes without transport :- Rs. 174/-
5. Buffaloes/ Male buffaloes with transport :- Rs. 324/-
6. Pigs :- Rs. 66/-

2) DOG Control Department :

Stray dogs complaints and animal birth control programme of stray dogs is undertaken by Dog Control Department of Brihanmumbai Municipal Corporation. As per the order of the Hon. Supreme Court, the Brihanmumbai Municipal Corporation has started the 'VHD Helpline number 7564976649 '. This number is active from 7:00 AM to 10:00 PM' to receive complaints. Additionally, citizens can register a complaint at the link 'vhd.mcgm.gov.in' if bitten by a stray dog. There are four Dog License Establishment offices under Dog Control Department viz.

1. Mahalaxmi Dog Control Office : 9987798436
2. Malad Dog Control Office : 9076202207
3. Bandra Dog Control Office : 9076202208
4. Mulund Dog Control Office : 8692068993

Total 19,937 dogs were sterilized in the year 2025-26. Under the 'Mumbai Rabies Elimination Project', a total of 63,929 stray dogs and 1386 stray cats were vaccinated in

24 wards by Brihanmumbai Municipal Corporation through the Dog Control Department. An awareness program about rabies and leptospirosis has been undertaken in schools of Brihanmumbai Municipal Corporation. This program started in the year 2025-26 till date covers 677 different schools.

3) Cattle Pound Office :

Action against stray animals are taken under section 441 (C) to (G) of M.M.C. Act, 1888. Total 437 stray animals were seized in 2025-26. Total revenue generated was Rs. 18,66,262/-.

4) Zonal Veterinary Services :

Brihanmumbai Municipal Corporation has provided regional veterinary services. The said Veterinary Services have been made available in 07 zones of Brihanmumbai Municipal Corporation. Under these services, sterilization of stray dogs in the Brihanmumbai Municipal Corporation area, rabies vaccination against stray animals, licensing of pet dogs etc. being carried out.

5) Online Dog Licenses :

The process of issuing dog licenses under section 191(A) of M.M.C. Act, 1888 as amended up to date has been made ‘ONLINE’ since April 2018. Dog License Helpline No. 9635839888.

6) Khar Veterinary Dispensary :

Treatment facility for animals is made available at nominal fees at the Municipal Veterinary Dispensary situated at Khar road (W).

Upcoming Projects of Veterinary Health Department

1) Deonar Abattoir Modernisation and Development :

With the approval of the Standing Committee, expert consultants have been appointed as Transaction Advisor (TA) and Project Management Consultant (PMC) for implementing the project in the next phase of modernization. The consultants have held meetings with potential investors and industry representatives and prepared a 'Master Layout' incorporating the project's financial plan, infrastructure facilities, and ancillary facilities.

Under this project, it is proposed to develop separate facilities for 'Buffalo Abattoir, Sheep/Goat Abattoir, Poultry Processing Plant, and Pig Abattoir' on a DBFOT model under the PPP method. Similarly, a tender draft has been prepared on a 'Turnkey basis' for the modernization and infrastructure development of Deonar Abattoir. For further implementation, the RFT (Request for Proposal) and the Turnkey tender for infrastructure facilities have been prepared, and the tendering process has commenced on the Maharashtra Government's Mahaportal.

2) Veterinary Hospital at Mahalaxmi :

Brihanmumbai Municipal Corporation has set up a veterinary hospital on Build, Operate and Transfer (BOT) basis in Mahalaxmi in collaboration with TATA Trust to provide health facilities to stray and domestic animals in Mumbai. With modern facilities, the services and public offering of the said hospital is set to be operational from 22nd June 2024.

3) Crematoriums for Animals :

The Brihanmumbai Municipal Corporation has started operating animal crematoriums for Mumbai City and Mumbai Suburbs at Mahalaxmi, Malad, and Deonar.

4) Establishment of Headquarters of Veterinary Health Department at Khar :

The headquarters of Veterinary Health Department is being constructed at the location of Khar Veterinary Dispensary, wherein along with the headquarters, a dispensary for animals equipped with advance diagnostic and treatment facilities and a zoonotic diseases laboratory will be set up. The work is being carried out by Health Infrastructure Cell department (HIC) of Brihanmumbai Municipal Corporation.

5) Modernization work of Cattle Pound Office at Malad :

The renovation work of the Cattle Pound at Malad has been completed and separate shelters for bullocks, cows, and calves, along with veterinary facilities for the treatment of animals, have been started at the Cattle Pound, Malad.

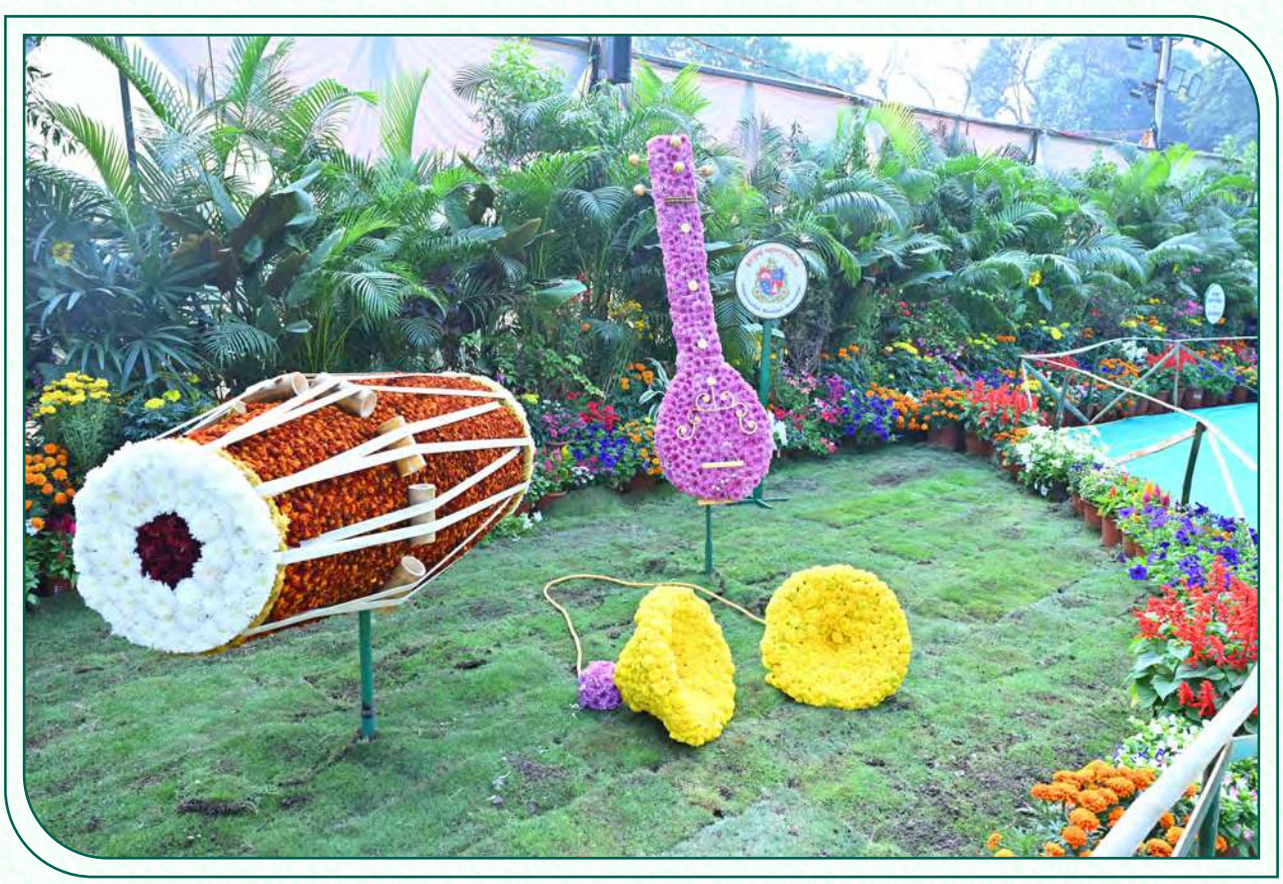

At the Malad Cattle Pound, an area of 2250 sq.m. has been handed over to Shrimad Ramchandra Jeevdaya Trust for a period of 30 years on a BOT basis for setting up an Animal Care Center for veterinary purposes, with the approval of the Improvements Committee and the Standing Committee in January 2025. The work on this Animal Care Center is underway.

Modernization Project of Veermata Jijabai Bhosale Botanical Garden & Zoo -

- In the expanded area of the zoo, exhibition and enclosures for foreign animals are being developed and a zoo consultant has been appointed for the same. Layouts for the exhibitions and enclosures have been prepared and the work of preparing the budget is in progress.
- Work on establishing a world -class aquarium on the ground floor of the Interpretation Building in the zoo is currently in progress.
- The Mulund Bird Park, which is being developed in Mulund, is a satellite facility of the zoo (under the jurisdiction of the zoo). The construction work of this bird park is currently in progress.
- Environment-friendly battery-operated electric vehicles have been purchased for the zoo and will soon be operational to facilitate tours for senior citizens and other visitors.
- Under the modernization project of the zoo, approximately 105 small and large trees of about 29 Indian species have been planed near or within animal exhibits. This initiative has successfully contributed to preserving the bio-diversity of the area.

2. Dr. BHAU DAJI LAD (MUMBAI CITY) MUSEUM :

The Dr. Bhau Daji Lad Museum is one of the most important cultural institutions in Mumbai The Museum Trust's education and outreach programme was launched in 2008 when the Museum opened to the public after a UNESCO award-winning restoration and revitalisation of the site. Since then, the Museum Trust has successfully hosted over 90 exhibitions and initiated several educational programmes to build a diverse audience, foster a deeper understanding of art and culture, and ensure ongoing engagement with the Museum.

The Museum trust presented eight exhibitions between April 2025 and March 2026. In collaboration with the German Consulate Mumbai, the exhibition *'Eckart Muthesius and Manik Bagh: Pioneering Modernism in India'* was presented at the Museum from 27th April to 17th August 2025. *'Caravaggio's Magdalene in Ecstasy'*, an exhibition showcasing a 400-year-old artwork, was presented from 16th October to 2nd November 2025. This was the first time the work of Michelangelo Merisi da Caravaggio, a famous Italian painter, was exhibited in the city. The exhibition *'Ocean Drive to Marine Drive: Mapping a Century of Art Deco, Miami-Mumbai (1925-2025)'*, was presented at the Special Project Space in the Museum Plaza, celebrating 100 years of the Art Deco movement.

Over the year, the Museum hosted several walkthroughs, workshops, storytelling sessions, film screenings, and performances for schools, young adults, adults, and family groups. These programmes are offered in Marathi, Hindi, and English. In January 2026: the Museum, in collaboration with the Veermata Jijabai Bhosale Udyan & Zoo and Akshara Foundation, organised a storytelling festival. Approximately 250 municipal school students participated in this event. Over 15 Session exploring the understanding of art and science were conducted in English and Marathi, in collaboration with STEAM Academy, reaching over 10,000 students from schools across India. The Museum Trust offers free guided walkthroughs of the Museum collection and ongoing exhibitions every weekend, conducted in Marathi and English.

THE BRIHANMUMBAI ELECTRIC SUPPLY AND TRANSPORT UNDERTAKING
(of the Brihanmumbai Municipal Corporation)
TRAFFIC DEPARTMENT – 2025-26

The Brihanmumbai Electric Supply and Transport, Undertaking of the Municipal Corporation of the Greater Mumbai provides 'Transport' facility in the areas of Greater Mumbai as well as certain prominent areas of the align cities. Further the Undertaking provides 'Electric Supply' to the natives of area belonging to prime city i.e. upto Sion and Mahim. The initial bus operation of the Undertaking was restricted to the Greater Mumbai area, however, after the specific requests from the residents of the align cities the bus operation is extended to the prominent places in the cities like Navi Mumbai, Thane and Mira-Bhayander since 1984.

Features of the Bus Operation are as follows -

1. Bus Fleet :

The undertaking has it's own fleet as well as hired fleet comprising various types of buses as details in following statement - (as on 31-03-2026)

Details	Non Air-Conditioned			Air-conditioned					Total
	SD	Midi	Electric	Midi	Mini	Electric			
						SD	Midi	DD	
Owned	183	35	06	25	00	00	00	00	249
Wetlease	600	00	20	625	00	1023	220	50	2,538
Total	783	35	26	650	00	1023	220	50	2,787

2. Bus Routes :

The Undertaking has introduced it's bus operation in entire vicinity of Greater Mumbai and is also extended to the prominent places in the align cities i.e. Navi Mumbai, Thane and Mira-Bhayender. The bus operation of the Undertaking is serving mainly as the support line to Mumbai Suburban Rail services. Hence the basic operation is a feeder services connecting residential colonies to railway stations and railway stations to commercial hubs. The entire bus operation is classified as Ordinary, Limited, Corridor and Air-conditioned services.

Type of the routes - (as on 31-03-2026)

Details	Ordinary	Limited	Corridor	Air-conditioned	Total
Owned	34	12	02	03	51
Wetlease	62	14	11	261	348
Total	96	26	13	264	399

3. Environment Friendly Bus Operation :

Pollution is one of the most dangerous environmental problems the world is facing today. To stop the impending perils that pollution could cause, it is necessary that we start taking some actions to keep our environment safe and healthy. One of the type of pollution is 'Air Pollution'. Air pollution is the contamination of the atmosphere mainly due to smoke from vehicles.

As a step to reduce the pollution in city, the Undertaking has started to induct environment friendly Electric buses in it's fleet. At present the undertaking have 1319 Electric buses in it's fleet. Also the Undertaking is operating sizable no. of buses on pollution free Fuel as a Compressed Natural Gas (CNG).

The fuel wise distribution of fleet is as follows - (as on 31-03-2026)

Details	Diesel	C.N.G.	Electric	Total
Owned	243	0	06	249
Wetlease	00	1,225	1313	2,538
Total	243	1,225	1319	2,787

4. Premium Bus Services :

As the commuters always welcomes the advanced services, the Undertaking also ready for such challenges. Considering the demand of the Luxurious services from the commuters, the Undertaking has introduced 'app' based Air-conditioned services since 2022 in co-ordination with 'Chalo Mobility Private Limited'. These services have encouraging response from commuters.

5. 'Mumbai One App' :

For the convenience of passengers travelling within the Mumbai Metropolitan Region, information regarding the ticketing system and journey planning of all transport agencies operating within the region (e.g., BEST, TMT, NMMT, KDMT, MBMT, Monorail, Mumbai Metro and Mumbai Suburban Railway) has been made available on Mumbai One mobile app.

6. City Tours :

The main object of the undertaking is to provide transport services to the city of Mumbai. However, the Undertaking is also providing city tour. This tour operates in the Southern part of the Mumbai in newly introduced ' Electric Air-conditioned Double Deck Buses' covering the Seashore at Nariman Point, Girgaon Chowpaty. The buses in this tour also visits the illuminated heritage buildings in the South Mumbai.

7. Buses Provided on Reservation Basis :

The Undertaking provided the buses on 'Reservation Basis' for the various events like Marriages, Birthdays, Exhibition, Sports etc. People prefer these buses as the reservation charges are competitive and the services provided by the Undertaking are satisfactory.

8. Renovated Bus Que Shelters -

To provide comfort to the commuters during their waiting time on stops. Bus Que Shelters are being renovated with additional facilities like updated information about desired bus routes, charging points for mobiles, etc. New shelters are being provided on the places of Bus Stop Poles.

9. Pay & Park Scheme -

As an additional source of revenue the Undertaking has a 'Pay & Park Scheme' in co-ordination with 'Parviom Technologies Private Limited'. Under this scheme the vacant places of the Bus Depots and Bus Stations are utilized in the day hours for parking private vehicles, when the BEST buses are moving on line.

10. Services for Lady Commuters -

Government of Maharashtra has provided 37 buses under it's 'Tejaswini Scheme'. These buses are predominantly operated for Lady Commuters on various routes in morning and evening peak hours. The Undertaking also operates special trips for lady commuters in peak hours on various routes.

11. Discount on travel fare -

Students studying in all academic fields including postgraduate courses have been provided with a monthly bus pass at a concessional rate of Rs.200 /-. Senior citizens have been given a concession of Rs.50/- on all bus services including air-conditioned bus services. Accredited journalists covering BEST and Brihanmumbai Municipal Corporation meetings as well as other events related to the project of the Municipal Corporation have been given a concessional bus pass at an annual rate of Rs.365/-

12. Free travel facility -

Freedom fighters, corporators, nominated members, BEST committee members, education committee members, Municipal Commissioner, Additional Municipal Commissioner, Municipal Chief Auditor, lawyers representing BEST initiatives in court provided the facility of free bus travel. Maharashtra Legislative Assembly / Legislative Council members (the initiative receives a certain amount from the Maharashtra government), and one person along with these members has the facility of free travel. Also, students in uniform studying in municipal schools (reimbursed by the Mumbai Municipal Corporation) provide free travel facility. Persons with disabilities of 40% and above (reimbursed by the Mumbai Municipal Corporation) have free travel facility.

13. Electronic Ticket Issuing Machines (ETIM) -

The Undertaking has fully computerized 'Fare Collection System'. The tickets are issued through Electronic Ticket Issuing Machines - ETIM. This machine stores the particulars of the tickets issued throughout the day. i.e. entire passenger data is available through this machine. Also, this machine keeps record of trips operated,

the particulars of the machine operator, i.e. Bus Conductor, etc. This information is very useful for the bus operational analysis in large and route analysis in particular.

14. ETIM system provides facility to pay for tickets and bus passes through UPI -

For the convenience of passengers, Brihanmumbai Electricity Supply and Transport Undertaking is providing another digital facility in the bus service of BEST under the ETIM system through ONDC (Open Network for Digital Commerce) to pay the ticket and bus pass amount through UPI. With this facility, passengers will be able to pay the ticket / pass amount quoted by the bus conductor directly from their mobile through UPI apps like Google Pay, PhonePe, Paytm, BHIM, Amazon Pay etc. After the payment process is completed, a printed copy of the ticket will be given to the passenger. Payment facilities through cash, smart card and mobile will continue to be available and UPI will be made available as an additional option.

15. Mobile App and it's Features -

The BEST Undertaking has launched a 'CHALO Mobile App' for the convenience of passengers. This mobile app helps the passengers to know the location of their bus, as also to make payment of the fare through digital system, instead of cash transaction. Various bus passes are also made available in this 'Mobile App'. Apart from this information of the entire bus operation of the undertaking is available in this 'Mobile App'.

16. Services of N.C.M.C. Smart Card -

In accordance with the policy of Government of India 'One Nation, One Card' the Undertaking has introduced 'National Common Mobility Card - NCMC'. Preferentially 'NCMC' cards will be used in Public Transport Services like Bus, Metro, Rail, where the Scheme of 'NCMC' is implemented. In future this card will have universal acceptance.

17. ITMS - Modernisation of Bus Services -

Intelligent Transport Management System is the most innovative system introduced for the bus operation of the Undertaking. Under this system the Undertaking knows the exact location of the buses operated on routes. The passengers are also getting the information of the buses on their desired route, approaching buses, on Mobile App and ETA is also displayed on bus stops. Besides this, computerization of the entire bus operational work is being done in this system.

18. Modernization of bus services through Google Maps -

To reduce the waiting time of passengers at bus stops, information about when the actual bus will be available at the bus stop has been made available on Google Maps. This will enable passengers to plan their journeys properly and travel by BEST buses' and will not be tempted to use other means of transport. As a result, the revenue of BEST will increase.

19. Disaster Management System -

Government of Maharashtra and Brihanmumbai Municipal Corporation, has a 'Disaster Management System' with all stake holders of the City including BEST. Under this system BEST is required to mobilize and take special efforts to provide

prompt bus services to the stranded people during the call of disaster. All these activities are monitored from Command Control Centre in the Wadala Depot. The Undertaking is monitoring the entire bus operation from this Command Control Centre.

20. Maintenance of Buses -

The routine maintenance of the buses is carried out by Transportation Engineering Department in all bus depots. Major maintenance work is performed at Dadar Workshop, which is centrally situated near Dadar T. T. The maintenance work of the wetlease buses is undertaken by the operators themselves.

21. Training Centre for Staff & Officers -

As the Undertaking is taking utmost care of the commuters on board it has established 'Training Centre' at Dindoshi Bus Depot', where the Bus Drivers and Bus Conductors are trained at their entry level. Refresher courses are also arranged for Bus Drivers, Bus Conductors along with Officers.

22. Toll Free Help Line :

The Undertaking has established a 'Toll Free Help Line' as **1800 227 550** since 15th October 2009. This Help Line is available for 24X7. On this Help Line the Commuters availing information about the entire bus operation of the Undertaking.

23. Fare Policy :

THE BRIHANMUMBAI ELECTRIC SUPPLY AND TRANSPORT UNDERTAKING

ELECTRIC SUPPLY

BEST is the distribution licensee to supply electricity in the old city limits of Mumbai. It covers 72 sq. km., (area from Colaba to Sion and Mahim). In F. Y. 2025-26 the maximum demand of Mumbai City was 907 MW and power purchased was 4922 MUs. To meet this demand, power is purchased in major from generating companies, bilateral sources, Power exchanges and environment friendly renewable source. BEST Undertaking has established strong distribution network and electric supply reliability is at 99.98%..

BEST Undertaking has 10.63 lakh electricity consumers, Out of which about 73% are residential consumers. BEST consumers can pay their bills at 146 no. of Cash Collection centers (which include Post Offices, branches of various Banks and Maha IT) In addition to this bill payment through E.C.S. facility, Credit / Debit Cards, N.E.F.T. / R.T.G.S., various outlets of several service providers and Mobile App (MiBEST) is also provided to the consumers.

For attending to interruption in power supply and quick restoration, various departments of BEST Undertaking functions round the clock. For coordinating and supervising these departments BEST has established 2 supervisory controls, 5 fault controls and 11 fuse controls.

Electric Supply division of B.E.S.T. Undertaking is the winner of the **"1st Runner Up Award under category "BEST Performing Distribution Company (Govt.)"** at IPPAI Awards 2026 ceremony held at Belgaum Karnataka on January 10, 2026.

Under the "Revamped Distribution Sector Scheme (RDSS)", BEST has prepared Action plan & DPR for (I) Distribution Infrastructure works (i.e. RSS / DSS infra works),(ii) IT/OT applications, (iii) Advance Distribution Management System (ADMS) and (iv) Advance Metering infrastructure (i.e. Smart Metering). The central grant to be received will be in the ratio of 60:40 for the component of Distribution Infrastructure works. Work of execution is in progress.

PM Surya Ghar Muft Bijli Yojana was launched by Honorable Prime Minister on 13th April 2024. To enable the consumers to avail the benefits of this Yojna, necessary information of the scheme has been displayed on BEST website and electricity bills. Till 31/03/2026, total 36 nos. of new Roof Top Solar (RTS) connections have been released under this scheme. At present BEST has 708 Roof Top Solar (RTS) installed consumers including RTS connections released under PM-Surya Ghar Yojna. The installed capacity of Roof Top Solar (RTS) in BEST 'area of distribution (Mumbai -City) is 21.30 MW as on Mar 26.

BEST has signed power purchase Agreement for procurement of 634 MW Wind Solar Hybrid power with Solar Energy Corporation of India (SECI). BEST will thereby be able to supply environment friendly green power to its consumers. In FY 2025-26 a total of 32.38 MUs of Wind Power and 378.33 MUs of Solar power have been procured from these sources.
